Please see the attached quick reference document that outlines the various major project deliverables and when they are due in the life of a major project.

Due to recent inquiries about the major project guidance and the fact that there are many new individuals with major project oversight responsibilities, we believed it would be helpful to create a quick reference document for use by Division Office personnel. Thus, the attached deliverable timeline was developed based on our current major project guidance. It is considered a quick reference to what and when the various items are due during a project's development.

If there are any questions concerning this memorandum, you may contact Carl Gottschall of the Major Projects Team at (202) 366-1561.
