# EXPLORE E-TICKETING TECHNOLOGY SOLUTIONS!

e-Ticketing Industry Day • October 6-7, 2022

e-Ticketing, a Federal Highway Administration Every Day Counts 6 initiative, is a market-ready digital innovation that automates the recording and real-time transfer of material delivery information in digital format on highway construction and maintenance projects.

Join us as we gather public and private subject matter experts, entrepreneurs, and solution providers in a first-ever, collaborative virtual event for this technology.

## Why Participate?

- ▶ Meet other transportation infrastructure owner/client organizations who are driving the demand for e-Ticketing
- ▶ Learn about current and future capabilities of technology solutions and implementation in collaborative sessions
- ▶ Hear from leading industry experts about topics like new capabilities, existing challenges (e.g., internet coverage limitations), data standardization, integration, privacy and security, and more
- ▶ Meet technology solution providers exhibiting in the Vendor Showcase

## How to Capitalize on the Vendor Showcase

The virtual exhibit hall will include online, interactive 'booths' customized by each vendor for their technology solution.

- ▶ Meet one-on-one with approximately 25 technology solution providers to learn about e-Ticketing products, systems, and solutions
- ▶ Schedule a private meeting
- ▶ View product demonstrations of real-world applications
- ▶ Explore, then compare market ready solutions
