INNOVATE WITH E-TICKETING!

2022-2023

e-Ticketing, a Federal Highway Administration Every Day Counts 6 initiative, is a market-ready digital innovation that automates the recording and real-time transfer of material delivery information in digital format on highway construction and maintenance projects.

There is no cost to attend e-Ticketing events, however, advance registration is required.

WEBINAR SERIES

JUNE – SEPTEMBER 2022

- ▶ Learn about e-Ticketing uses, benefits, and lessons learned.
- ▶ Hear from State DOT and industry experts.
- ▶ Explore e-Ticketing technology, applications, and agency practices for implementation.

INDUSTRY DAY

FALL 2022

Meet and hear from industry vendors to learn about e-Ticketing products, systems, and solutions.

NATIONAL WORKSHOP

2023

- ▶ Learn from public sector and industry experts on implementation, expansion, adoption, and the future of e-Ticketing.
- ▶ Explore tools, technologies, data management, and federal-aid requirements.
- ▶ Network with other agencies, private entities, and e-Ticketing vendors.

PEER EXCHANGES

2022-2023

FHWA is accepting applications from interested departments of transportation and local agencies for two-day interactive peer exchanges to advance e-Ticketing implementation.

- ▶ Receive technical assistance to facilitate the implementation of e-Ticketing.
- ▶ Leverage the knowledge of public sector and industry subject matter experts.
- ▶ Get customized solutions specific to agency needs and interests.
