LET'S TALK INNOVATION

Conversations Launching Change

The Center for Local Aid Support (CLAS) under the Federal Highway Administration (FHWA)'s Office of Innovative Program Delivery (OIPD), connects local agencies, Tribes, and Federal Land Management Agencies to innovative market-ready deployment opportunities that can be used on our nation's highways to **save lives, project delivery time, and money.**

Through Innovation Exchange webinars, CLAS is bringing cutting-edge transportation leaders to the table to share ideas and out of the box innovative practices that have proven results. Given by subject-matter experts, these webinars spread new ideas, spark conversation, and promote innovative leadership for the issues confronting our nation's transportation system now and in the future. The webinars enable you to:

- Learn and share successful innovation practices
- Discuss transportation ideas and issues with transportation partners around the country

We encourage and challenge our transportation partners to join in and participate on each Innovation Exchange topic by watching informative presentations and engaging in Q&A discussions.
