1/ This table is compiled from reports of State authorities.

2/ See table MF-1 for details of receipts. Differences between amounts shown and the adjusted net gallonage receipts shown on Table MF-1, column (7) are due to timing differences and funds in transit.

3/ Includes some estimates.

4/ The distributions shown include both specific dedications and the prorated share of motor-fuel tax distributions from common funds with multiple revenue sources.

5/ Includes expenditures for county roads under State control.

6/ Some allocations for local general purposes may have been used in part for highways.

7/ Includes only allocations for specific nonhighway purposes.

8/ Gross allocations of highway-user revenues to State general funds were reduced by appropriations for highways from State general funds. These amounts are included with allocations for State highway purposes.

9/ In these States, most highway-user revenues are placed in the State general fund. For a discussion of general fund States' financing, see "Highway Finance" text under "Funds Attributable to Highway Users."
