E-TICKETING PEER EXCHANGES

2022/2023

andresr/gettyimages.com

About the Peer Exchanges

- ▶ Federal Highway Administration (FHWA) is offering opportunities for peer-to-peer exchanges to interested departments of transportation and local agencies on e-Ticketing through the Every Day Counts 6 (EDC-6) initiative.
- ▶ Designed to deliver technical assistance to agencies to facilitate the implementation of e-Ticketing.
- ▶ Offering an opportunity for interaction and discussion between states that employ e-Ticketing technologies and agencies interested in developing processes and pilots for their agencies.
- ▶ Highlighting implementation and best practices and technological opportunities to support deployment of e-Ticketing.
- ▶ Leveraging the knowledge of public sector, academia, and industry subject matter experts.
- ▶ Covering various topics and customized to the interests and needs of the exploring agency.

Objectives

- ▶ Demonstrate benefits of e-Ticketing technologies.
- ▶ Provide technical support for planning of pilots and scaling up deployment.
- ▶ Share best practices and experiences on organizational change strategies and stakeholder outreach.
- ▶ Address barriers/challenges and effective practices of implementation.
- ▶ Share tools and information on technology deployment and data management.
- ▶ Assist with e-Construction State-of-the-Practice items to support deployment.

Why Your Agency Should Participate in a Peer Exchange

- ▶ Peer exchanges will benefit State DOTs and local agencies interested in implementing e-Ticketing
- ▶ Customized to the agency's needs and interests
- ▶ Matched with a lead state(s) to address those needs.
- ▶ Planned interactive activities to convey technical materials
- ▶ Facilitated dialogue with implementation stakeholders and decision makers on next steps for deployment
- ▶ Assistance with the development and/or refinement of a roadmap for implementation
