

MINNESOTA

District 1/St. Louis County Bridge Bundling Project

CHBP FY 2018 Grant Award: \$10,252,000

Recipient: Minnesota Department of Transportation

Project Description

The project replaces 21 bridges. Four of the bridges being replaced are along Trunk Highway 210 in Carlton County. The remaining 17 bridges are located throughout St. Louis County.

Project Benefits

The project will improve the condition of 21 bridges in poor condition in St. Louis and Carlton Counties and will benefit the region's mining, fishing and hunting industries. This project leverages the Minnesota DOT's and St. Louis County's previous successes in administering bridge bundled projects. By utilizing two primary designs, the project will achieve significant cost savings and efficiencies in construction.
