

Accelerated Bridge Construction Workshop
 San Diego, Ca.
 October 11, 2007

Group Number: 4
 Idea Title: Code Recommendations for SABC
 Idea Number: H6
 Group Leader: Ray Wolfe

Page 2 of 2

F.	Preliminary action plan for subsequent consideration by the Steering Committee. Identify up to five steps or activities necessary for implementation (include details and be as specific as time will allow).
----	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

#	Planned Activities & Deliverables
1	<i>Securing funding sources – T3 should take the lead. Pooled funds with FHWA and States</i>
2	<i>Identify research needs (TRB)/FHWA seismic research perhaps coordinate internationally</i>
3	<i>Conduct appropriate research and manage properly to complete</i>
4	<i>Draft new chapters for AASHTO Guide Specs.</i>

G.	Identify and recommend resources: organizations and individuals. Identify who needs to be involved in subsequent activity (Industry, FHWA, Universities, TRB, DOT's, AASHTO, others)?
