1/ Data used for apportionment of FY 1999 funds on October 1, 1998 under TEA-21 as amended. Lane-miles and travel were derived from the updated 1996 Highway Performance Monitoring System database. Trust fund payments (both commercial vehicle and total highway account) are based on FY 1997 Trust Fund receipts attributed on updated FY 1996 motor-fuel data (tables MF-27, FE-9 and FE-221). Diesel fuel is based on updated FY 1996 data (table MF-27). Total public mileage is as of December 31, 1997.

2/ Interstate Maintenance funds are apportioned on each State's share of these factors: total Interstate lane-miles open to traffic (one-third); total Interstate vehicle-miles of travel (one-third); and commercial vehicle contributions to the Highway Account of the Highway Trust Fund (one-third).

3/ National Highway System funds are apportioned on each State's share of these factors: total principal arterial

lane-miles, excluding Interstate (25 percent); total principal arterial vehicle-miles of travel, excluding Interstate (35 percent); diesel fuel used on highways (30 percent); and total principal arterial lane-miles per capita (10 percent).

4/ Surface Transportation Program funds are apportioned on each State's share of these factors: total lane-miles of Federal-aid highways (25 percent); total vehicle-miles of travel on Federal-aid highways (40 percent); and payments into the Highway Account of the Highway Trust Fund (35 percent).

5/ Highway Safety funds are apportioned on each State's share of these factors: total population (75 percent); and total public road mileage (25 percent).
