# MONTHLY MOTOR FUEL REPORTED BY STATES 

## DECEMBER 1999

## ELECTRONIC TABLES AVAILABLE ON THE INTERNET

The tables in this report can be found each month on the Office of Highway Policy Information webpage under Products and Publications. The publication is entitled "Monthly Motor Fuel Reported by States."

The address is: http://www.fhwa.dot.gov/ohim.

## QUESTIONS AND MAILING LIST CHANGES

## Motor Fuel Trends

## Gasoline Sales

Based on reports of 37 States, gasoline consumption for January-December 1999 increased by
2.1 percent compared to the same period in 1998. ${ }^{1}$ During this period, vehicle-miles of travel increased by 2.0 percent.

The gasoline volume shown in this report is a cumulative tabulation of gross volume reported by wholesale distributors to State motor fuel tax agencies. It includes highway use, nonhighway use and losses. There is a lag of up to 6 weeks between the wholesale transactions reported and retail sales to consumers. Travel trends are reported monthly in Traffic Volume Trends based on actual traffic counts at permanent traffic recorders operated by the State highway agencies and, thus, reflect only highway use of fuel. The vehicle-miles reported include all vehicles, regardless of fuel type. While data in both reports reflect changes in trends, large monthly changes can be caused by exceptional weather conditions, variations in timing of holidays, or processing delays.

## Motor Fuel Taxation

All States levy volume taxes on gasoline and diesel fuel. The rates in effect for 1999 are shown in Table MF121T. The gasoline rates vary from a low of 7.5 cents per gallon to 32 cents with an average of 19.96 cents. Five States provide for full or partial exemptions for gasohol, a blend of 90 percent gasoline and 10 percent fuel alcohol. Diesel fuel rates vary from 7.5 cents to 30.8 cents per gallon.

Traditionally, State fuel tax rates could only be changed with legislation, but 11 States now have variable rate motor fuel taxes. These taxes are adjusted at specified intervals-annually, semiannually, or quarterly-usually on the basis of an index or formula specified in the enabling legislation. These States are identified in the notes on Table MF-121T. Adjustments to variable rate taxes are announced by State tax agencies shortly before the effective date of the change. In addition to rate changes under variable rate tax laws, the following rate changes are anticipated through the end of 2000:

Arkansas Effective 4/1/00, the tax rate for diesel will increase to 22.5 cents per gallonand effective $7 / 1 / 00$, the tax rate for gasoline will increase to 20.5 cents per gallon.

New York Effective for April, May and June 2000, tax rates will be 30 cents per gallon for gasoline and 28.65 cents per gallon for diesel.
${ }^{1}$ This percentage change is a comparison for those States for which data are available for the report month. However, the percentage increase on the national map is a comparison of cumulative data for all States for which both 1998 and 1999 data are available.

 This table shows gross volume of gasoline reported by wholesale distributors in each State. The data are taken from State taxation reports and may reflect time lags of 6 weeks or more between the
wholesale and retail levels. The data include highway use, nonhighway use, and losses.

1/ This table shows gross volume of special fuels (primarily diesel fuel with small amounts of liquefied petroleum gas) reported by the State motor fuel tax agencies. To the extent possible, fuel consumed by Federal, State, and local government agencies and all nonhighway use has been excluded from this table. Further adjustments may be made during the year-end analysis. In many cases, the data reflect retail sales, but a number of States tax special fuels at the wholesale level. In some cases, corrections for interstate motor carrier use have not
been made. When interstate motor carrier fuel volume is reported quarterly to FHWA, the volume is shown in the third month of the quarter. Highway use of special fuels is reported in table MF-21 in the annual report, Highway Statistics.

2/ Total includes only those States for which data are shown.

## MOTOR FUEL TAX RATES

 FOR SELECTED COUNTRIES ${ }^{1}$ AS OF MARCH 1, 2000

## Note to Users of Monthly Motor-Fuel "Retail Price" Data:

Beginning with the January 1997 issue, the Federal Highway Administration (FHWA) reinstituted motor fuel price data using data collected by the U. S. Department of Energy, Energy Information Administration (EIA) as the source for Table MF-5, "Retail Prices of Motor Fuel". The EIA Table 31 - "Motor Gasoline Prices by Grade, Sales Type, PAD District (Cents per Gallon Excluding Taxes)" will be used as the base information for the FHWA Table MF-5. The EIA data, which is based on the EIA-782 survey, was implemented in 1983 to fulfill EIA legislative requirements and community data needs. The FHWA will follow EIA protocols and requirements in making the data available to "Monthly Motor Fuel" customers.

Because the "Sales to End Users - Through Retail Outlets" data does not include Federal, State, and local taxes, FHWA will add Federal motor fuel and State motor fuel taxes to the EIA data. Federal Highway User Taxes (Table FE-21B) and State Tax Rates on Motor Fuel ( Table MF121T) are the FHWA sources for this data. Excluded from the total are other taxes such as local taxes and sales taxes applied to motor fuel, etc.

Users of Table MF-5 should consult the "Explanatory Notes" of the EIA Publication "Petroleum Marketing Monthly" (DOE/EIA-0380) before making use of the retail price information. The "Explanatory Notes" contain important information on the design of the sample, the continuity of the data, collection methods processing, non-disclosure, and revisions.

Pre-January 1997 retail price data was furnished by a source other than EIA. Because the sample design, collection methods, processing, and other data considerations differ between the two sources, users are particularly cautioned not to make direct comparisons of the data using previous MF-5 retail price data for any trend line comparisons.

1/ Gasoline prices are taken from the U. S. Department of Energy, Energy Information Administration's Petroleum
Marketing Monthly Report, Table 31 - Motor Gasoline Prices by Grade, Sales Type, PAD District (Cents per Gallon Excluding Taxes). Taxes have been included using Federal Highway Administration's Table MF-121T - Tax Rates on Motor Fuel and Table FE-21B Federal Highway User Taxes. Data may be withheld or not available for a few States monthly because of non-disclosure.

2/ Diesel prices are averages from a survey conducted by the U.S. Department of Energy, Energy Information regional level information is updated weekly (on Mondays) and may be obtained by dialing the National Energy Information Center's fuel price hotline at 202-586-6966.
