

# INNOVATION EXCHANGE

Conversations Launching Change

Discussions targeted to Local Agencies, Tribes  
and Federal Land Management Agencies programs

*It's no secret that our infrastructure needs attention. But how can you provide that on a shoestring budget?*

Everyone's money is tight but the bills need to be paid and things need to get done. What is the best approach to consolidate projects, save time, be cost effective and make the best out of what we have? Money doesn't grow on trees but here is an option—

## Project Bundling!

As the number of highways and bridges needing attention continues to climb, structures posted for reduced loads are adversely affected by travel, freight movement, and emergency response times. By using project bundling to award a single contract for several similar projects in preservation, rehabilitation, or replacements, agencies can streamline design and construction, cut costs, and decrease project backlogs.

Are you ready for opportunities to bundle projects? Sign up to participate in the upcoming webinar and learn how you can bundle your projects into one.

## EDC 5: Project Bundling

Thursday, February 7, 2019  
1:00 PM to 2:30PM [EST]

To join the webinar, participants **must register** to participate in the meeting room. Wherever possible, we encourage you to attend from a conference room where everyone can gather as a group.
