* Texas triggered the 95% minimum provision in FY 2020. As such, the apportionments for Texas were adjusted upward accordingly and the apportionments for all other States were required to be adjusted proportionally downward equal to the amount of the total upward adjustment in order to not exceed the total funds authorized for apportionments.

¹ After programmatic distribution of Equity Bonus, inclusive of State Planning and Research (SPR) funding.

² N/A = no changes in designation; each State's adjusted FY 2009 CMAQ share was calculated in isolation (i.e., unadjusted weighted population data was used for other States);

States in gray are below the 1/2% minimum share and, therefore, a portion of their CMAQ funding is flexible.

³ Flexible share = 1 - (initial share/0.005).

⁴ Initial flexible CMAQ amount unless superceded by flexible CMAQ amount based on change in nonattainment/maintenance area designation.
