## US 191 Bridge Bundling Project

**CHBP FY 2018 Grant Award: \$10,365,000**

**Recipient: Arizona Department of Transportation**

### **Project Description**

The project replaces two bridges, the US 191 bridges over Lukachukai Creek and Agua Sal Wash South, and rehabilitates two bridges, the US 191 bridges over Chinle Wash and Agua Sal Wash North, in Apache County within the Navajo Nation. These bridges provide a major north-south link within the Navajo Nation and links to I-40. The closure of these bridges would force vehicle and truck traffic to detour on local routes.

### **Project Benefits**

The project improves two bridges from poor condition to good and two bridges from fair condition to good. By moving forward with this project, the only north-south route in the region for the sparsely populated communities of Round Rock and Rock Point will be improved, maintaining the reliability of a major transportation route through the Navajo Nation.
