

STEWARDSHIP AND OVERSIGHT AGREEMENT
ON PROJECT ASSUMPTION AND PROGRAM OVERSIGHT
BY AND BETWEEN THE
FEDERAL HIGHWAY ADMINISTRATION, ARKANSAS DIVISION
AND THE
ARKANSAS STATE HIGHWAY AND TRANSPORTATION DEPARTMENT
(February 2015 template version)

SECTION I. BACKGROUND AND INTRODUCTION

The Federal-aid Highway Program (FAHP) is a federally-assisted program of State-selected projects. The Federal Highway Administration (FHWA) and the State Departments of Transportation have long worked as partners to deliver the FAHP in accordance with Federal requirements. In enacting 23 U.S.C. 106(c), as amended, Congress recognized the need to give the States more authority to carry out project responsibilities traditionally handled by FHWA. Congress also recognized the importance of a risk-based approach to FHWA oversight of the FAHP, establishing requirements in 23 U.S.C. 106(g). This Stewardship and Oversight (S&O) Agreement sets forth the agreement between FHWA and the Arkansas State Highway and Transportation Department (AHTD) on the roles and responsibilities of FHWA and AHTD with respect to Title 23 project approvals and related responsibilities, and FAHP oversight activities.

The scope of FHWA responsibilities, and the legal authority for the State Department of Transportation (State DOT) assumption of FHWA responsibilities, developed over time. The U.S. Secretary of Transportation delegated responsibility to the Administrator of FHWA for the FAHP under Title 23 of the United States Code, and associated laws. (49 CFR 1.84 and 1.85) The following legislation further outlines FHWA's responsibilities:

- Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991;
- Transportation Equity Act for the 21st Century (TEA-21) of 1998;
- Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) of 2005; and
- Moving Ahead for Progress in the 21st Century Act (MAP-21) of 2012 (P.L. 112-141).

FHWA may not assign or delegate its decision-making authority to a State Department of Transportation unless authorized by law. Section 106 of Title 23, United States Code (Section 106), authorizes the State to assume specific project approvals. For projects receiving funding under Title 23, U.S.C., and are on the National Highway System (NHS) including projects on the Interstate System, the State may assume the responsibilities of the Secretary of the U.S. Department of Transportation under Title 23 for design, plans, specifications, estimates, contract awards, and inspections with respect to the projects unless the Secretary determines the assumption is not appropriate. (23 U.S.C. 106(c) (1)) For

projects under Title 23, U.S.C. not on the NHS, the State shall assume the responsibilities for design, plans, specifications, estimates, contract awards, and inspections unless the State determines such assumption is not appropriate. (23 U.S.C. 106(c)(2))

For all other project activities which do not fall within the specific project approvals listed in Section 106 or are not otherwise authorized by law, FHWA may authorize a State DOT to perform work needed to reach the FHWA decision point, or to implement FHWA's decision. However such decisions themselves are reserved to FHWA.

The authority given to the State DOT under Section 106(c)(1) and (2) is limited to specific project approvals listed herein. Nothing listed herein is intended to include assumption of FHWA's decision-making authority regarding Title 23, U.S.C. eligibility or Federal-aid participation determinations. FHWA always must make the final eligibility and participation decisions for the Federal-aid Highway Program.

Section 106(c)(3) requires FHWA and the State DOT to enter into an agreement relating to the extent to which the State DOT assumes project responsibilities. This Stewardship and Oversight Agreement (S&O Agreement), includes information on specific project approvals and related responsibilities, and provides the requirements for FHWA oversight of the FAHP (Oversight Program), as required by 23 U.S.C. 106(g).

SECTION II. INTENT AND PURPOSE OF S&O AGREEMENT

The intent and purpose of this S&O Agreement is to document the roles and responsibilities of FHWA's Arkansas Division Office (FHWA) and the Arkansas State Highway and Transportation Department (AHTD) with respect to project approvals and related responsibilities, and to document the methods of oversight which will be used to efficiently and effectively deliver the FAHP.

The Project Action Responsibility Matrix, Attachment A to this S&O Agreement and as further described in Section VIII of this S&O Agreement, identifies FHWA FAHP project approvals and related responsibilities State DOT assumes from FHWA on a program-wide basis pursuant to 23 U.S.C. 106(c) and other legal authorities. Upon execution of this agreement, Attachment A shall be controlling and except as specifically noted in Attachment A, no other agreements, attachments, or other documents shall have the effect of delegating or assigning FHWA approvals to State DOT on a program-wide basis under 23 U.S.C 106 or have the effect of altering Attachment A.

SECTION III. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS ON THE NATIONAL HIGHWAY SYSTEM

- A. The AHTD may assume the FHWA's Title 23 responsibilities for design; plans, specifications, and estimates (PS&E); contract awards; and inspections, with respect to Federal-aid projects on the National Highway System (NHS) if both the State DOT and FHWA determine that assumption of responsibilities is appropriate.
- B. Approvals and related activities for which the State DOT has assumed responsibilities as shown in Attachment A will apply program wide unless project specific actions for which the Division will carry out the approval or related responsibilities are

documented in accordance with the FHWA Project of Division Interest/Project of Corporate Interest Guide (FHWA PoDI/PoCI Guide) located at: <http://www.fhwa.dot.gov/federalaid/stewardship>.

- C. AHTD may not assume responsibilities for Interstate projects in high risk categories. (23 U.S.C. 106(c)(1))
- D. AHTD is to exercise any and all assumptions of the Secretary responsibilities for Federal-aid projects on the NHS in accordance with Federal laws, regulations and policies.

SECTION IV. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS OFF THE NATIONAL HIGHWAY SYSTEM

- A. The AHTD shall assume the FHWA’s Title 23 responsibilities for design, PS&Es, contract awards, and inspections, with respect to Federal-aid projects off the NHS (non-NHS) unless the State DOT determines that assumption of responsibilities is not appropriate. (23 U.S.C. 106(c)(2)).
- B. Except as provided in 23 U.S.C. 109(o), AHTD is to exercise the Secretary’s approvals and related responsibilities on these projects in accordance with Federal laws.
- C. AHTD, in its discretion, may request FHWA carry out one or more non-NHS approvals or related responsibilities listed as “State” in Attachment A on a program-wide basis. For a project specific request, the State may request FHWA carry out any approval or related responsibility listed in Attachment A off the NHS. Such project-specific requests shall be documented in accordance with the FHWA PoDI/PoCI Guide.
- D. Pursuant to 23 U.S.C. 109(o), non-NHS projects shall be designed and constructed in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.

SECTION V. ASSUMPTION OF RESPONSIBILITIES FOR LOCALLY ADMINISTERED PROJECTS

- A. AHTD may permit local public agencies (LPAs) to carry out AHTD’s assumed responsibilities on locally administered projects. AHTD is accountable and responsible for LPA compliance with all applicable Federal laws and requirements.
- B. AHTD is responsible for ensuring LPA administered projects are carried out in accordance with the FHWA approved “Procedures for Local Public Agency Project Administration.” Modifications to the procedures must be approved by FHWA.

- C. A Project Agreement will be executed between AHTD and the local agency to outline the project responsibilities of both AHTD and the local agency. AHTD will not delegate, to local agencies, approval authority in the following program elements:
- NEPA
 - Sole Source
 - Use of force account
 - Design exceptions
 - Changes to Interstate access
 - Right of way certification
 - Engineering plan
 - DBE goal
 - Labor compliance
 - Final inspection
 - Project acceptance
- D. If an LPA administered project is selected as a PoDI, either by AHTD or FHWA, an individual project oversight plan will be prepared specifying those approval actions retained by FHWA. In these cases, AHTD will be responsible for ensuring proper coordination with FHWA.

SECTION VI. PERMISSIBLE AREAS OF ASSUMPTION UNDER 23 U.S.C. 106(c)

An assumption of responsibilities under 23 U.S.C. 106(c) may cover only activities in the following areas:

- A. Design, which includes preliminary engineering, engineering, and design-related services directly relating to the construction of a FAHP-funded project, including engineering, design, project development and management, construction project management and inspection, surveying, mapping (including the establishment of temporary and permanent geodetic control in accordance with specifications of the National Oceanic and Atmospheric Administration), and architectural-related services.
- B. PS&E, which represents the actions and approvals required before authorization of construction. The PS&E package includes geometric standards, drawings, specifications, project estimates, certifications relating to completion of right-of-way acquisition and relocation, utility work, and railroad work.
- C. Contract awards, which include procurement of professional and other consultant services and construction-related services to include advertising, evaluating, and awarding contracts.
- D. Inspections, which include general contract administration, material testing and quality assurance, review, and inspections of Federal-aid contracts as well as final inspection/acceptance.

- E. Approvals and related responsibilities affecting real property as provided in 23 CFR 710.201(i) and any successor regulation in 23 CFR Part 710.

SECTION VII FEDERAL APPROVALS AND RELATED RESPONSIBILITIES THAT MAY NOT BE ASSUMED BY THE STATE DOT

- A. Any approval or related responsibility not listed in Attachment A cannot be assumed by AHTD without prior concurrence by FHWA Headquarters. The following is a list of the most frequently-occurring approvals and related responsibilities that may not be assumed by the State DOT:
- Civil Rights Program approvals;
 - Environmental approvals, except those specifically assumed under other agreements. (23 U.S.C. 326 and 327; programmatic categorical exclusion agreements);
 - Federal air quality conformity determinations required by the Clean Air Act;
 - Approval of current bill and final vouchers;
 - Approval of federally-funded hardship acquisition, protective buying, and 23 U.S.C. 108(d) early acquisition;
 - Project agreements and modifications to project agreements and obligation of funds (including advance construction);
 - Planning and programming pursuant to 23 U.S.C. 134 and 135;
 - Special Experimental Projects (SEP-14 and SEP-15);
 - Use of Interstate airspace for non-highway-related purposes;
 - Any Federal agency approval or determination under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), as amended, and implementing regulations in 49 CFR Part 24;
 - Waivers to Buy America requirements;
 - Approval of Federal participation under 23 CFR 1.9(b);
 - Provide pre-approval for preventive maintenance projects outside FHWA/AHTD's Preventive Maintenance Agreement;
 - Requests for credits toward the non-Federal share of construction costs for early acquisitions, donations, or other contributions applied to a project;
 - Functional replacement of property;
 - Approval of a time extension for preliminary engineering projects beyond the 10-year limit, in the event actual construction or acquisition of right-of-way for a highway project has not commenced;
 - Approval of a time extension beyond the 20-year limit for right of way projects, in the event actual construction of a road on the right-of-way is not undertaken;
 - Determine need for Coast Guard Permit;
 - Training Special Provision – Approval of New Project Training Programs; and
 - Any other approval or activity not specifically identified in Attachment A unless otherwise approved by FHWA, including the Office of Chief Counsel.

- B. For all projects and programs, AHTD will comply with Title 23 and all applicable non-Title 23, U.S.C. Federal-aid program requirements, such as metropolitan and statewide planning; environment; procurement of engineering and design related service contracts (except as provided in 23 U.S.C. 109(o)); Civil Rights including Title VI of the *Civil Rights Act*, and participation by Disadvantaged Business Enterprises; prevailing wage rates; and acquisition of right-of-way, etc.
- C. This Agreement does not modify FHWA's non-Title 23 program approval and related responsibilities, such as approvals required under the Clean Air Act; National Environmental Policy Act, Executive Order on Environmental Justice (E.O. 12898), and other related environmental laws and statutes; the Uniform Act; and the Civil Rights Act of 1964 and related statutes.

SECTION VIII. PROJECT ACTION RESPONSIBILITY MATRIX

Attachment A, Project Action Responsibility Matrix, to this Agreement identifies FAHP project approvals and related responsibilities. The Matrix specifies which approvals and related responsibilities are assumed by AHTD under 23 U.S.C. 106(c) or other statutory or regulatory authority, as well as approvals and related responsibilities reserved to FHWA.

SECTION IX. IDENTIFYING PROJECTS OF DIVISION INTEREST

- A. In May/June of each year, FHWA and AHTD will assess the current list of PoDIs to plan for the upcoming federal performance year. Existing PoDIs may be removed if the identified risk areas have been either mitigated or surpassed. New PoDIs will be identified for consideration through (but not limited to) a review of active PE and construction projects, the current STIP, and the outcome of process/program reviews and project inspections completed in the year.

In general, the following are considered PoDI projects: Major Projects (>\$500M); TIGER Discretionary Grant Projects; NHS Projects with Retained FHWA Project Approval; Non-NHS Projects with Retained FHWA Project Approval; and Projects Selected by FHWA for Risk-based Stewardship & Oversight. Regardless of retained project approval actions, any Federal-aid Highway Project either on or off the NHS that the Division identifies as having an elevated level of risk can be selected for risk-based stewardship and oversight and would then be identified as a PoDI.

- B. FHWA and AHTD agree additional PoDIs may be added during the year as new projects or risk elements are identified.
- C. An updated PoDI list will be maintained in a manner that is easily accessible and readily available to both FHWA and AHTD project staff.
- D. FHWA will determine, based on risk, which project actions FHWA will take on each individual PoDI. This will be documented in a PoDI plan for each PoDI project. PoDI plans will be made available to AHTD.

SECTION X. HIGH RISK CATEGORIES

- A. In 23 U.S.C. 106(c), Congress directs that the Secretary shall not assign any approvals or related responsibilities for projects on the Interstate System if the Secretary determines the project to be in a high risk category. Under 23 U.S.C. 106(c)(4)(B), the Secretary may define high risk categories on a national basis, State-by-State basis, or national and State-by-State basis.
- B. The Division has determined there are no high risk categories.

SECTION XI. FHWA OVERSIGHT PROGRAM UNDER 23 U.S.C. 106(g)

- A. In 23 U.S.C. 106(g), Congress directs that the Secretary shall establish an oversight program to monitor the effective and efficient use of funds authorized to carry out the FAHP. This program includes FHWA oversight of the State's processes and management practices, including those involved in carrying out the approvals and related responsibilities assumed by the State under 23 U.S.C. 106(c). Congress defines, at a minimum, the oversight program shall be responsive to all areas relating to financial integrity and project delivery.
- B. FHWA shall perform annual reviews that address elements of the AHTD's financial management system in accordance with 23 U.S.C. 106(g)(2)(A). FHWA will periodically review AHTD's monitoring of sub-recipients pursuant to 23 U.S.C. 106(g)(4)(B).
- C. FHWA shall perform annual reviews that address elements of the project delivery systems of AHTD, which elements include one or more activities that are involved in the life cycle of project from conception to completion of the project. FHWA will also evaluate the practices of AHTD for estimating project costs, awarding contracts, and reducing costs. 23 U.S.C. 106(g)(2) and (3).
- D. To carry out the requirements of 23 U.S.C. 106(g), FHWA will employ a risk management framework to evaluate financial integrity and project delivery, and balance risk with staffing resources, available funding, and the State's transportation needs. FHWA may work collaboratively with AHTD to assess the risks inherent with the FAHP and funds management, and how that assessment will be used to align resources to develop appropriate risk response strategies

Techniques the Division and AHTD will use to identify and analyze risks and develop response strategies include the following:

- Program Assessments;
- FIRE Reviews;
- Program Reviews;
- Certification Reviews;
- Recurring reviews such as the Compliance Assessment Program (CAP); and

- Inspections of project elements or phases.

These techniques will be carried out in a manner consistent with applicable Division Standard Operating Procedures or other control documents relating to program assessments, FIRE, program reviews CAP, etc.

The following techniques and processes will be used by the Division to carry out the requirements of 23 U.S.C. 106(g):

- Risk Assessment – Annually, FHWA conducts a formalized review of their oversight of the FAHP as part of the annual Unit Plan Cycle. This assessment includes evaluation of each Program Area by the Arkansas Division. These reviews are analyzed to determine the Arkansas Division’s Top Risks/Top Opportunities for the upcoming Performance Year (PY). Strategies to mitigate those risks are defined and implemented throughout the PY.
- Unit Plan – Annually the Arkansas Division evaluates its resources against the needs of the FHWA strategic goals. Division staff works with team leaders to develop activities, program reviews, program assessment, and SOPs to be included in the Unit Plan. On a quarterly basis these activities are updated and reviewed by management to ensure that deliverables are on track for the current PY.
- Project/Program Involvement – Continually, Arkansas Division staff stay involved in project and program concerns, current project issues, PoDIs, and any other areas of concern.

E. Program Responsibility Matrix

Attachment B to this S&O Agreement is the Program Responsibility Matrix example that identifies all relevant FHWA program actions, and Division and AHTD program contact offices.

F. Manuals and Operating Agreements

AHTD manuals, agreements and other control documents approved for use on Federal-aid projects are listed in Attachment C to this S&O Agreement.

G. Stewardship and Oversight Indicators

FHWA and AHTD have jointly agreed upon Stewardship and Oversight Indicators (Indicators). These indicators are listed in Attachment D to this S&O Agreement. Stewardship and Oversight Indicators should be reviewed on an annual basis.

SECTION XII. STATE DOT OVERSIGHT AND REPORTING REQUIREMENTS

A. AHTD Oversight and Reporting Requirements

AHTD is responsible for demonstrating to FHWA how it is carrying out its responsibilities in accordance with this S&O Agreement. In order to fulfill this responsibility, AHTD will

- Carry out design quality assurance reviews on all Federal-aid projects prior to advertisement;
- Develop construction cost estimates per AHTD's procedures;
- Conduct construction activities as set forth in the project's sealed construction documents and in accordance with AHTD's Standard Specifications for Highway Construction; and
- Conduct project inspections in accordance with the AHTD's Resident Engineer's Manual and AHTD's Standard Specifications for Highway Construction.

AHTD will maintain individual Federal-aid project files that will include documentation of all required FHWA actions and AHTD's assumed project approvals as set forth in this Agreement. AHTD will provide FHWA access to the project files when requested.

At least monthly, AHTD will provide FHWA with the AHTD Staff Minutes and a Construction Status Report.

- The Staff Minutes should summarize the status of each Federal-aid project under development, the proposed letting date, and identify any unique issues associated with the project.
- The Construction Status Report should summarize the status of active construction projects to include work complete, time charged, and estimated completion date.

B. AHTD Oversight of Locally Administered Projects

AHTD is required to provide adequate oversight of sub-recipients including oversight of any assumed responsibilities they delegate to a LPA. AHTD is responsible for ensuring compliance with reporting and other requirements, such as monthly reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, PL 109-282 (as amended by PL 110-252). AHTD is to exercise similar judgment as FHWA based on Federal laws, regulations, and policies, in carrying out its responsibilities for a sub-recipient oversight program (23 U.S.C. 106(g)(4)), sub-grantee awareness of grant requirements, management of awards and sub-awards, and pass through entities responsibilities (2 C.F.R. 220.331 Requirements for Pass-thru Entities). AHTD will ensure the following:

- Maintain a sufficiently staffed LPA Administration Section.

- Administer the LPA program in accordance with the FHWA approved Procedures for Local Public Agency Project Administration.

AHTD agrees to maintain and administer the AHTD Local Public Agency Projects Manual, such that they, at a minimum, allow AHTD to

- Determining whether a sub-recipient of Federal funds has adequate project delivery systems for locally administered projects and sufficient accounting controls to properly manage such Federal-aid funds.
- Determine whether a sub-recipient is staffed and equipped to perform work satisfactorily and cost effectively, and adequate staffing and supervision exists to manage the Federal project(s).
- Determine whether sub-recipient projects receive adequate inspection to ensure they are completed in conformance with approved plans and specifications.
- AHTD will ensure, if applicable, an LPA-administered Federal-aid project is constructed in accordance with the current edition of AHTD's Standards and Specifications.
- Ensure when LPAs elect to use consultants for engineering services, the LPA, as provided under 23 CFR 635.105(b), shall provide a full-time employee of the agency to be in responsible charge of the project.
- The activities for ensuring compliance, at a minimum, oversight should cover these areas:
 - a. Consultant selection and management;
 - b. Environment;
 - c. Design;
 - d. Civil Rights;
 - e. Financial management including audits and indirect cost allocation plans;
 - f. Right-of-way;
 - g. Construction monitoring, including Quality Control/Quality Assurance (QC/QA); and
 - h. Contract administration including the State DOT's responsibility to approve a sub-recipient to pursue a contract procurement method other than competitive bidding.

AHTD will maintain a project filing system that will include documentation of all required FHWA actions and AHTD's assumed project approvals as set forth in this Agreement. AHTD will provide FHWA access to the project files when requested.

AHTD will provide FHWA with AHTD's Staff Minutes, which will include the status of each active LPA project in project development stage. This will include at a minimum the current phase and any approval milestones made by AHTD. AHTD will also provide FHWA with a construction status report. This will include, at a minimum, the percent complete, the amount LPA has billed to AHTD, and the date of substantial completion for each LPA project under construction.

SECTION XIII. IMPLEMENTATION AND AMENDMENTS

- A. This S&O Agreement will take effect as of the effective date of the signature of the FHWA Arkansas Division Administrator, who shall sign this S&O Agreement last.
- B. The Division and AHTD agree updates to this Agreement will be considered periodically on a case-by-case basis or when:
- Significant new legislation, Executive orders, or other initiatives affecting the relationship or responsibilities of one or both parties to the S&O Agreement occurs;
 - Leadership, or leadership direction, changes at AHTD or FHWA; or
 - Priorities shift as a result of audits, public perception, or changes in staffing at either AHTD or the Division Office.
- C. The Division and AHTD agree changes may occur to the contents of the Attachments to this S&O Agreement and documents incorporated by reference into the S&O Agreement. Except as provided in paragraph XIII.D and E, changes to the Attachments and documents incorporated by reference will not require the Division and AHTD to amend this S&O Agreement. The effective date of any revisions to one of these documents shall be clearly visible in the header of the revised document. This Agreement and any revised document shall be posted on the Division's S&O Agreement internet site within five (5) business days of the effective date.
- D. Any changes to the high risk categories must be documented by an amendment to this S&O Agreement.
- E. Any changes to the Project Action Responsibility Matrix must be approved by the FHWA Office of Infrastructure in writing and documented by an amendment to this S&O Agreement.

PROJECT ACTION RESPONSIBILITY MATRIX
(As of February 6, 2015)**

In the matrix, actions marked with an asterisk (“FHWA*”) are those FHWA has retained but could have been assumed by the State through FHWA discretion (on the NHS) or by right (off the NHS). Projects requiring those actions are PoDI¹ projects because of FHWA’s retained authority. Those projects will be governed by a separate PoDI Plan.

The State DOT is responsible for ensuring all individual elements of the project are eligible for FAHP funding, but all final eligibility and participation determinations are retained by FHWA.

GLOSSARY

Assumption of Responsibilities – The act of State DOT to accept responsibility for carrying out and approving certain actions in the place of the FHWA. Such actions are to be taken by the State DOT in conformance with Federal laws, regulations, and policies.

Assumed Projects – Federal projects that the State DOT reviews in the place of the FHWA and has the authority to approve certain specified actions pertaining to design; plans, specifications, and estimates; contract awards; and inspections.

Certification Reviews – A review that formalizes the continuing oversight and day-to-day evaluation of the planning process.

Control Document – Applicable laws, regulations, standards, policies, and standard specifications approved by FHWA for use on Federal-aid highway projects.

Core Functions – Activities that make up the primary elements of the division office’s Federal-aid oversight responsibilities based on regulations and national policies. Core functions in the division office are Planning, Environment, Right-of-Way, Design, Construction, Finance, Operations, System Preservation, Safety, and Civil Rights.

Locally Administered Projects – For the purpose of the S&O Agreement, a Federal-aid project in which an entity other than a traditional State DOT is a sub-recipient and this entity is administering the particular phase being authorized, i.e., Preliminary Engineering, ROW, or Construction. These would include projects where the non-traditional entity will either perform the work itself or enter into a contract for services or construction. State DOT remains responsible for the local public agency’s compliance on locally administered projects.

Local Public Agency (LPA) – Any organization, other than a traditional State DOT, with administrative or functional responsibilities that are directly or indirectly affiliated with a governmental body of any Tribal Nation, State, or local jurisdiction. LPAs would most often include cities or counties. However, an LPA, as defined here, could also include a State entity as well, perhaps even a part of a State DOT. An example could include a Port Authority or Toll Authority that had not traditionally worked with the Federal-aid highway program (FAHP).

Oversight – The act of ensuring that the FAHP is delivered consistent with laws, regulations, and policies.

Program Assessments – This evaluation technique may take many forms, including joint risk assessments and self-assessments. These tools are based on the common concepts of

identifying strengths, weaknesses, and opportunities and the identification and sharing of “best” practices to continually improve the program.

Program Reviews – A thorough analysis of key program components and the processes employed by the State DOT in managing the program. The reviews are conducted to: 1) ensure compliance with Federal requirements; 2) identify areas in need of improvement; 3) identify opportunities for greater efficiencies and cost improvement to the program; and/or 4) identify exemplary practices.

Projects of Division Interest (PoDIs) – PoDIs are those projects that have an elevated risk, contain elements of higher risk, or present a meaningful opportunity for FHWA involvement to enhance meeting project objectives.

For PoDIs, FHWA has made a risk-based decision to retain project approval actions or conduct stewardship and oversight activities for the project as provided for in 23 USC 106.

Recurring Reviews – Reviews that the division office conducts annually or on a regular periodic basis. Examples include NBIS, HPMS, HVUT, etc.

Risk Assessment – The process of identifying a risk event, determining the likelihood of the event happening, determining the impact (positive or negative) of the event on the delivery of the FAHP, and identifying an appropriate risk response strategy.

Risk-Based Approach – Incorporating risk assessment and risk management into investment and strategic decision making (the means by which limited resources are focused).

Risk Management – The systematic identification, assessment, planning, and management of threats and opportunities faced by FHWA projects and programs.

Stewardship – The efficient and effective management of the public funds that have been entrusted to the FHWA.

Unit Performance Plan – The annual performance plan prepared by an individual FHWA unit that address unit responsibilities and priorities taking into account the National Performance Objectives and National Initiatives identified in the FHWA’s Strategic Implementation Plan (SIP) as well as specific initiatives identified at the unit level based on risk.
