1. Introduction

The Recovery Act Data System (RADS) is composed of a web interface over an SQL Server database. This document serves as an overview of the user interface and underlying RADS database along with a thorough description of the input files and coding instructions for each data item.

RADS version 3.1 (RADS v3.1) replaces the previous version of RADS v2.5. The changes in v3.1 include some significant enhancements to RADS v2.5. The changes from RADS v1.0 to RADS v2.0 were implemented to improve the efficiency of the database, minimize redundant data, improve data quality, and address new Office of Management and Budget (OMB) reporting requirements. Over the first seven months following the enactment of the American Recovery and Reinvestment Act (Recovery Act) of 2009, OMB issued numerous documents describing the data to be reported under Section 1512 of Recovery Act. The changes from RADS v1.0 to RADS v2.0 specifically addressed the OMB guidance from June – September 2009.

One significant feature of v2.0 was the ability to produce the OMB required 1512 Report for each State. If a State has entered all the required data into RADS, the State will be able to enter into RADS and produce the 1512 Report that is required to be submitted to the OMB on a quarterly basis. RADS v3.1 continues to meet the requirements of Recovery Act sections 1201 and 1609, as well as other important reporting needs such as tracking projects relative to economically distressed areas (EDAs) and payments to disadvantaged business enterprises (DBEs).

Throughout this document, every effort has been made to bridge the gap between OMB's guidance and common transportation vernacular. For example, in the context of Highway Infrastructure grants to States, OMB refers to the States as "recipients." Similarly, local governmental agencies responsible for the oversight of Recovery Act projects are considered "sub-recipients." Contractors for both States and locals are considered "vendors." Throughout this document, both sets of terms are used side-by-side as a way to eliminate some of the confusion associated with these new terms.

To help ensure consistency with OMB and to facilitate the comparison of RADS v3.1 to OMB guidance, FHWA has attempted to use OMB variable names to the maximum extent possible. This is especially true for new fields that were added to the existing data in RADS v1.0.

All recipients are required to enter/update their data by the 20th of each month for the previous month. Data can be updated as it become available, however, the 20th deadline gives FHWA an appropriate timeframe to generate reports and review data.

1.1. Purpose and Audience

The document is intended for conceptual data-entry guidance as opposed to a user's manual for the data-entry software. It outlines and defines the data to be entered into each field. It is primarily used by the states to enter their data, but might also be utilized by personnel at FHWA as a reference.

1.2. RADS 3.1 Database Diagram

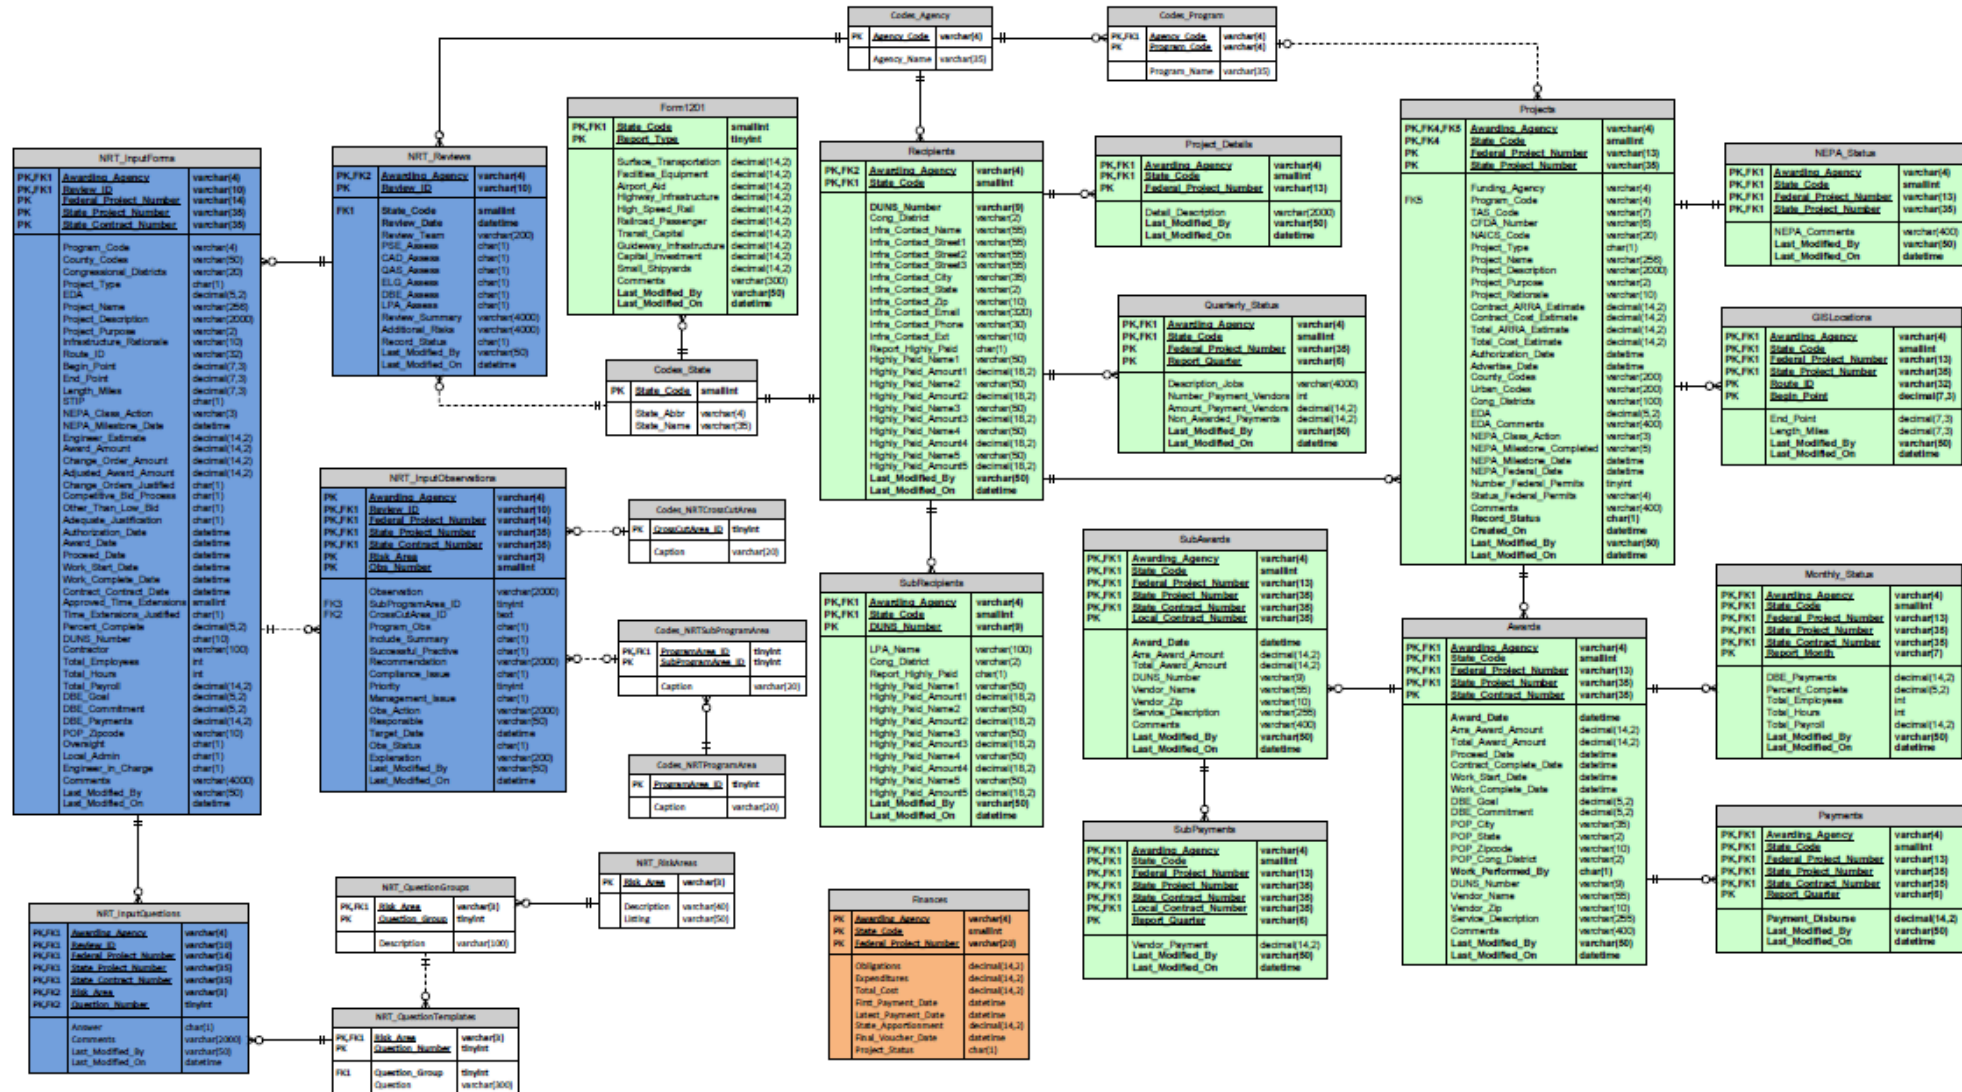

Figure 1 – RADS Database Schema

1.3. Description of Data Relationships in RADS

1. RADS v3.1 is a large improvement over the original RADS 1.0 version. The amount of data reported monthly has been greatly reduced, and the new system is much more flexible in how data are reported. The new RADS also greatly reduced the amount of redundant data both within the database and being reported by the recipients. This new data structure brings about a slightly modified set of rules that data providers and users will need to learn. The following is a brief description of the rules that recipients will need to follow if their data are to be loaded properly into RADS.
2. The Projects file is the central file in RADS. A project cannot be loaded into any other file until it has been successfully loaded into the Projects file.
3. Once a project has been added to the Projects file, it can then be added to the Awards file. While not a key field, the Award Date is a required field for all entries in the Awards file.
4. For locally administered projects (LPA) and vendors, the name and the DUNS number of the entity is to be provided in the Sub-Recipient file prior to entering in the Awards file. The LPA contractor data is provided in the Sub-Awards file.
5. The GIS Location file contains information about the location of each project. At a minimum, the centerline length of road (in miles) being improved needs to be provided and should correspond to the state network.
6. The Recipients and Sub-Recipients files contain basic information for the recipient and each LPA. The reporting of the highest compensated officials is only required if the recipient or sub-recipient meets all of the reporting criteria.
7. Following the successful loading of a project into the Awards and Sub-Awards (if applicable) files, the recipient can begin submitting monthly data for the project in the Monthly Status file.
8. The Quarterly Status, Payments, and Sub-Payments files contain data that only need to be updated quarterly.

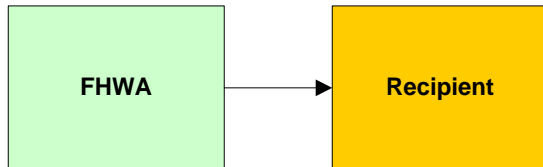

1.4. Abbreviations and Acronyms

ARRA	American Recovery and Reinvestment Act
CFDA	Catalog of Federal Domestic Assistance
DNE	Does Not Exist
EDA	Economically Distressed Area
FIPS	Federal Information Processing Standards
FHWA	Federal Highway Administration
FLMA	Federal Land Managing Agency
FMIS	Financial Management Improvement System
FPDS	Federal Procurement Data System
DOT	Department of Transportation
DBE	Disadvantaged Business Enterprise
GIS	Geographic Information System
HBRRP	Highway Bridge Replacement and Rehabilitation Program
HPMS	Highway Performance Monitoring System
LPA	Locally Administered Project
MOE	Maintenance of Effort
NA	Not applicable
NAICS	North American Industry Classification System
NBI	National Bridge Inventory
NEPA	National Environmental Policy Act
OMB	Office of Management and Budget
POP	Principal Place of Performance
PS&E	Plans, Specifications and Estimates
RADS	Recovery Act Data System
STIP	Statewide Transportation Improvement Program
TAS	Treasury Accounting Symbol
TBD	To be determined
TIGER	Transportation Investment Generating Economic Recovery

2. RADS Scenarios

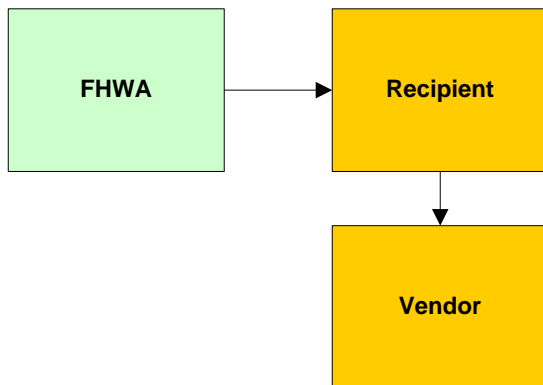

The following set of scenarios describes the files and data submitted into RADS for different reporting situations.

Scenario 1 – All work done by State forces

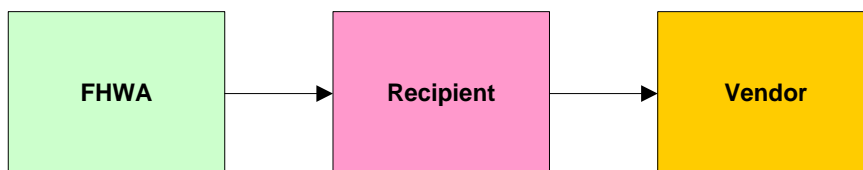

1. Recipient record
1. Projects record
1. Awards record
 - Work performed by State (Recipient)

Scenario 2 – Work done by State forces and a single State contractor

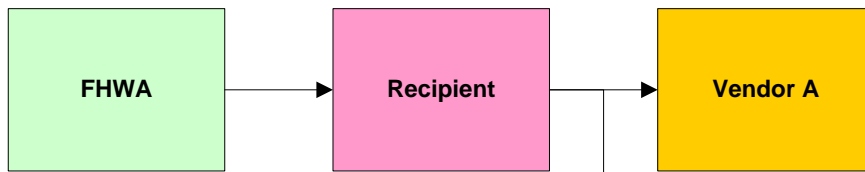

1. Recipient record
1. Projects record
2. Awards records
 - Work performed by State (Recipient)
 - Work performed by contractor (Vendor)

Scenario 3 – All work done by a single State contractor

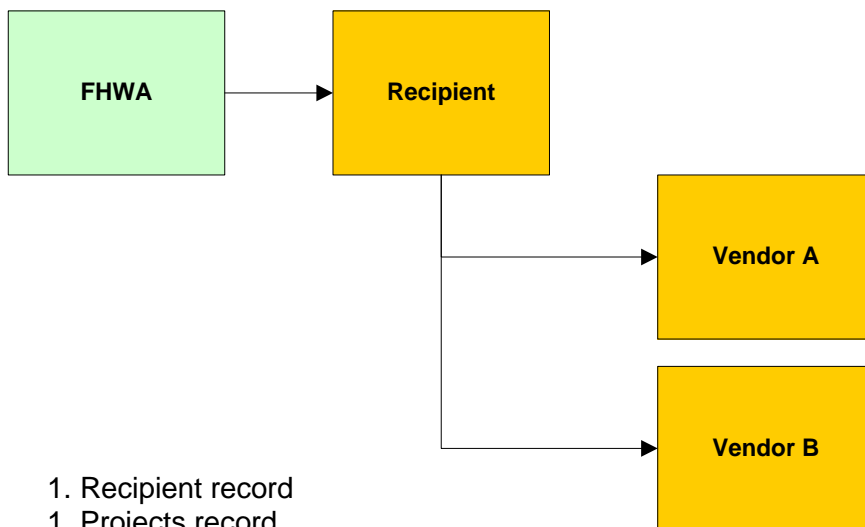

1. Recipient record
1. Projects record
1. Awards record
 - Work performed by contractor (Vendor)

Scenario 4 – All work done by two State prime contractors

1. Recipient record
1. Projects record
2. Awards records
- Work performed by contractor (Vendor A)
- Work performed by contractor (Vendor B)

Scenario 5 – All work done by State forces and two State prime contractors

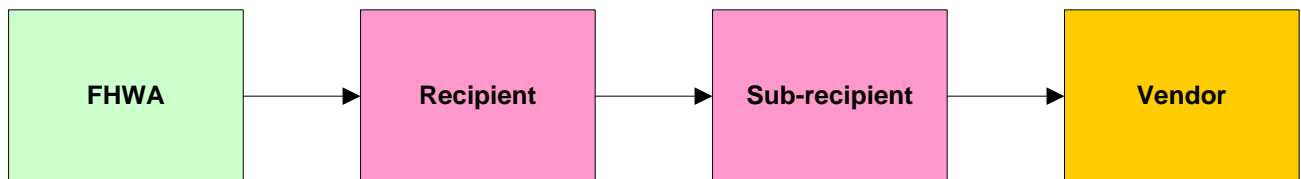

1. Recipient record
1. Projects record
3. Awards records
- Work performed by State (Recipient)
- Work performed by contractor (Vendor A)
- Work performed by contractor (Vendor B)

Scenario 6 – All work done by local forces (LPA)

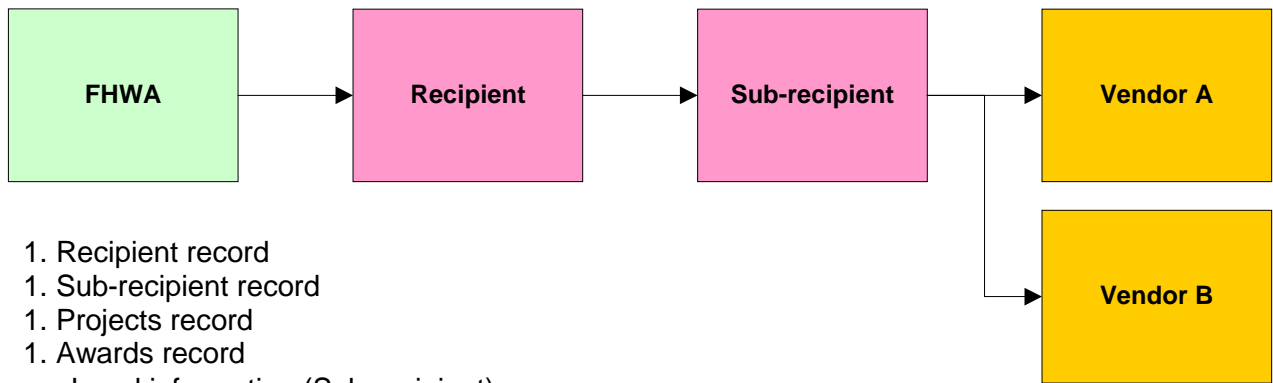

- 1. Recipient record
- 1. Sub-recipient record
- 1. Projects record
- 1. Awards record
- Local information (Sub-recipient)

Scenario 7 – All work done by a single local contractor (LPA)

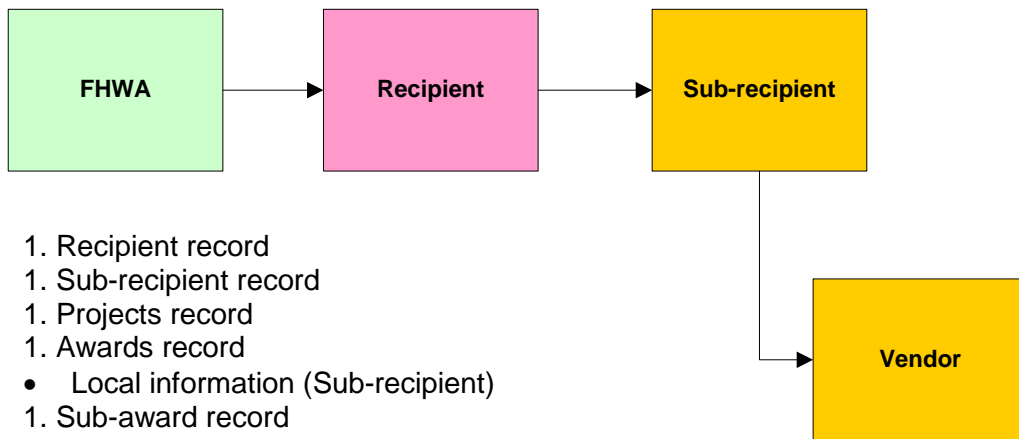

- 1. Recipient record
- 1. Sub-recipient record
- 1. Projects record
- 1. Awards record
- Local information (Sub-recipient)
- 1. Sub-award record
- Local contractor (Vendor)

Scenario 8 – All work done by two local prime contractors (LPA)

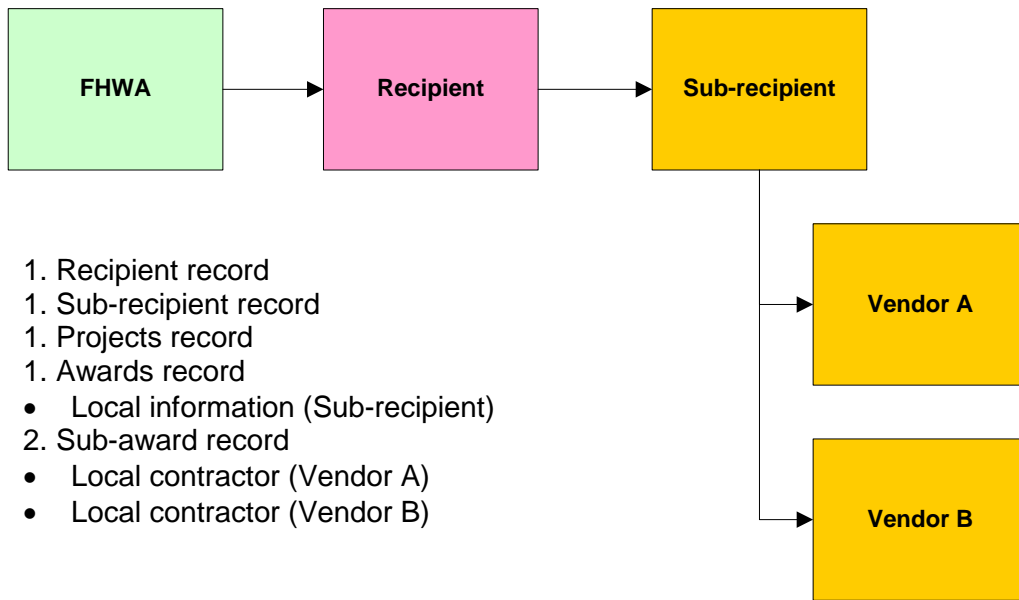

- 1. Recipient record
- 1. Sub-recipient record
- 1. Projects record
- 1. Awards record
 - Local information (Sub-recipient)
- 2. Sub-award records
 - Local contractor (Vendor A)
 - Local contractor (Vendor B)

Scenario 9 – All work done by local forces and a single local contractor (LPA)

- 1. Recipient record
- 1. Sub-recipient record
- 1. Projects record
- 1. Awards record
 - Local information (Sub-recipient)
- 1. Sub-award record
 - Local contractor (Vendor)

Scenario 10 – All work done by local forces and two local prime contractors (LPA)

- 1. Recipient record
- 1. Sub-recipient record
- 1. Projects record
- 1. Awards record
 - Local information (Sub-recipient)
- 2. Sub-award record
 - Local contractor (Vendor A)
 - Local contractor (Vendor B)

3. Reporting Schedule

The purpose of this section is to inform the reader of the primary reporting schedule for each data table, and some of the major exceptions for individual data items. The schedule for initial and subsequent reporting varies by table and data item. Unless otherwise noted, monthly and quarterly data along with periodic updates to other data are required for each project until the date the recipient has issued a notice of final voucher to the vendor or sub-recipient. Please note that all data items are required for all contractors or projects unless otherwise noted.

Recipients

These data are required prior to the recipient's submittal of their 1512 report. The majority of data are reported once for each recipient and updated as needed e.g. new contact person or change of phone number. Note that the data for Highly Compensated Executives need to be updated annually to match the recipient's latest financial report.

Projects

These data should be entered within two weeks of a project being added to the State's 1511 certification. Note that some data items will need to be periodically updated to reflect changes in status, specifically the NEPA data.

GIS Locations

These data are entered once for each project and should be updated to reflect any changes in project scope.

NEPA Status

The data in this table are only required once for projects where the NEPA action is or has taken longer than 90 days to process.

Awards

These data are initially entered within 4 weeks of the day that each project or contract is awarded and then periodically over the life of the project within 4 weeks of a status change.

Sub-Recipients

These data are required prior to entering data in the Awards table. Note that the data for Highly Compensated Executives need to be updated annually to match the sub-recipient's latest financial report.

Sub-Awards

These data are initially entered within 4 weeks of the day that contract is awarded.

Monthly Status

Initial reporting should coincide with work beginning on the contract or project. These data are required by the 20th of each month through the issuance of a notice of final voucher for the contract or project.

Payments

These data are required by the quarterly 1512 report due date. These data are required for all projects regardless of whether or not the recipient is using RADS for producing their 1512 reports.

Sub-Payments

These data are optional. If the recipient chooses to report, these data are required by the quarterly 1512 report due date.

Quarterly Status

These data are required by the quarterly 1512 report due date. These data are required for all projects regardless of whether or not the recipient is using RADS for producing their 1512 reports.

Maintenance of Effort

These data are required periodically over the life of the Recovery Act. The deadlines for reporting are provided in the last column of the table below:

Table 2 – Reporting Deadlines for Maintenance of Effort

Description	Report Start Date	Report Cumulative Amounts Through	Reporting Deadline
90 days	Feb 17, 2009	April 30, 2009	May 18, 2009
180 days	Feb 17, 2009	July 31, 2009	August 16, 2009
1 year	Feb 17, 2009	January 31, 2010	February 17, 2010
2 years (tentative)	Feb 17, 2009	September 30, 2010	November 1, 2010
2 years (final)	Feb 17, 2009	September 30, 2010	February 17, 2011
2 years (revised)	Feb 17, 2009	September 30, 2010	February 17, 2012

States are encouraged to report actual expenditure data for the 2 year report by November 1, 2010. DOT is likely to issue additional guidance on this matter.

Project Details

These data are required once for each project within 2 weeks of being added to the Projects Table. These data should be updated to reflect any changes in project scope.

The table below summarizes the reporting schedule for all table data listed in this section, as well as providing indication of if said data is mandatory or optional.

Table 3 – Reporting Schedule for RADS Data Tables

Table	Section	Report Due Date	Comments
Recipients	4.1	This file is due prior to the State's submittal of its 1512 report. Updating Executive Compensation data is required on an annual basis and should correspond with each recipient's end of fiscal year data.	Mandatory
Projects	4.2	New projects need to be submitted within 2 weeks of being added to the recipient's 1511 certification. Updates and edits should be submitted as they occur. FHWA Division Offices are expected to review these NEPA data items monthly and provide comments to State DOTs as necessary.	Mandatory

Table	Section	Report Due Date	Comments
GIS Locations	4.3	The submittal of these data should correspond to the addition and updating of projects in the Projects file.	Mandatory
NEPA Status	4.4	Recipients should review these data quarterly and update to reflect changes in NEPA status.	Conditional
Awards	4.5	New projects, changes, and updates are to be submitted within 4 weeks of project initiation.	Mandatory
Sub-Recipients	4.6	This file is due prior to the State's submittal of its 1512 report. Updating Executive Compensation data is required on an annual basis and should correspond with each recipient's end of fiscal year data.	Mandatory
Sub-Awards	4.7	Recipients need to submit new projects within 4 weeks of the day the contract is awarded.	Mandatory
Monthly Status	4.8	These data are required by the 20 th of each month.	Mandatory
Payments	4.9	These data are required by the quarterly 1512 report due date.	Mandatory
Sub-Payments	4.10	These data are required by the quarterly 1512 report due date.	Mandatory
Quarterly Status	4.11	These data are required by the quarterly 1512 report due date.	Mandatory
Maintenance of Effort	4.12	Each State needs to update their Maintenance of Effort data to comply with the deadlines in Table 2 – Reporting Deadlines for Maintenance of Effort above.	Mandatory
Project Details	4.13	These data are required within two weeks of a new file being updated in the Projects Table.	Mandatory

4. RADS Input Files

The format of the input files for RADS has changed with version 3.1. The initial version of RADS used Excel based forms or a text files as an input file, where version 3.1 will only accept a text file. Users are able to upload data into RADS via a series of text files. Each file has a corresponding section in the RADS “Data Viewer” as illustrated below.

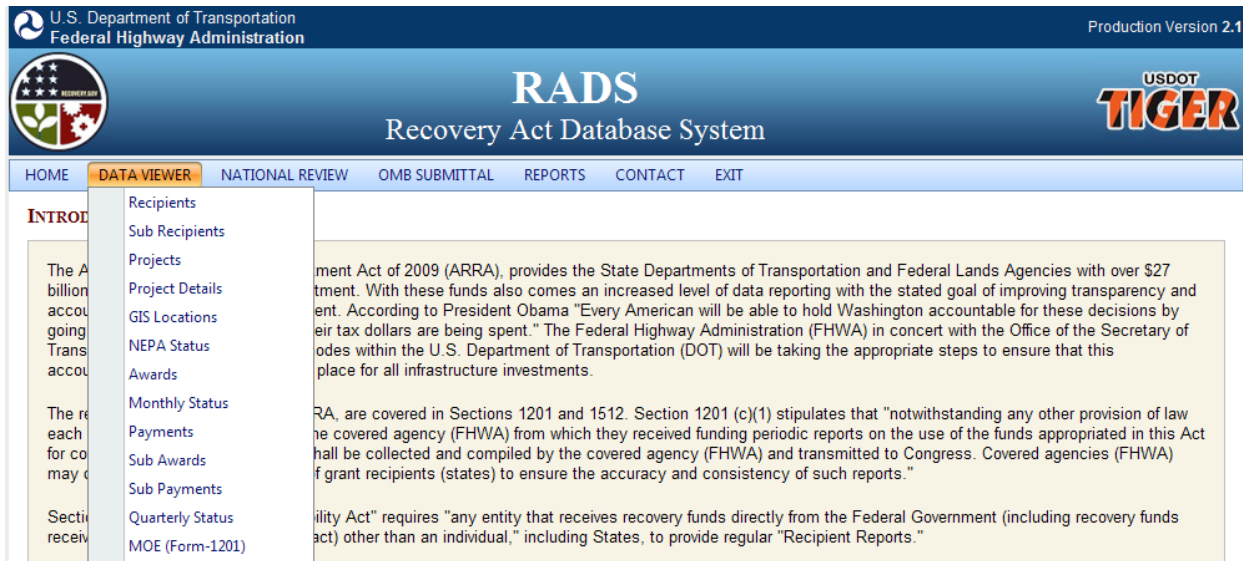

Figure 2 – RADS Data Viewer Screen Shot

Each of the sections in the RADS Data Viewer is a table within the RADS database. A schema of the RADS database can be found on page 2 of this document.

Each RADS input file needs to be a “pipe delimited” file. The actual extension of the file needs to be either “TXT” or “CSV”. The “pipe” character, or “|”, is located on most keyboards above the “Enter” key. “Pipe delimited” means that every data items in the RADS input files needs to be separated by a “pipe” or “|.”

Another important change to the input files is the ability for the user to upload a portion of the data items for each table, rather than having to include all data items. For example, the Awards file contains the Notice to Proceed Date for each project. Recipients can submit every data item in the Awards file, or they can elect to submit just the four primary data items and the Notice to Proceed Date for only the projects that have changed since their last submittal. For instance, if the State of Illinois decided to update only the Notice to Proceed date for one project, the file would look like this:

```
Agency AwardCode|State_Code|State_Project_Number|Federal_Project_Number|
State_Contract_Number|Proceed_Date 692517|C-97-083-06|0674111|74172|07/04/2009|
```

The following section describes each of the RADS input files, and includes when the file is due; a brief description of the file contents and how the data are used; and a table showing the data items, RADS field name, primary key fields, format, and an example of the data input.

4.1. Recipients

Table use and description: This file contains data for each Recovery Act recipient, which is the State DOT in the case of Federal-aid highway projects and discretionary grants. Federal Lands and certain Tiger Grant recipients may include non-State DOT recipients. This file primarily exists to meet OMB 1512 reporting requirements. Only state DOT & Federal Land division can be entered here due to external data constraints.

Due: This file is due prior to the State's submittal of its 1512 report. Updating Executive Compensation data is required on an annual basis and should correspond with each recipient's end of fiscal year data.

Table 4 – Recipients

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
DUNS Number*	DUNS_Number	Yes	Varchar(9) 123456789
Congressional District	Cong_District		Varchar(2) 01
Name of Infrastructure Contact	Contact_Name		Varchar(55) Pat Doe
1st Infrastructure Street Address	Contact_Street1		Varchar(55) 150 E. Lake Street
2nd Infrastructure Street Address	Contact_Street2		Varchar(55)
3rd Infrastructure Street Address	Contact_Street3		Varchar(55)
Infrastructure Contact City	Contact_City		Varchar(35) Chicago
Infrastructure Contact State	Contact_State		Varchar(2) IL
Infrastructure Contact Zip Code	Contact_Zip		Varchar(10) 60601-0000
Infrastructure Contact E-mail Address	Contact_Email		Varchar(320) Pdoe@work.com
Infrastructure Contact Phone Number	Contact_Phone		Varchar(30) 312-777-3333
Infrastructure Contact Phone Extension	Contact_Ext		Varchar(10)
Report Executive Compensation*	Report_Highly_Paid		Char(1) N
1st Executive Name	Highly_Paid_Name1		Varchar(50)
1st Executive Compensation Amount	Highly_Paid_Amount1		Decimal(19,2)
2nd Executive Name	Highly_Paid_Name2		Varchar(50)
2nd Executive Compensation Amount	Highly_Paid_Amount2		Decimal(19,2)
3rd Executive Name	Highly_Paid_Name3		Varchar(50)

Item Name	RADS Field Name	Primary	Format/Example
3rd Executive Compensation Amount	Highly_Paid_Amount3		Decimal(19,2)
4th Executive Name	Highly_Paid_Name4		Varchar(50)
4th Executive Compensation Amount	Highly_Paid_Amount4		Decimal(19,2)
5th Executive Name	Highly_Paid_Name5		Varchar(50)
5th Executive Compensation Amount	Highly_Paid_Amount5		Decimal(19,2)

*This field is required for this table.

4.1.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. For FRA Projects enter 6930. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

DUNS Number (DUNS_Number): The unique nine-digit number issued by Dun & Bradstreet. All recipients must have a DUNS number. The DUNS number should be reported as “999999999.” This field is required for this table.

Congressional District (Cong_District): The number of the Congressional District where the recipient is located. States that have only one Congressional District (AK, DE, DC, MT, ND, SD, VT, and WY) should code “01”.

Infrastructure Contact Information: OMB has requested the following data items for each State (recipient). This information only needs to be entered once in the Recipients file.

- **Contact_Name:** Name of the primary contact.
- **Contact_Street1:** Street address for contact.
- **Contact_Street2:** 2nd Street address for contact if needed.
- **Contact_Street3:** 3rd Street address for contact if needed.
- **Contact_City:** Name of city.
- **Contact_State:** Two character State abbreviation.
- **Contact_Zip:** Nine digit zip code. When providing a 9 digit zip code, please **include** the dash “-”.
- **Contact_Email:** E-mail address for the contact.
- **Contact_Phone:** Phone number for the contact.
- **Contact_Ext:** If applicable, the contacts phone extension.

Report Executive Compensation (Report_Highly_Paid): A yes or no field (code “Y” or “N”) used to indicate in the Recipient and Sub-recipient files if the recipient or sub-recipient meets the statutory requirements for reporting the names and compensation for its Top 5 Compensated Employees if the recipient meets all three of the following criteria (1) in the preceding fiscal year the recipient received 80 percent or more of its annual gross revenues in Federal awards; and (2) in the preceding fiscal year the recipient received \$25,000,000 or more in annual gross revenues from Federal awards; and (3) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986 [26 USC § 6104]. This field is required for this table. For State and local governments, the revenue side of their budgets – both capital and operating – is the equivalent of “annual gross revenues”. This field is required for this table.

Executive Name (Highly_Paid_Name) and Executive Compensation Amount (Highly_Paid_Amount):

This encompasses the reporting of executive compensation data items. Recipients and sub-recipients of Federal financial assistance must report executive compensation data if they meet the statutory reporting thresholds. For the Federal-aid Highway Program, this means that the State and any local agencies or other sub-recipients of Federal-aid funds through the State, are subject to the executive compensation reporting requirement.

Contractors working for a recipient (i.e., the State) or for a sub-recipient (e.g., local agencies) do not have to report on executive compensation. These are the statutory requirements for reporting:

- The entity received 80% or more of its annual gross revenues in the preceding fiscal year from Federal awards, **and**
- The entity received \$25 million or more in annual gross revenues in the preceding fiscal year from Federal awards, **and**
- The public does not have access to the information through Securities and Exchange Commission or Internal Revenue Service filings as specified in FFATA.

For State and local governments, the revenue side of their budgets – both capital and operating – is the equivalent of “annual gross revenues”.

“Total compensation” means the cash and non-cash dollar value earned by the executive during the recipient’s past fiscal year of the following: (i) salary and bonus; (ii) awards of stock, stock options, and stock appreciation rights (Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with FAS 123R); (iii) earnings for services under non-equity incentive plans (Does not include group life, health, hospitalization, or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees); (iv) change in pension value (This is the change in present value of defined benefit and actuarial pension plans.); (v) above-market earnings on deferred compensation that are not tax-qualified; and (vi) other compensation (For example: severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property if the value for the executive exceeds \$10,000). For more information see 17 CFR 229.402(c)(2).

1st – 5th Executive Name (Highly_Paid_Name1 – 5): The name of each of the top five paid officials if all of the reporting requirements are met. This only applies to States (recipients) and their sub-recipients (e.g., local government agencies).

1st – 5th Executive Compensation Amount (Highly_Paid_Amount1 – 5): The total compensation for each of the five most highly paid officers of the recipient or sub-recipient. Do **not** enter a dollar sign "\$" or a comma ",", (e.g. "\$12,000.00" would be coded as "12000.00").

4.2. Projects

Table use and description: The Projects file contains an entry for each project in the recipient's 1511 certification. A project cannot be included in any of the other files in RADS until it has been included in this file along with an assigned Federal Project Number. This file contains most of the descriptive data that are used in most every RADS report, as well as special fields that are used for analyzing projects. The NEPA and EDA data are routinely used to categorize and analyze the Recovery Act projects.

Due: New projects need to be submitted within 2 weeks of being added to the recipient's 1511 certification. Updates and edits should be submitted as they occur. FHWA Division Offices are expected to review these NEPA data items monthly and provide comments to State DOTs as necessary.

Table 5 – Projects

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4)
			6925
State FIPS Code*	State_Code	Yes	TINYINT
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35)
			0674111
State Project Number*	State_Project_Number	Yes	Varchar(35)
			C-97-083-06
Funding Agency Code	Funding_Agency		Varchar(4)
			6925
Program Code	Program_Code		Varchar(4)
			C2XX

*This field is required for this table.

4.2.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit format reported in FMIS. For example, the project STM-1222(12) should be reported as “1222012.” This field will only accept a single project number in the correct 7 digit format. Any project number that contains a space, dash “-”, or parenthesis (“(or)”) will be rejected. Enter “TBD” if no federal-aid project number has been assigned yet. At the time of the award, all TBDs must be edited to reflect the Federal Project Number. This is a required field for this table. Changing the Federal Project Number in this table will automatically

change the corresponding project number in all other tables within RADS. Note this may impact your 1512 reporting. For non-state DOT projects, it is left up to the administration agency to designate an appropriate Federal project number. This project number should be the same one use in the 1512 recipient's reporting as well as conform to the other Federal project constraints (i.e., no dashes or parenthesis) and the number is limited to 35 characters.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the format reported in FMIS. Federal Lands will use this column to assign the "State" where the project is located. **Do not enter multiple State project numbers or identification numbers; this field can only contain one project number.** It is very important this number is always entered the same way for the same project in all files. This is a required field for this table. Changing the State Project Number in this table will automatically change the corresponding project number in all other tables within RADS.

Funding Agency (Funding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter "6925". See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

Program Code (Program_Code): Enter the 3 or 4 digit program code below that describes the predominant ARRA funds used for the project.

Table 6 – Program Codes by Awarding Agency

Awarding Agency	Program Code	Description
6925	C2XX	Highway Infrastructure Investment Grants
6925	C490	Highway Surface Transportation and Technology Training
6925	C950	Construction of Ferry Boats
6925	CP10	Puerto Rico Highway Program
6925	CT10	Territorial Highway Program
6925	CTDG	TIGER
6925	D110	Indian Reservation Roads
6925	D170	Park Roads and Parkways
6925	D180	Forest Highways
6925	D190	Refuge Roads
6925	D480	Disadvantaged Business Enterprise Bonding Assistance
6930	HSR	High-Speed Rail
6930	IPR	Intercity Passenger Rail Investment
6930	LRI	Rail Line Relocation & Improvement
6930	MPS	Maglev Project Selections
6930	OLS	Operation Lifesaver
6930	RLD	Railroad Development
6930	RRD	Railroad Research & Development
6930	RRR	Railroad Rehabilitation & Repair
6930	RSR	Risk Reduction
6930	SEC	Security Grant

Awarding Agency	Program Code	Description
6930	TEC	Railroad Safety Technology Grant
6930	TGR	Surface Transportation Infrastructure Grants (TIGER 1)

Treasury Accounting Symbol (TAS_Code): The Treasury Accounting Symbol (TAS) for all FHWA grants and contracts is '69-0504.' Note that the hyphen "-" needs to be included. For direct Federal contract awards, this corresponds to the "TAS::69 0504::TAS" string provided for reporting purposes in the Federal Procurement Data System (FPDS).

CFDA Number (CFDA_Number): The Catalog of Federal Domestic Assistance (CFDA) number FHWA grants and contracts are below:

Table 7 – CFDA Grant Numbers

Project	CFDA
Highway Infrastructure Investment Grants	20.205
National Railroad Passenger Corporation Grants	20.315
High Speed Rail Corridors and Intercity Passenger Rail Service - Capital Assistance Grants	20.319
TIGER I Grants	20.932
TIGER II Grants	20.933
Contracts	<blank>

North American Industry Classification System Code (NAICS_Code): Enter the 6 digit numeric North American Industry Classification System (NAICS) code(s) that describe the Recovery Act activities under this project. Multiple codes can be provided; separate with a comma ",". A searchable list of all NAICS codes is available at: <http://www.census.gov/naics/>. Please verify that the correct NAICS Code from the website is being used.

Project Type (Project_Type): A character code used to denote the type of project. Projects are divided into individual projects and area wide projects. Individual projects are defined as a project primarily on a single highway. Area wide projects can be disbursed over a large geographic area, often on multiple highways. This is a required field for this table.

Table 8 – Project Type Codes

Code	Description
I	Individual project
D	District wide project
S	State wide project
O	Other area wide project

Project Name (Project_Name): Consistent with the project name in the STIP.

Project Description (Project_Description): Consistent with Statewide Transportation Improvement Program (STIP) description and/or description provided in the 1511 certification. Please avoid the use of abbreviations.

Project Purpose (Project_Purpose): Enter the predominant improvement type using the FMIS improvement type codes. For example, the improvement “New Construction Roadway” should be entered as “01”. The complete list of FMIS improvement type codes and descriptions are provided in Appendix C.

Project Rationale (Project_Rationale): The recipient's rationale for funding the infrastructure investment with funds made available under the Recovery Act. This explains how the infrastructure investment will contribute to one or more of the purposes using the following codes. Recipients can enter one or more codes. Multiple codes should be separated by a comma “,”.

Table 9 – Project Rationale Codes

Code	Description
1	To preserve and create jobs and promote economic recovery
2	To assist those most impacted by the recession
3	To provide investments needed to increase economic efficiency by spurring technological advances in science and health
4	To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits
5	To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Estimated Amount of ARRA Contract (Contract_ARRA_Estimate): Recovery Act portion covering the engineer’s estimate for construction bid items submitted with the PS&E. This does not include construction engineering and inspection costs. Utility relocation costs should be included only if the utility relocation work is included in the construction bid package. Once this data is entered, it should not be modified unless the scope of work is changed. In the case where State law or State policy prohibits the release of the above data, leave the field blank. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars. Do not enter a dollar sign “\$” or a comma “,”** (e.g. “\$12,000.00” would be coded as “12000.00”).

Estimate Contract Estimate (Contract_Cost_Estimate): Engineer’s estimate for construction bid items submitted with the PS&E. This does not include construction engineering and inspection costs. Utility relocation costs should be included only if the utility relocation work is included in the construction bid package. Once this data is entered, it should not be modified unless the scope of work is changed. In the case where State law or State policy prohibits the release of the above data, leave the field blank. This will be used to compare the bid and estimate. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars. Do not enter a dollar sign “\$” or a comma “,”** (e.g. “\$12,000.00” would be coded as “12000.00”).

(Estimated Amount of Total ARRA Funds) Total_ARRA_Estimate: The estimated total amount of Recovery Act funds to be expended on the project. This should be consistent with the Recovery Act portion of the original estimate for the project. Once this data is entered, it should not be modified unless the scope of work is changed. **Enter the cost in dollars; do not**

provide costs in thousands or millions of dollars. Do not enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00").

Estimated Total Cost (Total_Cost_Estimate): The estimated total amount of funds to be expended on the project. . Once this data is entered, it should not be modified unless the scope of work is changed. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do not enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00"). This includes CEI and utilities, and contingency and other costs.

ARRA Authorization Date (Authorization_Date): Enter the earliest date that Recovery Act funds were obligated (authorized) to the project, reported as mm/dd/yyyy - (e.g. "May 1, 2009" would be coded as "05/01/2009"). For partially funded Recovery Act projects, report the date that the Recovery Act portion of the funds were obligated. All Federal Lands, IRR, and direct federal contract awards should provide the date the contract was awarded.

Date of Advertisement (Advertise_Date): The date that the Recovery Act project was advertised, reported as mm/dd/yyyy (e.g. "May 1, 2009" would be coded as "05/01/2009"). If the project is re-advertised, enter the new date. **Leave blank if the project has not yet been advertised; do not enter future dates.** For existing projects that were authorized prior March 2, 2009 to which Recovery Act funds have been added, please enter the date the original project was advertised.

County Code (County_Codes): The 3 digit County FIPS Code. For example, the county of Somerset, ME, would be coded as "025." A complete list of County codes can be found in Appendix B. Federal Land Management Agencies will use this field to indicate the State and county where the project is located. For projects that span multiple counties, enter the County FIPS Code for each county separated by a comma ",".

Urban Code (Urban_Code): The Urban Code corresponds to the urban classification used in the 2000 census. It is a 3-5 digit code corresponding to urban areas which may cross state boundaries. If a project crosses urban areas, enter the multiple codes separated by a comma. For small urban areas enter 99998. For Rural areas enter 99999. Refer to Appendix F for a listing of all the Urban Codes by state.

Congressional Districts (Cong_Districts): The Cong_Districts data item allows the State to enter multiple Congressional Districts for an individual project. When entering multiple Congressional Districts, separate each entry with a comma ",".

Percent of Project in EDA (EDA): Percent is used to report the Economically Distressed Area (EDA) status of a project. For single projects that are in an EDA, the project should be reported as 100% in an EDA. For projects that are not in an EDA, they should be reported as 0%. Do not enter a percent sign "%" (e.g. "12.12%" would be coded as "12.12"). Statewide or multi-county projects should report one of the following determinations:

- For statewide projects, a percentage of the project can be credited as having EDA status. This percentage should be determined by using the population in EDA counties in the State as a percentage of the State population as a whole. In other words, if 60% of the State's population is in EDA counties, then 60% of the project's obligated funds would be considered as being obligated in an EDA.

- For multi-county projects, a percentage of the project can be credited as having EDA status. This percentage would be determined by the percentage of the multi-county area population that is in an EDA county. For example, in a three-county area, if one of the three counties is an EDA and that county holds 40% of the population of the three counties combined, 40% of the funds obligated for that project would be considered as being obligated in an EDA.
- If a State has data with the amount of funds being spent on a multi-county project by county, or length of a project by county, these data may also be used to calculate the percent of the EDA population represented by a portion of a statewide or multi-county project.

In making these determinations, states should use the Census Bureau's July 1, 2008 population estimates released in May 2009 that can be downloaded from the Census Bureau website at: <http://www.census.gov/popest/datasets.html>.

EDA Comments (EDA_Comments): This is used to report the method used by a State to determine the EDA status for a project.

If an FHWA HEPGIS map is used to determine EDA status, then the map title and map date should be reported along with the date of project authorization. Use of a more recent map than the March 13, 2009 HEPGIS map requires that the authorization date of the project is later than the map date. Recipients should use the FHWA HEPGIS EDA map that is closest in time to the date on which the EDA determination is being made.

If other information was used to determine EDA status, then that information should be documented as follows:

- Used Federal data at the sub-county level.
- Used State or other data for unemployment or per capita income at the county or sub-county level.
- Special needs criteria 1, 2, 3, or 4 (specify which one is used). Please visit <http://www.fhwa.dot.gov/economicrecovery/guidancedistressed.htm> for more information. **FHWA Headquarters authorization is needed prior to designating a project as being located in an EDA using any of the special need criteria.**
- Other – Provide a brief description of the methodology used to determine special needs. Requires advance consultation with FHWA Divisions and Headquarters, including the Office of the Chief Counsel.

FHWA NEPA Class Action (NEPA_Class_Action): One of five codes that describe the class of FHWA NEPA action:

Table 10 – NEPA Class Action Codes

Code	Description
TBD	To be determined
CE	All types of categorical exclusions
EA	Environmental assessment or finding of no significant impact
EIS	Environmental impact statement
EC	Environmental Cleanup – CERCLA

TBD is only used when project scoping is ongoing and a NEPA class of action has not been determined. If a determination has been made on a NEPA class of action, it should be identified. This is a required field for this table.

FHWA NEPA Milestone Completed (NEPA_Milestone_Completed): Enter the code that corresponds to the FHWA NEPA milestone completed:

Table 11 – NEPA Milestone Codes

Code	Description
TBD	To be determined
CE	All types of categorical exclusions
EA	Environmental assessment
FONSI	Finding of no significant impact
DEIS	Draft environmental impact statement
FEIS	Final environmental impact statement
SEIS	Supplemental environmental impact statement
ROD	Record of decision
EC	Environmental Cleanup – CERCLA

This is a required field for this table.

FHWA NEPA Milestone Date (NEPA_Milestone_Date): Enter date that FHWA approved the NEPA document indicated in NEPA_Class_Action. For Preliminary Engineering (PE) projects, enter the date that the ARRA funds were obligated to the project. Enter the date as *mm/dd/yyyy* (e.g. “May 1, 2009” would be coded as “05/01/2009”). If NEPA_Milestone_Date is blank and/or Status_Federal_Permits is coded as TBD, NOT, or PEND, **a comment must be provided in the NEPA_Comments field in the NEPA Status Table** as to reason for delay in NEPA processing. If a comment is not provided within 90 days after a project is entered into RADS, a blank comment record will automatically be created in the NEPA-Comments field in the NEPA Status Table. The user will need to update the record with a reason for the delay.

Federal NEPA Date (NEPA_Federal_Date): Enter the date of the last Federal 404 permit, Coast Guard permit, Federal Land transfer, etc., is completed. If no other Federal agency NEPA actions are required, enter the date that the FHWA NEPA action was completed consistent with NEPA_Milestone_Date. Enter the date as *mm/dd/yyyy* (e.g. “May 1, 2009” would be coded as “05/01/2009”).

Number of Federal NEPA Permits (Number_Federal_Permits): The number of federal permits/approvals requiring NEPA decisions or NEPA document adoptions by other agencies such as 404 Permits, Coast Guard Bridge Permits, or federal land transfers.

Status of Federal NEPA Permits (Status_Federal_Permits): A character code used to denote the status of any outstanding federal permits or approvals, including those which are not reported in Number_Federal_Permits because they do not require a NEPA decision, such as ESA Section 7 and NHPA Section 106. If multiple permits or approvals are outstanding, choose the code that best describes the permit that is expected to be the last one approved:

Table 12 – Federal Permit Status

Code	Description
TBD	To be determined
NOT	Not Applied
PEND	Applied/Pending
COMP	Completed
NA	Not applicable

If NEPA_Milestone_Date is blank and/or Status_Federal_Permits is coded as TBD, NOT, or PEND, **a comment must be provided in the NEPA_Comments field in the NEPA Status Table** as to reason for delay in NEPA processing. This is a required field for this table.

Tribal Nation (Tribal_Nation): Enter the name of the tribe associated with this project, if applicable, for up to 100 characters.

Comments (Comments): A comment field is provided in a number files. It allows the recipient to provide additional information about the data. **Any NEPA-related comments, whether in the Projects Table or in the NEPA Status Table, need to be entered in the NEPA_Comments field in the NEPA Status Table.**

4.3. GIS Locations

Table use and description: The data in this table are used for determining the geospatial location of each Recovery Act project in RADS. Where applicable and possible, each section of highway being improved should be represented by a separate entry. Especially important is the Length field, which is also used in a number of performance measures. If a recipient is unable to provide the specific location information for a project (route and end points), they will still need to provide the State_Code, State_Project_Number, and Length_Miles data.

Due: The submittal of these data should correspond to the addition and updating of projects in the Projects file.

Table 13 – GIS Locations

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(32) C-97-083-06
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
Route Identifier*	Route_ID	Yes	Varchar(32) 17008000000012250
Beginning Point*	Begin_Point	Yes	Decimal(7,3) 0.000
Ending Point	End_Point		Decimal(7,3) 12.250
Length	Length_Miles		Decimal(7,3) 12.250

*This field is required for this table.

4.3.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

Route Identifier (Route_ID): The Unique Identifier for a Route that is used to Linear Reference a feature on a GIS Network. This should be consistent with the network that the State submits to HPMS. In cases where the Route_ID for a specific Route is not captured on a Network, code "DNE" (does not exist). If the record covers multiple locations within the same project, where a Route_ID does not exist, there should only be one record, but the lengths for those separate locations should be aggregated. This field is required for this table.

Beginning Point (Begin_Point): The beginning mile point for a project. For cases where the linear referencing does not exist for the project, code 0.0. This field is required for this table.

Ending Point (End_Point): Where applicable, the ending mile point for the project. For projects covering multiple routes, either choose the ending reference point for the predominant route or leave this field blank.

Length (Length_Miles): The centerline length of the project. If the record covers multiple routes, enter the total mileage for that record. This field is used as an input into a number of performance measures. It is important that the recipient provides a total or cumulative length when applicable. For projects where centerline length is not applicable (e.g., rest area improvement), leave this field blank.

4.4. NEPA Status

Table use and description: This file contains the NEPA comment field that is required for the quarterly report to the President’s Council on Environmental Quality (CEQ).

A record entry in the NEPA Status Table must have a corresponding State FIPS Code, State Project Number, and Federal Project Number in the Projects Table. If the NEPA action has been completed, then this file does not need to be completed. RADS will automatically create an entry for each project with a NEPA class action of “TBD” after 90 days of the project being entered in RADS.

Due: Recipients should review these data quarterly and update to reflect changes in NEPA status.

Table 14 – NEPA Status

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35) C-97-083-06
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
NEPA Comments	NEPA_Comments		Varchar(400) None

*This field is required for this table.

4.4.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

NEPA Comments (NEPA_Comments): This is a 400 character comment field that is required for those projects where the NEPA action is/has taken longer than 90 days to process. For example, if a Recovery Act project was entered into RADS on June 30, it is expected that the NEPA action should be completed on or before September 30. If the NEPA action is not completed, the recipient needs to explain why in this comment box. If it is an EIS or EA, provide the typical timeframe that it takes to complete these actions and the anticipated date of completion. If it is a CE, provide a specific reason why the NEPA processing is delayed. If NEPA_Milestone_Date is blank and/or Status_Federal_Permits is coded as TBD, NOT, or PEND, a comment must be provided **in the NEPA_Comments field in the NEPA Status Table** as to reason for delay in NEPA processing.

4.5. Awards

Table use and description: This file contains basic information on each awarded project. The data are used in a variety of reports and performance measures. The Principal Place of Performance data are used to determine the general location of each project. While most of the data in this file can be provided at the time the project is awarded, Recipients will occasionally need to update some of the data. This is especially important for the date fields.

A record entry in the Awards Table must have a corresponding State FIPS Code, State Project Number, and Federal Project Number in the Projects Table.

Due: New projects, changes, and updates are to be submitted within 4 weeks of project initiation.

Table 15 – Awards

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4)
			6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35)
			C-97-083-06

Service Description	Service_Description		Varchar(255)
			Mill & Inlay
Comments	Comments		Varchar(400)
			None

*This field is required for this table.

4.5.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

State Contract Number (State_Contract_Number): The State or sub-recipient assigned contract number. This field is used as a primary field to assign multiple entries for a single State or Federal-aid project. States that wish to disaggregate the reporting of their awards and payments should assign a unique number to each contract or group that the State desires to report for. When reporting for State forces, the State is encouraged to use a unique number, text, or even repeat the State_Project_Number. This field is required for this table. Changing the State Contract Number in this table will automatically change the corresponding number in all other tables within RADS.

Award Date (Award_Date): The date that the Recovery Act project was awarded, reported as *mm/dd/yyyy* - (e.g. “May 1, 2009” would be coded as “05/01/2009”). **Do not enter future dates.** This field is required for this table. For existing projects that were authorized prior March 2, 2009 to which Recovery Act funds have been added, please enter the date the original

project was awarded. For State Force or other similar work that does not require awarding a contract, please enter the date the ARRA funds for the project were obligated or authorized.

ARRA Portion of Award Amount (ARRA_Award_Amount): The total amount of Recovery Act funds awarded or available for the specified contract. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00"). This amount should be updated to reflect change orders.

Total Contract Amount (Total_Award_Amount): The total amount awarded or available for the specified contract. In the event that the State transportation agency performs the work, the State transportation agency shall report an estimated cost to the agency. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00"). This amount should be updated to reflect change orders.

Notice to Proceed Date (Proceed_Date): The notice to proceed date for the Recovery Act project, reported as *mm/dd/yyyy* (e.g. "May 1, 2009" would be coded as "05/01/2009"). **Leave blank if the project has not yet been advertised.** For existing projects that were authorized prior March 2, 2009 to which Recovery Act funds have been added, please enter the Notice to Proceed date for the original project.

Contract Completion Date (Contract_Complete_Date): This should reflect the initial, estimated contract completion date as found in the contract, reported as *mm/dd/yyyy* - (e.g. "May 1, 2009" would be coded as "05/01/2009"). This should **not** be updated over time.

Modified Estimated Completion Date (Modified_Estimated_Completion_Date): This should reflect the current estimated contract completion date reported as *mm/dd/yyyy* - (e.g. "May 1, 2009" would be coded as "05/01/2009"). This field should be revised as time extension is issued that impact the project schedule.

Actual Work Start Date (Work_Start_Date): The day that the contractor began construction within the project limits. Reported as *mm/yyyy* (e.g. "May 2009" would be coded as "05/2009"). For existing projects that were authorized prior March 2, 2009 to which Recovery Act funds have been added, please enter the date work began on the original project.

Actual Date Work Completed (Work_Complete_Date): The date the contract is substantially complete, i.e., the project is or could be opened to traffic. This includes the point at which the project is complete such that it can be safely and effectively used by the public without further delays, disruption, or impediments. For the conventional bridge and highway work, the point at which all bridge deck, parapet, pavement structure, shoulder, permanent signing and markings, traffic barrier, and safety appurtenance work is complete.

DBE Goal (DBE_Goal): This is the Disadvantaged Business Enterprise (DBE) Goal established by the recipient for the project as a percentage of the total estimated project cost. If there is no established goal for the project, report as "0". Do **not** enter a percent sign "%" (e.g. "12.12%" would be coded as "12.12").

DBE Commitment (DBE_Commitment): The Disadvantaged Business Enterprise (DBE) commitment made by the prime contractor at the time of award as a percentage of the total contract amount. Do **not** enter a percent sign "%" (e.g. "12.12%" would be coded as "12.12").

Principal Place of Performance (POP): These data are used to describe where the majority of the work for a project is taking place. For those projects that cover a large area, such as a district or region, choose the central location. For statewide projects, use the city, Congressional District, and zip code of the State Capital.

- **POP_City:** Provide the name of the city where the work is taking place. For projects that span multiple cities, provide the name of the city where the majority of the work is occurring. Leave blank for rural projects that do not include any work in an urban area.
- **POP_State:** Provide the two digit State abbreviation where the majority of the work is taking place.
- **POP_Zipcode:** Provide the 9 digit zip code where the majority of the work is occurring. When providing a 9 digit zip code, please **include** the dash “-”.
- **POP_Cong_District:** Provide the two digit numeric code for the Congressional District where the majority of the work is taking place.

Work Performed by Code (Work_Performed_By): A single digit character code in the Awards file that describes the entity performing the work for each project. Please note that for locally administered projects; only provide one entry in the Awards file, even if the local forces and/or more than one prime contractor are doing the work.

Table 16 – Work Performed By Codes

Code	Description
S	State forces performing work
V	Bidcontract work
L	Locally administered project
O	Non-bid contract work

This field is required for this table.

DUNS Number (DUNS_Number): The unique nine-digit number issued by Dun & Bradstreet. All sub recipients for locally administered projects must have a DUNS number. A DUNS number is not required for prime contractors/vendors if vendor name and vendor zip are provided. The DUNS number should be reported as “999999999.”

Vendor Name (Vendor_Name): The name of the contractor (vendor) or sub-recipient. The name is optional, provided that a DUNS number has been entered.

Vendor Zip code (Vendor_Zip): The zip code of the contractor (vendor) or sub-recipient. The zip code is optional, provided that a DUNS number has been entered. Provide the 9 digit zip code where the vendor is headquartered. When providing a 9 digit zip code, please **include** the dash “-”.

Service Description (Service_Description): A description of the service provided. This field is required in the awards table, unless work is performed by state forces.

Comments (Comments): This field allows the recipient to provide additional information about the data. **Any NEPA-related comments, whether in the Projects Table or in the NEPA Status Table, need to be entered in the NEPA_Comments field in the NEPA Status Table.**

4.6. Sub-Recipients

Table use and description: This file contains information on the sub-recipients for the quarterly 1512 report per OMB guidance. Recipients and sub-recipients are advised to closely review the guidance on reporting Executive Compensation in the Data Description section of this document.

Due: This file is due prior to the State’s submittal of its 1512 report. Updating Executive Compensation data is required on an annual basis and should correspond with each recipient’s end of fiscal year data. Please note that the DUNS Number is a prerequisite for Awards Table records where “Work Performed By” is coded “L” for LPA.

Table 17 – Sub-Recipients

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
DUNS Number*	DUNS_Number	Yes	Varchar(9) 123456789
LPA Name*	LPA_Name		Varchar(100)
Congressional District*	Cong_District		Varchar(2) 01
Report Executive Compensation*	Report_Highly_Paid		Char(1) N
1st Executive Name	Highly_Paid_Name1		Varchar(50)
1st Executive Compensation Amount	Highly_Paid_Amount1		Decimal(18,2)
2nd Executive Name	Highly_Paid_Name2		Varchar(50)
2nd Executive Compensation Amount	Highly_Paid_Amount2		Decimal(18,2)
3rd Executive Name	Highly_Paid_Name3		Varchar(50)
3rd Executive Compensation Amount	Highly_Paid_Amount3		Decimal(18,2)
4th Executive Name	Highly_Paid_Name4		Varchar(50)
4th Executive Compensation Amount	Highly_Paid_Amount4		Decimal(18,2)
5th Executive Name	Highly_Paid_Name5		Varchar(50)
5th Executive Compensation Amount	Highly_Paid_Amount5		Decimal(18,2)

*This field is required for this table.

4.6.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

DUNS Number (DUNS_Number): The unique nine-digit number issued by Dun & Bradstreet for the sub-recipient. The DUNS number should be reported as “999999999.” This field is required for this table.

LPA Name (LPA_Name): Name of the sub-recipient or locally administered project (LPA). This field is required for this table.

Congressional District (Cong_District): The number of the Congressional District where the sub-recipient is located. States that have only one Congressional District (AK, DE, DC, MT, ND, SD, VT, and WY) should code “01”. This field is required for this table.

Report Executive Compensation (Report_Highly_Paid): A yes or no field (code “Y” or “N”) used to indicate in the Sub-recipient files if the sub-recipient meets the statutory requirements for reporting the names and compensation for its Top 5 Compensated Employees. A sub-recipient is required to report if it meets all three of the following criteria (1) in the preceding fiscal year the sub-recipient received 80 percent or more of its annual gross revenues in Federal awards; and (2) in the preceding fiscal year the sub-recipient received \$25,000,000 or more in annual gross revenues from Federal awards; and (3) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986 [26 USC § 6104]. For State and local governments, the revenue side of their budgets – both capital and operating – is the equivalent of “annual gross revenues”. Contractors working for a recipient (i.e., the State) or for a sub-recipient (e.g., local agencies) do not have to report on executive compensation. This field is required for this table.

Executive Compensation Amount (Highly_Paid_Amount) and Executive Name (Highly_Paid_Name): This encompasses the reporting of executive compensation data items. Recipients and sub-recipients of Federal financial assistance must report executive compensation data if they meet the statutory reporting thresholds. For the Federal-aid Highway Program, this means that the State and any local agencies or other sub-recipients of Federal-aid funds through the State, are subject to the executive compensation reporting requirement.

These are the statutory requirements for reporting:

- The entity received 80% or more of its annual gross revenues in the preceding fiscal year from Federal awards, **and**
- The entity received \$25 million or more in annual gross revenues in the preceding fiscal year from Federal awards, **and**
- The public does not have access to the information through Securities and Exchange Commission or Internal Revenue Service filings as specified in FFATA.

For State and local governments, the revenue side of their budgets – both capital and operating – is the equivalent of “annual gross revenues”.

“Total compensation” means the cash and non-cash dollar value earned by the executive during the recipient’s past fiscal year of the following: (i) salary and bonus; (ii) awards of stock, stock options, and stock appreciation rights (Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with FAS 123R); (iii) earnings for services under non-equity incentive plans (Does not include group life, health, hospitalization, or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees); (iv) change in pension value (This is the change in present value of defined benefit and actuarial pension plans.); (v) above-market earnings on deferred compensation that are not tax-qualified; and (vi) other compensation (For example: severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property if the value for the executive exceeds \$10,000). For more information see 17 CFR 229.402(c)(2).

1st – 5th Executive Compensation Amount (Highly_Paid_Amount1 – 5): The total compensation for each of the five most highly paid officers of the recipient or sub-recipient. Do **not** enter a dollar sign “\$” or a comma “,” (e.g. “\$12,000.00” would be coded as “12000.00”).

1st – 5th Executive Name (Highly_Paid_Name1 – 5): The name of each of the top five paid officials if all of the reporting requirements are met. This only applies to States (recipients) and their sub-recipients (e.g., local government agencies).

4.7. Sub-Awards

Table use and description: This file contains information on sub-recipient contracts and is required for the quarterly 1512 report per OMB guidance. Some of the data will also be used for other reports and internal performance measures. This table is only required if reporting a contract with the LPA, not the LPA forces.

A record entry in the Sub Awards Table must have a corresponding State FIPS Code, State Project Number, Federal Project Number, and State Contract Number in the Awards Table.

Due: Recipients need to submit new projects within 4 weeks of the day the contract is awarded.

Table 18 – Sub-Awards

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35) C-97-083-06
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
State Contract Number*	State_Contract_Number	Yes	Varchar(35) 74172
Local Contract Number*	Local_Contract_Number	Yes	Varchar(35) AB-124
Contract Award Date*	Award_Date		Date(9) 07/04/2009
ARRA Portion of Contract Amount	ARRA_Award_Amount		Decimal(14,2) 123456
Total Contract Amount	Total_Award_Amount		Decimal(14,2) 234567
DUNS Number	DUNS_Number		Varchar(9) 123456789
Vendor Name	Vendor_Name		Varchar(55) Good Roads Inc.
Vendor Zip Code	Vendor_Zip		Varchar(10) 60601-0000
Service Description	Service_Description		Varchar(255) Mill & Inlay
Comments	Comments		Varchar(400) None

*This field is required for this table.

4.7.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

State Contract Number (State_Contract_Number): The State or sub-recipient assigned contract number, consistent with the contract number reported in the Awards table. This field is required for this table.

Local Contract Number (Local_Contract_Number): Provide the contract number for each locally administered Recovery Act project in the Sub-Awards Table. This field is required for this table. Changing the Local Contract Number in this table will automatically change the corresponding number in all other tables within RADS.

Contract Award Date (Award_Date): The date that the Recovery Act project was awarded by the Sub-Recipient, reported as *mm/dd/yyyy* - (e.g. “May 1, 2009” would be coded as “05/01/2009”). **Do not enter future dates.** This field is required for this table. For existing projects that were authorized prior March 2, 2009 to which Recovery Act funds have been added, please enter the date the original project was awarded.

ARRA Portion of Contract Amount (ARRA_Award_Amount): The total amount of Recovery Act funds awarded or available for the specified contract. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do not enter a dollar sign “\$” or a comma “,” (e.g. “\$12,000.00” would be coded as “12000.00”). This amount should be updated to reflect change orders.

Total Award Amount (Total_Award_Amount): The total amount awarded or available for the specified contract. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do not enter a dollar sign “\$” or a comma “,” (e.g. “\$12,000.00” would be coded as “12000.00”). This amount should be updated to reflect change orders.

DUNS Number (DUNS_Number): The unique nine-digit number issued by Dun & Bradstreet. A DUNS number is not required for prime contractors/vendors if vendor name and vendor zip are provided. The DUNS number should be reported as “999999999.”

Vendor Name (Vendor_Name): The name of the contractor (vendor). The name is optional, provided that a DUNS number has been entered.

Vendor Zip Code (Vendor_Zip): The zip code of the contractor (vendor). The zip code is optional, provided that a DUNS number has been entered. Provide the 9 digit zip code where the vendor is headquartered. When providing a 9 digit (zip + 4) zip code, please **include** the dash “-”.

Service Description (Service_Description): A description of the service provided. This field is required in the Sub-Awards table.

Comments (Comments): This field allows the recipient to provide additional information about the data. **Any NEPA-related comments, whether in the Projects Table or in the NEPA Status Table, need to be entered in the NEPA_Comments field in the NEPA Status Table.**

4.8. Monthly Status

Table use and description: These data will be used for meeting the reporting requirements of Sections 1201 and 1512. The data are to be provided for each Recovery Act project. The State DOT is responsible for compiling and reporting the State, local, and contractor provided employment data for each project.

A record entry in the Monthly Status Table must have a corresponding State FIPS Code, State Project Number, Federal Project Number, and State Contract Number in the Awards Table.

Due: These data are required by the 20th of each month. **NOTE:** Should construction be complete, recipient must still report until Final Voucher in FMIS.

Table 19 – Monthly Status

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35) C-97-083-06
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
State Contract Number*	State_Contract_Number	Yes	Varchar(35) 74172
Report Month*	Report_Month	Yes	Varchar(7) 07/2009
DBE Payments	DBE_Payments		Decimal(18,2) 39666.00
Use Job Percentage	Use_Job_Pct		CHAR(1) Y
Jobs Percent	Jobs_Percent		Decimal(5,2) 25.75
Percent Complete	Percent_Complete		Decimal(5,2) 10.00
Total Employees	Total_Employees		Integer 20
Total Hours	Total_Hours		Integer 465
Total Payroll	Total_Payroll		Decimal(18,2) 14621.00

*This field is required for this table.

4.8.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

State Contract Number (State_Contract_Number): The State or sub-recipient assigned contract number consistent with the contract number reported in the Awards table. This field is required for this table.

Report Month (Report_Month): The month and year covered by the report, as *mm/yyyy* (e.g. "May 2009" would be coded as "05/2009"). This field is required for this table.

DBE Payments (DBE_Payments): Cumulative actual dollars paid to Disadvantaged Business Enterprise (DBE) contractors for labor, materials, equipment, etc., from the start of the project in dollars. DBE payments should include all payments consistent with the project commitment. DBE payments are cumulative (total payments to date), and so should include all previous payments. Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00").

Use Jobs Percentage (Use_Job_Pct): This is an optional field. It could be used when recipients expend and request reimbursement of their Recovery Act funds prior to spending the other funds involved in partially funded Recovery Act projects. If this is desired, then enter a "Y" to replace the job hour proration that is base on the ratio of total ARRA obligations to total project cost with the entered value in Jobs_Percent. If this is not desired, then "N", blank or null will not cause the Jobs_Percent field to replace the standard partially funded jobs hour proration.

Jobs Percentage (Jobs_Percent): The percent should be reported as just the number, i.e., 25.20% should be coded as "25.20". If Use_Job_Pct is "Y" then this number should be greater than 0.00 and less than or equal to 100.00. If Use_Jobs_pct is "N", blank, or Null, then this field should be Blank or Null.

Percent Complete (Percent_Complete): The status of the project as the amount of elapsed time since work begun relative to the estimated total time to complete the project. The percent should be reported as just the number, i.e., 25.20% should be coded as "25.20".

Total Employees (Total_Employees): The number of people employed by the State, prime contractor, or consultant and all their subcontractors during the reporting month for each project. This is reported as a whole number. Do not include material suppliers.

Total_Employees is based on the prime contractor or consultants report of direct, on-the-project jobs for their workforce and the workforce of their sub-contractors active during the reporting month. These jobs data include employees actively engaged in projects who work on the

jobsite, in the project office, in the home office or telework from a home or other alternative office location. This also includes any engineering personnel, inspectors, sampling and testing technicians, and lab technicians performing work directly in support of the Recovery Act funded project. This does not include material suppliers such as steel, culverts, guardrail, and tool suppliers.

Recipients should include all direct labor associated with the Recovery Act project such as design, construction, and inspection provided they are funded by Recovery Act funds. The recipients' reports should include their own direct project labor, including permanent, temporary, and contract project staff. Recipients are asked not to include estimated indirect labor, such as material testing, material production, planning, administrative, or estimated macro-economic impacts.

Total Hours (Total_Hours): The total hours for all people employed by the recipient, prime contractor or consultant, and subcontractor employees for the reporting month. This should be reported as a whole number.

Total Payroll (Total_Payroll): The total dollar amount of wages paid by the recipient, prime contractor or consultant, and all of their subcontractors during the reporting month. Payroll only includes wages and does not include overhead, indirect costs, or payroll taxes. Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00").

4.8.2. Additional Data to be Reported Monthly

Additional Data to be Reported Monthly: These are all the data items that FHWA expect to be updated as necessary that are not included in the monthly status. The field "Table" shown below identifies the table wherein this data is normally reported.

Due: As with the monthly status items, these data are expected by the 20th of each month.

Table 20 – Additional Monthly Data

Item Name	RADS Field Name	Table	Format/Example
FHWA NEPA Class Action*	NEPA_Class_Action	Projects	Varchar(3)
			EIS
FHWA NEPA Milestone Completed*	NEPA_Milestone_Completed	Projects	Varchar(5)

4.8.3. Data Descriptions

The description of each data item in RADS along with specific instructions on the collection and coding of the data for each of these items may be found in the table originally holding the data.

4.9. Payments

Table use and description: These data are required for the quarterly 1512 submittal per OMB guidance. The file contains information on the quarterly payments and disbursements to vendors and State forces funded by Recovery Act.

A record entry in the Payments Table must have a corresponding record in the Awards table.

Due: These data are required by the quarterly 1512 report due date.

Table 21 – Payments

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35) C-97-083-06

Report Quarter*	Report_Quarter	Yes	Varchar(6) 3/2009
Total Payments Disbursed	Payment_Disburse		Decimal(14,2) 1234567.00

*This field is required for this table.

4.9.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

State Contract Number (State_Contract_Number): The State or sub-recipient assigned contract number consistent with the contract number reported in the Awards table. This field is required for this table.

Report Quarter (Report_Quarter): Used in the Payments, Sub-Payments, and Quarterly Status files to indicate what calendar quarter are being reported. For example, the Payments file for the third quarter of 2009 would be coded as: "3/2009". This field is required for this table.

Total Payments Disbursed (Payment_Disburse): The cumulative total amount of ARRA payments disbursed for each contract in the Awards table for which the recipient has or will seek reimbursement with ARRA funds. Report Recovery Act (ARRA) payments from February 17, 2009 through the end of the latest quarter. For projects with multiple State projects and/or contracts under a single Federal-aid project, each of the contracts and/or State projects will need to be reported separately in RADS. Enter the cost in dollars; do not provide costs in thousands or millions of dollars. Do not enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00"). If State employee work and/or non-bid contract work are not being reported individually in the Awards Table, then these payments should be reflected in the Quarterly Status table. These data only needs to be provided on a quarterly basis.

4.10. Sub-Payments

Table use and description: The data in this file is used to track the quarterly payments to sub-recipient’s vendors for the quarterly 1512 report per OMB guidance.

A record entry in the Sub-Payments Table must have a corresponding State FIPS Code, State Project Number, Federal Project Number, State Contract Number, and Local Contract Number in the Sub-Awards Table.

Due: These data are required by the quarterly 1512 report due date.

Table 22 – Sub-Payments

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
State Project Number*	State_Project_Number	Yes	Varchar(35) C-97-083-06
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
State Contract Number*	State_Contract_Number	Yes	Varchar(35) 74172
Local Contract Number*	Local_Contract_Number	Yes	Varchar(35) AB-124
Report Quarter*	Report_Quarter	Yes	Varchar(6) 2/2009
Vendor Payment	Vendor_Payment		Decimal(14,2) 12345.00

*This field is required for this table.

4.10.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

State Project Number (State_Project_Number): The State project number or ID as assigned by the State or its funding recipient, consistent with the project number reported in the Projects table. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

State Contract Number (State_Contract_Number): The State or sub-recipient assigned contract number, consistent with the contract number reported in the Awards table. This field is required for this table.

Local Contract Number (Local_Contract_Number): The sub-recipient assigned contract number, consistent with the local contract number reported in the Sub Awards table. This field is required for this table.

Report Quarter (Report_Quarter): Used in the Payments, Sub-Payments, and Quarterly Status files to indicate what calendar quarter are being reported. For example, the Payments file for the third quarter of 2009 would be coded as: "3/2009".

Vendor Payment (Vendor_Payment): The cumulative total amount of ARRA payments disbursed (contract and non-bid contract) for which the sub recipient has or will seek reimbursement with ARRA funds. Report all payments from February 17, 2009 through the end of the latest quarter. For projects with multiple contracts under a single Federal-aid project, each of the contracts will need to be reported separately. **Enter the cost in dollars; do not provide costs in thousands or millions of dollars.** Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00"). These data only needs to be provided on a quarterly basis.

4.11. Quarterly Status

Table use and description: The Quarterly Status file contains information required for the quarterly 1512 report per OMB guidance. Certain fields in this file will be populated automatically by RADS using data provided in the Awards and Sub-Awards files. Other fields that are not populated by RADS will need to be submitted by the State.

A record entry in the Quarterly Status Table must have a corresponding State FIPS Code, Federal Project Number, and Report Quarter in the Projects Table.

Due: These data are required by the quarterly 1512 report due date.

Table 23 – Quarterly Status

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 674111
Report Quarter*	Report_Quarter	Yes	Varchar(6) Feb-09
Description of Jobs	Description_Jobs		Varchar(4000) Engineers
Number of Payments to Vendors under \$25,000	Number_Payment_Vendors		Integer(10) 5
Total Amount of Payments to Vendors under \$25,000	Amount_Payment_Vendors		Decimal(18,2) 7580
Non-Awarded Payments	Non_Awarded_Payments		Decimal(19,2) 1200

*This field is required for this table.

4.11.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

Report Quarter (Report_Quarter): Used in the Payments, Sub-Payments, and Quarterly Status files to indicate what calendar quarter are being reported. For example, the Payments file for the third quarter of 2009 would be coded as: "3/2009". This field is required for this table.

Description of Jobs (Description_Jobs): A narrative description of the employment impact of Recovery Act funded work. This narrative is cumulative for each calendar quarter and, at a minimum, will address the impact on the recipient's or federal contractor's workforce as well as the impact on the workforces of sub-recipients and vendors.

At minimum, provide a brief description of the types of jobs created and retained. This description may rely on job titles, broader labor categories, or the recipient's existing practice for describing jobs as long as the terms used are widely understood and describe the general nature of the work.

Non-Awarded Payments (Non_Awarded_Payments): This is intended to capture the cumulative payments that are not paid to awarded contracts and are therefore are not captured in other fields. Examples could be utility agreement payments, railroad Agreement payment and State force payments. Enter the cost in dollars; do not provide costs in thousands or millions of dollars. Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00").

Number of Payments to Vendors under \$25,000 (Number_Payment_Vendors): The total number of payments to vendors less than \$25,000 not reported in the Payments and Sub-Payments tables, for which the recipient has or will seek reimbursement with ARRA funds. This is a cumulative number that should reflect all payments of less than \$25,000 from February 17, 2009 through the end of the latest quarter.

Total Amount of Payments to Vendors under \$25,000 (Amount_Payment_Vendors): This is the total cumulative amount of payments of less than \$25,000 that have been disbursed to each vendor, not reported in the Payments and Sub-Payments tables, for which the recipient has or will seek reimbursement with ARRA funds.. Enter the cost in dollars; do not provide costs in thousands or millions of dollars. Do **not** enter a dollar sign "\$" or a comma "," (e.g. "\$12,000.00" would be coded as "12000.00").

4.12. Maintenance of Effort (Form 1201)

This data will be used to measure the State's performance under the MOE provisions in section 1201 of the Recovery Act. In order to ensure that comprehensive and consistent statewide data is collected on MOE, **this report will constitute the report for the entire State (i.e., all State expenditures that will be counted towards meeting the certified maintenance of effort amount(s) under section 1201 of the Recovery Act).** States must report actual expenditures from State sources for the types of projects funded by each of the Act's covered programs. This report should not reflect just the expenditures controlled by the State DOT, and States must complete this form for **all** covered program areas listed, not just for "Highway Infrastructure Investment."

If the State prefers to have an agency other than the State DOT report this statewide MOE data, the State should contact the FHWA Division Office to make arrangements for giving the selected reporting agency access to RADS. The FHWA Division offices have the authority to grant UPACS access. If RADS access is desired, the Division can initiate access by contacting ARRA.Questions@dot.gov.

As with the 1201 planned expenditure certifications, these reports are for expenditures of State funds on the various types of projects funded under the Recovery Act (not obligations or encumbrances) consistent with the DOT and FHWA issued guidance (<http://www.fhwa.dot.gov/economicrecovery/sec1202.htm>). The 1201 Maintenance of Effort Actual Expenditures Report must include any State funds spent on the types of projects funded under the Act's covered programs, regardless whether those projects are receiving Recovery Act funding or are otherwise eligible for Federal-aid assistance. This includes, for example, any State-funded match for federally-assisted projects, State funding for non-federally-assisted projects that are eligible for Federal funding, and State-funded projects that are for the type of activities that could be funded under the Act even if the project is not on the Federal-aid system or is not eligible for Federal-aid funding for other reasons.

Table use and description: These data are required for the periodic 1201(c) reports to Congress. The data reflect each State's planned expenditure of State funds during the life of Recovery Act and the actual expenditures for each reporting period. Further guidance on these data is provided in the Data Items section of this document.

Due: Each State needs to update their Maintenance of Effort data to comply with the deadlines in the table below:

Table 24 – Reporting Deadlines for Maintenance of Effort (Duplicate of Table 2)

Description	Report Start Date	Report Cumulative Amounts Through	Report Due
90 days	Feb 17, 2009	April 30, 2009	May 18, 2009
180 days	Feb 17, 2009	July 31, 2009	August 16, 2009
1 year	Feb 17, 2009	January 31, 2010	February 17, 2010
2 years (tentative)	Feb 17, 2009	September 30, 2010	November 1, 2010
2 years (final)	Feb 17, 2009	September 30, 2010	February 17, 2011
2 years (revised)	Feb 17, 2009	September 30, 2010	February 17, 2012

Table 25 – Maintenance of Effort (Form 1201)

Item Name	RADS Field Name	Primary	Format/Example
State FIPS Code*	State_Code	Yes	TINYINT
Report Period*	Report_Type	Yes	Tinyint(3) 1
Surface Transportation Expenditures	Surface_Transportation		Decimal(14,2) 123456.00
Facilities and Equipment Expenditures	Facilities_Equipment		Decimal(14,2) 11111.00
Airport Aid Expenditures	Airport_Aid		Decimal(14,2) 222222.00
Highway Infrastructure Expenditures	Highway_Infrastructure		Decimal(14,2) 3333333.00
High Speed Rail Expenditures	High_Speed_Rail		Decimal(14,2) 44444.00
Rail Passenger Expenditures	Railroad_Passenger		Decimal(14,2) 555555.00
Transit Capital Investment Expenditures	Transit_Capital		Decimal(14,2) 77777.00
Guideway Infrastructure Expenditures	Guideway_Infrastructure		Decimal(14,2) 888888.00
Capital Investment Expenditures	Capital_Investment		Decimal(14,2) 99999.00
Small Shipyard Expenditures	Small_Shipyards		Decimal(14,2) 876543.00
Comments	Comments		Varchar(300) None

*This field is required for this table.

4.12.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

Report Type (Report_Type): This field indicates the reporting period of the Maintenance of Effort data for the periodic 1201(c) report to Congress. Below is a list of the codes:

Table 26 – Maintenance of Effort Reporting Codes

Code	Description	Due Date
1	90 days	May 18, 2009
2	180 days	August 16, 2009
3	1 year	February 17, 2010
4	2 years (tentative)	November 1, 2010
5	2 years (final)	February 17, 2011

Code	Description	Due Date
6	2 years (revised)	February 17, 2012

*This field is required for this table.

Surface Transportation Expenditures (Surface_Transportation): For the report due on February 17, 2011, the total cumulative expenditures of recipient funds on projects eligible for Supplemental Discretionary Grants for the National Surface Transportation System (administered by OST) from the date of enactment (02/17/2009) through September 30, 2010.

Facilities and Equipment Expenditures (Facilities_Equipment): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Supplemental Funding for Facilities and Equipment funds (administered by the FAA) from the date of enactment (02/17/2009) through September 30, 2010.

Airport Aid Expenditures (Airport_Aid): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Grants-in-Aid for Airports funds (administered by the FAA) from the date of enactment (02/17/2009) through September 30, 2010.

Highway Infrastructure Expenditures (Highway_Infrastructure): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Highway Infrastructure Investment funds (administered by FHWA) from the date of enactment (02/17/2009) through September 30, 2010.

High Speed Rail Expenditures (High_Speed_Rail): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Capital Assistance for Highway Speed Rail Corridors and Intercity Passenger Rail Service funds (administered by the FRA) from the date of enactment (02/17/2009) through September 30, 2010.

Rail Passenger Expenditures (Railroad_Passenger): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Capital Grants to the National Railroad Passenger Corporation (administered by the FRA) from the date of enactment (02/17/2009) through September 30, 2010.

Transit Capital Investment Expenditures (Transit_Capital): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on capital projects eligible for Transit Capital Assistance funds (administered by the FTA) from the date of enactment (02/17/2009) through September 30, 2010.

Guideway Infrastructure Expenditures (Guideway_Infrastructure): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Fixed Guideway Infrastructure Investment funds (administered by the FTA) from the date of enactment (02/17/2009) through September 30, 2010.

Capital Investment Expenditures (Capital_Investment): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Capital Investment Grants (administered by the FTA) from the date of enactment (02/17/2009) through September 30, 2010.

Small Shipyard Expenditures (Small_Shipyards): For the report due on February 17, 2011, the total cumulative expenditure of recipient funds on projects eligible for Supplemental Grants

for Assistance to Small Shipyards (administered by MARAD) from the date of enactment (02/17/2009) through September 30, 2010.

Comments (Comments): A comment field is provided in a number files. It allows the recipient to provide additional information about the data. **Any NEPA-related comments, whether in the Projects Table or in the NEPA Status Table, need to be entered in the NEPA_Comments field in the NEPA Status Table.**

4.13. Project Details

Table use and description: The Project Details file provides a plain English description of the project. This is filled out by the Federal Highway Division Field Office.

Due: These data are required within two weeks of a new file being updated in the Projects Table.

Table 27 – Project Details

Item Name	RADS Field Name	Primary	Format/Example
Awarding Agency*	Awarding_Agency	Yes	Varchar(4) 6925
State FIPS Code*	State_Code	Yes	TINYINT
Federal Project Number*	Federal_Project_Number	Yes	Varchar(35) 0674111
Project Detail*	Project_Detail	Yes	Varchar(2000)

*This field is required for this table.

4.13.1. Data Descriptions

The following is a description of each data item in RADS along with specific instructions on the collection and coding of the data.

Awarding Agency (Awarding_Agency): Enter the FIPS code for the federal awarding agency as defined in *Codes for the Identification of Federal and Federally-Assisted Organizations*, (FIPS PUB 95-1). For FHWA contracts and grants enter “6925”. See Appendix D for the list of U.S. DOT FIPS codes. This field is required for this table.

State FIPS Code (State_Code): Enter the State FIPS code for Federal-aid projects, discretionary grants, and TIGER Grants. Federal Lands users should provide the FLH Division or Federal Land Managing Agency (FLMA) region code. See Appendix A for a list of the State FIPS and FLMA region codes. This field is required for this table.

Federal Project Number (Federal_Project_Number): The State assigned federal-aid project number, consistent with the seven digit project number reported in the Projects table. This field is required for this table.

Project Detail (Project_Detail): Plain English description of the project. Below are some examples of how the Project_Detail should be written as compared to the Project_Description. This field is required for this table.:

- Project Description:* SR-1 (US-431) safety improvements from 1 mile South SR-147 to South of Sturkie

Suggested Project Detail: This project will resurface a mile of road south of Sturkie, about 10 miles north of Auburn, to improve water drainage.

- *Project Description:* Imperial HWY work to include pavement, curb, gutter, ramps, raised median improvements, and street light upgrades.
Suggested Project Detail: Los Angeles County will add new pavement, curbs and curb ramps, updated medians, and street lights to portions of Imperial Highway.
- *Project Description:* Const SPUI, widen, sound wall
Suggested Project Detail: This road-widening project will build an interchange in Portage – in suburban Kalamazoo – to accommodate the addition of new lanes on I-94 below. This project will also add sound walls to minimize the level of road noise for area residents.
- *Project Description:* 1 Inch Mill with Ultra-thin Asphalt Concrete Surface Course and ADA upgrades
Suggested Project Detail: The City of Las Vegas will resurface the top inch of existing asphalt with new asphalt. This will improve driving quality by resurfacing the road, which will make the road smoother and extend the life of nearly two miles of Hill Center Drive. In addition, the city will install new sidewalk curb ramps.

5. TIGER I - DRAFT

The TIGER I data which must be reported on varying periodicities include three types of reports, which are: Project Progress and Monitoring Reports; Annual Budget Review Reports; and, Performance Measurement Reports.

5.1. Project Progress and Monitoring Reports

Frequency: Quarterly, on the 20th of the first month of the calendar quarter.

Report covers: Previous quarter, along with a two-quarter forecast.

Start: Upon award of grant.

End: Once construction is complete.

5.1.1. Data Description

The following is a description of format and fields, with accompanying instructions—beyond project ID information—for each. The words in brackets [] communicates what type of information is expected for each item, and additional context for the user, if required.

Executive Summary [Narrative]: A clear and concise summary of the current status of the project, including identification of any major issues that have an impact on the project's scope, budget, schedule, quality, or safety, including:

- Current total project cost (forecast) vs. latest budget vs. baseline budget. Include an explanation of the reasons for any deviations from the approved budget.
- Current overall project completion percentage vs. latest plan percentage.
- Any delays or exposures to milestone and final completion dates. Include an explanation of the reasons for the delays and exposures.
- A summary of the projected and actual dates for notices to proceed for significant contracts, start of construction, start of expenditure of TIGER II Discretionary Grant funds, and project completion date. Include an explanation of the reasons for any discrepancies from the corresponding project milestone dates included in the Agreement.
- Any Federal obligations and/or TIFIA disbursements occurring during the month versus planned obligations or disbursements.
- Any significant contracts advertised, awarded, or completed.
- Any significant scope of work changes.
- Any significant items identified as having deficient quality.
- Any significant safety issues.
- Any significant Federal issues such as environmental compliance, Buy America/Buy American (whichever is applicable to this Project), Davis Bacon Act Prevailing Wage requirements, etc.

Project Activities and Deliverables [Narrative]: *This information should highlight the project activities and deliverables occurring during the previous quarter (reporting period), and (2)*

define the activities and deliverables planned for the next two reporting periods. [Activities and deliverables to be reported on should include meetings, audits and other reviews, design packages submitted, advertisements, awards, construction submittals, and construction completion milestones, submittals related to Recovery Act requirements, media or Congressional inquiries, value engineering/constructability reviews, and other items of significance. The two reporting period “look ahead schedule” will enable the Government to accommodate any activities requiring input or assistance.]

Action Items/Outstanding Issues [Narrative]: *This information should draw attention to, and track the progress of, highly significant or sensitive issues requiring action and direction in order to resolve. [In general, issues and administrative requirements that could have a significant or adverse impact to the project’s scope, budget, schedule, quality, safety, and/or compliance with Federal requirements should be included. Status, responsible person(s), and due dates should be included for each action item/outstanding issue. Action items requiring action or direction should be included in the quarterly status meeting agenda. The action items/outstanding issues may be dropped from this section upon full implementation of the remedial action, and upon no further monitoring anticipated.]*

Project Schedule [Narrative, with attachments, and numerical fields for overall completion percentage, additional fields for major activities with numerical fields and narrative fields for each activity]: *An updated master program schedule reflecting the current status of the program activities should be included in this section. [A Gantt (bar) type chart is probably the most appropriate for quarterly reporting purposes, with the ultimate format to be agreed upon between the Grantee and the Government. It is imperative that the master program schedule be integrated, i.e., the individual contract milestones tied to each other, such that any delays occurring in one activity will be reflected throughout the entire program schedule, with a realistic completion date being reported. Narratives, tables, and/or graphs should accompany the updated master program schedule, basically detailing the current schedule status, delays and potential exposures, and recovery efforts. The following information should also be included:*

- Current overall project completion percentage vs. latest plan percentage.
- Completion percentages vs. latest plan percentages for major activities such as right-of-way, major or critical design contracts, major or critical construction contracts, and significant force accounts or task orders. A schedule status description should also be included for each of these major or critical elements.
- Any delays or potential exposures to milestone and final completion dates. The delays and exposures should be quantified and overall schedule impacts assessed. The reasons for the delays and exposures should be explained, and initiatives being analyzed or implemented in order to recover the schedule should be detailed.]

Project Cost [Narrative, with Attachments]: *An updated cost spreadsheet reflecting the current forecasted cost vs. the latest approved budget vs. the baseline budget should be included in this section. [One way to track project cost is to show: (1) Baseline Budget, (2) Latest Approved Budget, (3) Current Forecasted Cost Estimate, (4) Expenditures or Commitments To Date, and (5) Variance between Current Forecasted Cost and Latest*

Approved Budget. Line items should include all significant cost centers, such as prior costs, right-of-way, preliminary engineering, environmental mitigation, general engineering consultant, section design contracts, construction administration, utilities, construction packages, force accounts/task orders, wrap-up insurance, construction contingencies, management contingencies, and other contingencies. The line items can be broken-up in enough detail such that specific areas of cost change can be sufficiently tracked and future improvements made to the overall cost estimating methodology. A Program Total line should be included at the bottom of the spreadsheet. Narratives, tables, and/or graphs should accompany the updated cost spreadsheet, basically detailing the current cost status, reasons for cost deviations, impacts of cost overruns, and efforts to mitigate cost overruns. The following information should be provided:

- Reasons for each line item deviation from the approved budget, impacts resulting from the deviations, and initiatives being analyzed or implemented in order to recover any cost overruns.
- Transfer of costs to and from contingency line items, and reasons supporting the transfers.
- Speculative cost changes that potentially may develop in the future, a quantified dollar range for each potential cost change, and the current status of the speculative change. Also, a comparison analysis to the available contingency amounts should be included, showing that reasonable and sufficient amounts of contingency remain to keep the project within the latest approved budget.
- Detailed cost breakdown of the general engineering consultant (GEC) services (if applicable), including such line items as contract amounts, task orders issued (amounts), balance remaining for tasks, and accrued (billable) costs.
- Federal obligations and/or TIFIA disbursements for the project, compared to planned obligations and disbursements.]

Project Funding Status [Narrative]: *The purpose of this section is to provide a status report on the non-TIGER II Discretionary Grant funds necessary to complete the project.* [This report section should include a status update of any legislative approvals or other actions necessary to provide the non-TIGER II Discretionary Grant funds to the project. Such approvals might include legislative authority to charge user fees or set toll rates, or the commitment of local funding revenues to the project. In the event that there is an anticipated or actual project cost increase, the project funding status section should include a report on the anticipated or actual source of funds to cover the cost increase and any significant issues identified with obtaining additional funding.]

Project Quality [Narrative]: *The purpose of this section is to: (1) summarize the Quality Assurance/Quality Control activities during the previous month (reporting period), and (2) highlight any significant items identified as being deficient in quality.* [Deficient items noted should be accompanied by reasons and specifics concerning the deficiencies, and corrective actions taken or planned. In addition, the agency or firm responsible for the corrective action should be documented. Planned corrective actions should then be included as Action Items/Outstanding Issues.]

Federal Financial Report (SF-425). [Attachment]: *The Federal Financial Report (SF-425) (available at <http://www.forms.gov/bqfPortal/docDetails.do?dId=15149>) is a financial reporting form used throughout the Federal Government Grant system. Grantees should complete this form and attach it to each quarterly Project Progress and Monitoring Report.*

6. Transportation & Infrastructure (T & I) Report

The purpose of this section is to inform the reader of the FHWA reporting requirement for the T&I report. Since the data is extracted from RADs, the state/recipient is the main source of information reported.

The report itself is generated quarterly in 3 phases. The initial phase is generated and delivered to the Government Accountability Office (GAO) by the 7th of the 1st month in the quarter. This report presents a list of all projects and their progress status including separate line items for OJT/SS, Ferryboat, and Federal Lands projects.

The second phase is generated by the 15th of the month and is only delivered to the states for their review/comments. Even though hours and payroll data may not be complete until the state's 20th of the month deadline, this allows states to provide initial commentary on the report. This report ONLY includes "formula projects" or Highway Infrastructure Investment Grant Projects.

The third and final phase of the report is generated and delivered by the 25th of the 1st month in the quarter to the T & I Committee. This report is exactly like the second phase except it will contain the updated data based on state's 20th of the month deadline. This report ONLY includes "formula projects" or Highway Infrastructure Investment Grant Projects.

History: The T&I report was originally developed as a monthly report delivered by states to the T & I committee. As of the 1st Quarter of 2011, the report is now published quarterly and is delivered by Federal Highway Office of Policy.

6.1. PHASE 1 REPORT FIELDS

Table 28 – Data Page (Separated by Program)

FIELD NAME	DESCRIPTION
Status	Status of the project.
Program Code	Program Code for the project designating between Highway Infrastructure Grants, TIGER I, OJT/SS, etc.
Program	Name of program.
State	State that is overseeing the project and where the work is being performed.
County	Predominant County where the project is located.
Urban Area	Urban area (if applicable) where the projects is located.
Cong. District	Congressional District where the projects is located.
Project #	Assigned Federal Project Number.
Project Description	Description of the project based on a "plain-English" terminology.
Improvement Type	Predominant Improvement category for the project.
Proceed Date	Date of initial Notice to Proceed date for the project.
Work Start date	Date of initial Work Start date for the project.
Estimated Completion date	Contract complete date.
Work Complete Date	Date of latest work complete date for a vendor awarded contract .

FIELD NAME	DESCRIPTION
Recovery Act Obligations	Obligated funds for the project from FMIS.
Recovery Act Expenditures	Total Expenditures/Outlays to date for the project pulled from FMIS.
Length	Length (in miles) of the project pulled from RADS GIS Locations.

Table 29 – Data Page (Separated by Program)

FIELD NAME	DESCRIPTION
Status	Status of the project.
Federal Lands Division	Specific Division, Tribe, or managing entity for the Federal Lands projects.
Program	Name of program.
State	State that is overseeing the project and where the work is being performed.
County	Predominant County where the project is located.
Urban Area	Urban area (if applicable) where the projects is located.
Cong. District	Congressional District where the projects is located.
Project #	Assigned Federal Project Number.
Project Description	Description of the project based on a "plain-English" terminology.
Improvement Type	Predominant Improvement category for the project.
Proceed Date	Date of initial Notice to Proceed date for the project.
Work Start date	Date of initial Work Start date for the project.
Estimated Completion date	Contract complete date.
Work Complete Date	Date of latest work complete date for a vendor awarded contract.
Recovery Act Obligations	Total Expenditures/Outlays to date for the project pulled from FMIS.
Recovery Act Expenditures	Total Expenditures/Outlays to date for the project pulled from FMIS.

6.2. PHASE 2 & 3 REPORT FIELDS

Table 30 – Summary Page

FIELD NAME	DESCRIPTION
State	State which is either managing the project or (in the case of Federal Lands) where the work on the project is being performed.
Recovery Act Funds Allocated	Amount of recovery act funds allocated to the state. The data is based on a weekly report by the CFO.
Recovery Act Fund Obligated	Amount of fund obligated to the state.
Recovery Act Fund Outlaid	Amount of funds outlaid/expended by the state to date.
Projects Put Out to Bid	Total number of recovery act projects with obligated funds.
Recovery Act Funds Associated With Projects Put Out to Bid	Total obligated amounts for recovery act projects.
Projects Under Contracts	Projects with awarded contracts. This is a calculated field that subtracts the number of projects that are obligated but not awarded from the total number of projects.
Recovery Act Funds Associated With Projects Under Contracts	Recovery Act funds for projects with awarded contracts. This is a calculated field that subtracts the obligated amount for projects that are obligated but not awarded from the total obligated amount.

FIELD NAME	DESCRIPTION
Projects in Which Work Has Begun	Projects with a Notice to Proceed Date. This is a calculated field which adds the number of projects that are underway and those that are completed.
Recovery Act Funds Associated With Projects in Which Work Has Begun	Obligated Amounts for projects with a Notice to Proceed Date. This is a calculated field which adds the obligated fund for projects that are underway and those that are completed.
Completed Projects	Number of projects where all vendor contracts have a work complete date in the past.
Recovery Act Funds Associated With Completed Projects	Obligated funds for the projects where all vendor contracts have a work complete date in the past.
Current Month Total Hours (Cumulative until Current Month) PRORATED	Sum of all hours for Recovery Act projects up to and including the month listed. These hours are pro-rated based on the individual projects Recovery Act ration of obligated amounts/total cost of the project.
Current Month Payroll (Cumulative until Current Month) PRORATED	Sum of all payroll for Recovery Act projects up to and including the month listed. These hours are pro-rated based on the individual projects Recovery Act ration of obligated amounts/total cost of the project.

Table 31 – Data Page (Formula aka Highway Infrastructure Investment Grants Only)

FIELD NAME	DESCRIPTION
Status	Status of the project
Program Code	Program Code for the project designating between Highway Infrastructure Grants, TIGER I, OJT/SS, etc
Program	Name of program
State	State that is overseeing the project and where the work is being performed
County	Predominant County where the project is located
Urban Area	Urban area (if applicable) where the projects is located
Cong. District	Congressional District where the projects is located
Project #	Assigned Federal Project Number
Project Description	Description of the project based on a "plain-English" terminology
Improvement Type	Predominant Improvement category for the project.
Proceed Date	Date of initial Notice to Proceed date for the project.
Work Start date	Date of initial Work Start date for the project.
Estimated Completion date	Contract complete date.
Work Complete Date	Date of latest work complete date for a vendor awarded contract.
Recovery Act Obligations	Obligated funds for the project from FMIS.
Recovery Act Expenditures	Total Expenditures/Outlays to date for the project pulled from FMIS.
Length	Length (in miles) of the project pulled from RADS GIS Locations.
Current Month Total Hours (Cumulative until Current Month) PRORATED	Sum of all hours for the Recovery Act project up to and including the month listed. These hours are pro-rated based on the individual projects Recovery Act ration of obligated amounts/total cost of the project.
Current Month Payroll (Cumulative until Current Month) PRORATED	Sum of all payrolls the Recovery Act project up to and including the month listed. These hours are pro-rated based on the individual projects Recovery Act ration of obligated amounts/total cost of the project.

Appendix C: FMIS Improvement Type Crosswalk

Code	Improvement Type	Improvement Category	Description
01	New Construction Roadway	New Construction	Construction of a new roadway that will not replace an existing roadway. A new roadway will provide: (1) a roadway where none existed or (2) an additional and alternate roadway to an existing roadway that will remain open and continue to serve through traffic.
03	4R Reconstruction, Added Capacity	Pavement Widening	Construction on approximate alignment of an existing route where the old pavement structure is substantially removed and replaced. Such reconstruction includes widening to provide continuous additional through-lane(s), adding or revising interchanges, or replacing other highway elements such as a grade separation to replace an existing grade intersection. Also included, where necessary, are other incidental improvements such as drainage and shoulder improvements.
04	4R Reconstruction, No Added Capacity	Pavement Improvement	Widening the lanes and/or shoulders of an existing roadway without adding through lanes. This may include reconstructing the existing pavement and other incidental improvements such as shoulder and drainage improvements.
05	4R Resurfacing	Pavement Improvement	Placement of additional surface material over the existing roadway to improve serviceability or to provide additional strength. There may be some upgrading of unsafe features and other incidental work in conjunction with resurfacing. Where surfacing is constructed by a separate project as a final stage of construction, the type of improvement should be the same as that of the preceding stage B new route, relocation, reconstruction, minor widening, etc.
06	4R Restoration and Rehabilitation	Pavement Improvement	Work required to return existing pavement (including shoulders) to a condition of adequate structural support or to a condition adequate for placement of an additional stage of construction. There may be some upgrading of unsafe features or other incidental work in conjunction with restoration and rehabilitation. Typical improvements would include replacing spalled or malfunctioning joints; substantial pavement stabilization prior to resurfacing; grinding/grooving of rigid pavements; replacing deteriorated materials; reworking or strengthening bases or sub-bases; and adding under-drains.
07	4R Relocation	Pavement Improvement	Construction of a roadway at a new location that replaces an existing roadway. The new roadway carries all the through traffic with the previous facility closed or retained as a land-service road only.

Appendix C: FMIS Improvement Type Crosswalk

Code	Improvement Type	Improvement Category	Description
08	Bridge, New Construction	New Bridge Construction	Construction of a new bridge that does not replace or relocate an existing bridge.
10	Bridge Replacement, Added Capacity	Bridge Replacement	Total replacement of a structurally inadequate or functionally obsolete bridge with a new structure constructed with additional lanes in the same general traffic corridor to current geometric construction standards. Incidental roadway approach work is included. The use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers.
11	Bridge Replacement, No Added Capacity	Bridge Replacement	Total replacement of a structurally-inadequate or functionally-obsolete bridge with a new structure without adding lanes constructed in the same general traffic corridor to current geometric construction standards. A bridge removed and replaced with a lesser facility is considered a bridge replacement. Incidental roadway approach work is included. The use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers.
13	Bridge Rehabilitation, Added Capacity	Bridge Improvement	For the major work required to restore structural integrity of a bridge, as well as work necessary to correct major safety defects. Bridge deck replacement (both partial and complete) and widening of bridges including addition of through lanes to specified standards are included. Construction of a dual structure to alleviate a capacity deficiency is also included. Work required correcting minor structure and safety defects or deficiencies, such as deck patching, resurfacing, protective systems, upgrading railings, curbs and gutters, and other minor bridge work. If HBRRP funds are involved, the use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers.
14	Bridge Rehabilitation, No Added Capacity	Bridge Improvement	For the major work required to restore structural integrity of a bridge as well as work necessary to correct major safety defects. Bridge deck replacement (both partial and complete) and widening of bridges without adding through lanes to specified standards are included. Work required correcting minor structure and safety defects or deficiencies, such as deck patching, resurfacing, protective systems, upgrading railings, curbs, or other preventative maintenance items are included. If HBRRP funds are involved, the use of this code requires the reporting of the National Bridge Inventory (NBI) structure number in the data field identified Bridge Numbers.

Appendix C: FMIS Improvement Type Crosswalk

Code	Improvement Type	Improvement Category	Description
15	Preliminary Engineering	Other	For the preparation of plans, specifications, and estimates (PS&E), traffic, and related studies including field inspections, surveys, material testing, and borings.
16	Right of Way	Other	For purchase of land, improvement and easements, in addition to the cost of moving and relocating buildings, businesses, and persons.
17	Construction Engineering	Other	Oversight of construction of roadways, structures, and traffic services facilities including additional design work after construction project is let.
18	Planning	Other	For Planning related purposes.
19	Research	Other	For Research related purposes.
20	Environmental Only	Other	For improvements that do not provide any increase in the level of service, in the condition of the facility or in safety features. Typical improvements that fall in this category would be noise barriers, beautification, and other environmentally related features not built as a part of any other improvement type. If environmental mitigation is needed as the result of a bridge project and it is confined to the reasonable touchdown and the bridge itself, then this is allowable with HBRRP Funds. Outside the reasonable touchdown would not be considered eligible.
21	Safety	Safety/Traffic Management	For projects or a significant portion of a project that provides features or devices to enhance safety. For example, expenditures on projects designed to improve the safety of at-grade railroad crossings or for the construction of facilities dedicated to the enforcement of vehicle weight regulations.
22	Rail/Highway Crossing	Safety/Traffic Management	Improvements to crossing warning Protective Devices such as signs, markings, and cross bucks; flashing light additions/improvements; and improvements to track circuitry.
23	Transit	Other	For transit and transit-related purposes.
24	Traffic Management! Engineering HOV	Safety/Traffic Management	Traffic operation improvements that are designed to reduce traffic congestion and to facilitate the flow of traffic, both people and vehicles, on existing systems, or to conserve motor fuels. Include automated toll collection equipment, road and bridge surveillance and control systems, etc.
25	Vehicle Weight Enforcement Program	Safety/Traffic Management	Vehicle Weight Enforcement.
26	Ferry Boats	Other	Ferry Boats
27	Administration	Other	Administration for National Recreational Trails Projects, Commercial Vehicles, and other similar projects.

Appendix C: FMIS Improvement Type Crosswalk

Code	Improvement Type	Improvement Category	Description
28	Facilities for Pedestrians and Bicycles	Transportation Enhancements	For independent projects (not part of any other Federal-aid Highway project) to construct a facility to accommodate bicycle transportation and pedestrians.
29	Acquisition of Scenic Easements and Scenic or Historic Sites	Transportation Enhancements	For projects consisting of easement and fee-simple purchase of sites of historic significance and/or considered worthy of preserving due to their scenic qualities within the view shed of a transportation facility.
30	Scenic or Historic Highway Programs	Transportation Enhancements	For projects consisting of scenic highway program and implementation activities not included in safety and other related improvements.
31	Landscaping and Other Scenic Beautification	Transportation Enhancements	For projects involving landscaping and other scenic beautification through planting and related work. This includes vegetation management to assure the sustain ability of landscape areas.
32	Historic Preservation	Transportation Enhancements	For projects consisting of purchasing and restoring/rehabilitating a building, structure, or facility (other than transportation buildings, structures and facilities) that is directly related to the transportation system.
33	Rehabilitation and Operation of Historic Transportation Buildings, Structures, or Facilities	Transportation Enhancements	For projects consisting of purchasing and restoring/rehabilitating, and/or operating transportation buildings, structures, or facilities considered to be of historic significance.
34	Preservation of Abandoned Railway Corridors	Transportation Enhancements	For projects to preserve an abandoned railway corridor. It is expected that most of these projects will accommodate bicycle and pedestrian use. This code may be used for any railway corridor conversion project including those used by equestrians, skaters, and skiers. Not to be used for National Recreational Trails projects.
35	Control and Removal of Outdoor Advertising	Other	For projects to purchase outdoor advertising for permanent removal, to remove illegal outdoor advertising, or to develop an outdoor advertising control plan.
36	Archaeological Planning and Research	Other	For projects involving the identification, evaluation, planning, and/or research of historic or archaeological planning and research under Transportation Enhancements.
37	Mitigation of Water Pollution due to Highway Runoff	Other	Mitigation of water pollution due to highway runoff.
38	Safety and Education for Pedestrians/Bicyclists	Transportation Enhancements	Safety and education for pedestrians and bicyclists
39	Establishment of Transportation Museums	Transportation Enhancements	Establishment of transportation museums.

Appendix C: FMIS Improvement Type Crosswalk

Code	Improvement Type	Improvement Category	Description
40	Special Bridge	Bridge Improvement	This category includes bridge inventory, inspection and classification and other special bridge projects, such as load posting, not covered by another type of improvement code.
41	Youth Conservation Service	Other	Youth Conservation Service
42	Training	Other	Training; Supportive Services; TRAC; On the Job Training
43	Utilities	Other	Utilities
44	Other	Other	Miscellaneous work such as National Recreational Trails construction, noise barriers, etc.
45	Debt Service	Other	Interest payments and retirement of principal under an eligible bond issue (including capitalized interest) and any other cost incidental to the sale of an eligible bond issue (including issuance costs, insurance or other credit enhancement fees, and other bond-related costs as determined).

Appendix D: U.S. DOT Agency FIPS Codes

S53040	Immokalee	S53040 - Immokalee
S53041	Seminole Tribe of Florida	S53041 - Seminole Tribe of Florida
S78980	Mississippi Band of Choctaw Indians	S78980 - Mississippi Band of Choctaw Indians

Appendix H: Alphabetical List of Field Names

Below is an Alphabetical list of RADS Field Names with corresponding table name(s). Field Names in bold represent those fields that are required (key fields) for one or all of the tables in the Table Name column.

Column Name	Table Name
Actual_State_Expenditures	Projects
Advertise_Date	Projects
Amount_Payment_Vendors	Quarterly Status
Arra_Award_Amount	Awards, Sub-Awards
Authorization_Date	Projects
Award_Date	Awards, Sub-Awards
Awarding_Agency	Awards, GIS Locations, Monthly Status, NEPA Status, Project Details, Projects, Quarterly Status, Recipients, Sub-Awards, Sub-Payments, Sub-Recipients
Begin_Point	GIS Locations
CFDA_Number	Projects
Comments	Awards, Project, Sub-Awards
Cong_District	Recipients, Sub-Recipients, Projects
Contact_City	Recipients
Contact_Email	Recipients
Contact_Ext	Recipients
Contact_Name	Recipients
Contact_Phone	Recipients
Contact_State	Recipients
Contact_Street1	Recipients
Contact_Street2	Recipients
Contact_Street3	Recipients
Contact_Zip	Recipients
Contract_ARRA_Estimate	Projects
Contract_Complete_Date	Awards
Contract_Cost_Estimate	Projects
County_Codes	Projects
Created_On	Projects
DBE_Commitment	Awards
DBE_Goal	Awards
DBE_Payments	Monthly Status
Description_Jobs	Quarterly Status
Detail_Description	Project Details
DUNS_Number	Awards, Recipients, Sub-Awards, Sub-Recipients
EDA	Projects
EDA_Comments	Projects
End_Point	GIS Locations

Appendix H: Alphabetical List of Field Names

Column Name	Table Name
Estimated_State_Expenditures	Projects
Federal_Project_Number	Awards, GIS Locations, Monthly Status, NEPA Status, Project Details, Projects, Quarterly Status, Sub-Awards, Sub-Payments
Funding_Agency	Projects
Highly_Paid_Amount1	Recipients, Sub-Recipients
Highly_Paid_Amount2	Recipients, Sub-Recipients
Highly_Paid_Amount3	Recipients, Sub-Recipients
Highly_Paid_Amount4	Recipients, Sub-Recipients
Highly_Paid_Amount5	Recipients, Sub-Recipients
Highly_Paid_Name1	Recipients, Sub-Recipients
Highly_Paid_Name2	Recipients, Sub-Recipients
Highly_Paid_Name3	Recipients, Sub-Recipients
Highly_Paid_Name4	Recipients, Sub-Recipients
Highly_Paid_Name5	Recipients, Sub-Recipients
Jobs_Percent	Monthly Status
Last_Modified_By	Awards, GIS Locations, Monthly Status, NEPA Status, Project Details, Projects, Quarterly Status, Recipients, Sub-Awards, Sub-Payments, Sub-Recipients
