# Federal Highway Administration CENTER FOR LOCAL AID SUPPORT

## Online Training

The FHWA Local Aid Support team has developed online training courses that can be taken anywhere and anytime. Each course is designed to meet your individual transportation needs and covers a range of topics, from Grant Applications 101 for Local Agencies and Tribes to Traffic Calming and Fundamentals of Quality Concrete for Local Agencies and Tribes. Completion certificates are available at the end of each course. Start your training today! Visit [https://www.fhwa.dot.gov/clas/online\\_training.aspx](https://www.fhwa.dot.gov/clas/online_training.aspx)

## Intro to IIJA Grant Training

The FHWA is pleased to offer new training for local and Tribal agencies aimed to assist in securing transportation funding under the Infrastructure Investment and Jobs Act (IIJA). The training covers funding opportunities, the discretionary grant process, federal project delivery requirements, and additional resources. Visit:

[https://www.fhwa.dot.gov/clas/training\\_tools/bil\\_fed\\_requirements\\_guidance.aspx](https://www.fhwa.dot.gov/clas/training_tools/bil_fed_requirements_guidance.aspx)

## Coordinated Technology Implementation Program Publications

The Coordinated Technology Implementation Program (CTIP) provides innovative solutions for transportation program challenges. Increase your transportation knowledge and expertise in the areas of project development, maintenance, construction, geotechnical, unpaved road dust management, and traffic monitoring by visiting:

<https://www.fhwa.dot.gov/clas/ctip/publications.aspx>

## Build a Better Mousetrap

Build a Better Mousetrap (BABM) is a national recognition program that celebrates innovation in transportation. Innovations can include the development of tools and equipment modifications and the implementation of new processes that improve safety, reduce costs, and enhance the efficiency of our transportation system.

Visit <https://www.fhwa.dot.gov/clas/babm/> for all the details on how to enter and explore last year's groundbreaking innovations.

## Partnerships

To better serve the transportation community, FHWA has teamed up with various transportation partners to expand training options for transportation professionals. Visit:

<https://www.fhwa.dot.gov/clas/ttap/elearn.aspx>

## Local Technical Assistance Program (LTAP) Centers

In every state of the United States, as well as in Puerto Rico and the Virgin Islands, there is an LTAP Center that provides direct access to training and technical assistance for local counties, city agencies, and Tribes. To find your state's LTAP center and learn about the services they offer,

please visit: <https://www.fhwa.dot.gov/clas/ltap/>.
