

OKLAHOMA

Grant County Bridge Replacement Project

CHBP FY 2018 Grant Award: \$3,468,000

Recipient: Oklahoma Department of Transportation

Project Description

The project replaces 34 bridges throughout Grant County.

Project Benefits

The project will improve the condition of 34 bridges throughout Grant County, increasing safety and travel efficiency for motorists. As a primarily agricultural region, replacing these bridges will allow for the continued transport of crops and livestock through the county. Through the uses of limited design types and the utilization of precast elements, design and construction efficiencies will be employed for this project.
