Subject: INFORMATION: Approval of the use of structural design standards

Date: April 11, 2022

From: Thomas D. Everett
Executive Director

In Reply Refer To:
HIBS-1

To: Division Administrators
Directors of Field Services

The American Association of State Highway and Transportation Officials (AASHTO) and the American Welding Society (AWS) have published new editions of design standards incorporated by reference at 23 CFR 625.4(d). The new editions are titled:

These design standards were developed through AASHTO and AWS technical committee process, with the cooperation of the Federal Highway Administration (FHWA) and the State highway departments. Pursuant to 23 CFR 625.3(f)(2), FHWA approves the use of these more recent editions of the standards, although their use is not required. The standards currently incorporated by reference at 23 CFR 625.4(d) continue to be required.

Should you or your staff have any questions, please contact Derek Soden at (202) 493-0341 or derek.soden@dot.gov.
