

# e-Construction and Partnering Innovation Matrix By State

NOTE: Information in this table was obtained from publicly available sources (e.g. internet search and presentations). Information was last updated 6/27/2018. Any corrections or updates may be sent to Kathryn.Weisner@dot.gov

State or U.S. Territory	Bid History Analysis	Bid Letting Management and Estimates	Bid Preparation and Analysis	Collaboration Portal	Construction Management System	Digital Signatures	Document Management System	Electronic As-Builts (GPS/GIS/PDF red-lining)	Electronic Bidding and Bid Bonds	e-Ticketing	Lab Inventory and Materials Management System	Mobile Devices for Inspection	Partnering	Project Management System	Project References (e.g. plans; standards; manuals)	Quantity Measurements (real-time verification)	Fleet Management	Queries and Reports	Virtual Meetings	Auto-Material Tracking (RFID/Bar-Coding)	Legend	
																					<p>ACM Alternative Contracting Methods                      CPP Construction Partnering Program                      NPA Information Not Publicly Available                      EPI Innovation being Evaluated, Piloted, or implemented, but no product was specified in the literature.</p>	
Comments																						
Alabama	AASHTO BAMS/DSS	AASHTO Preconstruction and Estimator	AASHTO Expedite	SharePoint	Custom Program	DocuSign; Adobe Digital Signatures	Falcon DMS; SharePoint	ArcGIS Collector; Unmanned Aircraft Systems	BidExpress	FleetWatcher	Custom Program	Headlight; iPads	NPA	NPA	Falcon DMS	Unmanned Aircraft Systems	Equipment-Watch	NPA	NPA	EPI	<p>Construction Administration Management System (CAMMS) is a custom developed program that is replacing SiteManager.                      Piloting CAMMS with Headlight for mobile inspection.                      Piloting FleetWatcher for e-ticketing                      Piloting UAS for progress quantities and evaluating technology for as-builts; and is considering a pilot project for e-Builder; PlanGrid; and Bluebeam Revu.                      Exploring DocuSign; Adobe to integrate with CAMMS.                      Falcon DMS is only used for design and archival system.</p>	
Alaska	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Bids	NPA	AASHTO CRLMS and SiteManager	NPA	NPA	NPA	BidExpress	NPA	NPA	NPA	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	EPI	<p>Alaska is in the process of implementing AASHTOware Project Suite.                      Phase 1: Preconstruction; CRLMS; Bids and Bid Express by July 2018.                      Phase 2: Const. &amp; Materials by July 2018-July 2019.                      Replaces SiteManager.                      Phase 3 Estimation by July 2019-July 2020.                      Phase 4 BAMS/DSS by July 2020-January 2021.                      Custom EDMS for storm water documents and permits.                      Evaluating RFID/bar code technology to track materials.</p>
Arizona	NPA	NPA	AASHTO Expedite	Custom Program; e-Builder	Custom Program; e-Builder	NPA	Custom Program	NPA	BidExpress; SurePath	NPA	Custom Program	Citrix; Windows Tablets	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	EPI	<p>Custom CMS with multiple modules called FAST used for electronic contracting management; partnering evaluation; estimated engineering construction costs; project tracking; repository for archived documents; system to track compliance for DBE certification and payroll reporting; etc. Lastly, the The PEN module is used for entering daily diaries. e-Builder and a custom program called ELVIS (short for Engineering and Laboratory Vital Information System) on alternative delivery projects as a project collaboration portal and construction management system. Evaluating RFID/bar code technology to track materials.</p>
Arkansas	AASHTO BAMS/DSS	AASHTO Preconstruction and Cost Estimation	AASHTO Expedite	e-Builder	AASHTO SiteManager; e-Builder	DocExpress	DocExpress; e-Builder	NPA	BidExpress; SurePath	NPA	NPA	Headlight; Windows Tablets	NPA	NPA	e-Builder	NPA	NPA	Custom Program	NPA	NPA	EPI	<p>e-Builder is being used for the alternative delivery projects; but ARDOT uses DocExpress as the official filing cabinet for design-bid-build construction projects. The state also uses SurePath to verify electronic bid bonds. State also has two custom applications: one is called SARS to run queries and reports directly from SiteManager; and the second one is called COGS to manage change order documentation and approvals. Their SiteManager program is heavily customized to accommodate reporting needs. Arkansas uses bar codes to track certain assets (e.g. signs)</p>
California	AASHTO BAMS/DSS	NPA	AASHTO Bids	NPA	NPA	NPA	Falcon DMS	NPA	BidExpress; SurePath; Surety 2000	NPA	NPA	Headlight; PlanGrid	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	<p>Falcon DMS is used for managing active structures documents; specifically engineering drawings; email; Microsoft Office; raster images and other types of documents. State also uses it for document retrieval system (e.g. roadway as-built plans; right-of-way; survey field notes; as-built structure plans; accident incident reports; etc.).                      State is also piloting Headlight and PlanGrid has been used in some alternative delivery projects; and uses SurePath and Surety 2000 for verifying electronic bid bonds.</p>
Colorado	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Bids	InEight Model Suite	AASHTO SiteManager	Adobe Digital Signatures	ProjectWise; PlanGrid	NPA	BidExpress; SurePath	NPA	NPA	Headlight; PlanGrid	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	<p>CDOT has an upcoming design-build project in which InEight Model Suite software was proposed by the developer to view 3D models in real-time to collaborate and view 3D models. Agency accepted the innovation. State is piloting several products to enable mobile inspection such as Headlight and PlanGrid. State does not have a consistent policy for e-signatures, but when documents are signed electronically, it is done with Adobe ID.</p>
Connecticut	AASHTO BAMS/DSS	AASHTO Preconstruction and Estimator	AASHTO Expedite	Bluebeam Revu	AASHTO SiteManager	Adobe Digital Signatures	ProjectWise	ArcGIS Collector	BidExpress	NPA	NPA	Mobile Inspector	NPA	NPA	NPA	GPS Rovers	NPA	NPA	NPA	NPA	NPA	<p>The state also uses GPS rovers for real-time verification and measurement of quantities in the field.</p>
Delaware	AASHTO BAMS/DSS	AASHTO Cost Estimation and PES/LAS	AASHTO Expedite	NPA	NPA	NPA	ProjectWise	NPA	NPA	iStrada	NPA	iPads	ACM; CPP	Oracle P6	NPA	NPA	NPA	NPA	NPA	NPA	NPA	<p>Delaware is evaluating e-ticketing technology.</p>

NOTE: Information in this table was obtained from publicly available sources (e.g. internet search and presentations). Information was last updated 6/27/2018. Any corrections or updates may be sent to Kathryn.Weisner@dot.gov

State or U.S. Territory	Bid History Analysis	Bid Letting Management and Estimates	Bid Preparation and Analysis	Collaboration Portal	Construction Management System	Digital Signatures	Document Management System	Electronic As-Builts (GPS/GIS/PDF red-lining)	Electronic Bidding and Bid Bonds	e-Ticketing	Lab Inventory and Materials Management System	Mobile Devices for Inspection	Partnering	Project Management System	Project References (e.g. plans; standards; manuals)	Quantity Measurements (real-time verification)	Fleet Management	Queries and Reports	Virtual Meetings	Auto-Material Tracking (RFID/Bar-Coding)	Legend

																					Comments	
Florida	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Bids	ProjectSolve; Bluebeam Revu	AASHTO SiteManager	IdenTrust	Hummingbird; ProjectSolve	NPA	BidExpress; SurePath	Fleetwatcher	NPA	Autodesk BIM 360 Field; Citrix; iPads	ACM; CPP	NPA	Hummingbird; ProjectSolve	NPA	NPA	NPA	NPA	NPA	EPI	Florida is evaluating e-ticketing technology. The state is also piloting RFID/bar code technology to automatically track materials. The state uses ProjectSolve as their collaboration platform outside the firewall; but have an electronic document management system for final archival of project files for record retention purposes. Hummingbird is used for document storage inside of the firewall.
Georgia	AASHTO BAMS/DSS	AASHTO Preconstruction and Cost Estimation	AASHTO Bids	NPA	AASHTO SiteManager	DocuSign	Custom Program; ProjectWise	NPA	BidExpress; SurePath	NPA	NPA	Windows Tablets	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	State uses DocuSign to execute contracts and change orders. Software is integrated with custom financial application.
Guam	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
Hawaii	NPA	HANDS	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Hawaii Awards and Notices Data System (HANDS)
Idaho	AASHTO BAMS/DSS	AASHTO Preconstruction and Estimator	AASHTO Bids	Bluebeam Revu	AASHTO SiteManager	NPA	ProjectWise	NPA	BidExpress; SurePath	NPA	NPA	Headlight	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Idaho uses Bluebeam for preconstruction digital review of plans; and ProjectWise for all project related documentation.
Illinois	NPA	ExeVision	NPA	NPA	NPA	NPA	Custom Program; ProjectWise	NPA	BidExpress; SurePath; ExeVision	NPA	Custom Program	Headlight	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Illinois uses a custom web-based application called Materials Integrated System for Test Information and Communication (or WebMISTIC) for storing material inspection and test information. Also the state uses their custom application Illinois Construction Records System for construction documentation; which also serves as a digital quantity book for the contract. The state uses ExeVision for electronic bidding; and SurePath for verifying electronic bid bonds - electronic bidding is encouraged; but not mandatory. Controller requires wet signatures on change orders. Headlight is being used by consultants providing construction services.
Indiana	AASHTO BAMS/DSS	AASHTO Preconstruction, Cost Estimation and Estimator	AASHTO Expedite	Bentley OpenRoads Navigator and ProjectWise; SharePoint	AASHTO CRLMS and SiteManager	NPA	ProjectWise; SharePoint	ArcGIS Collector	BidExpress; SurePath	EPI	NPA	Custom Program Windows Tablets	CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	While the state owns iPads; only Windows Tablets are used for construction purposes. State also developed a custom inspector daily diary application; and is implementing a LIMS in 2018. The state is a long-time user of SiteManager. Indiana is evaluating e-ticketing technology.
Iowa	AASHTO BAMS/DSS	AASHTO PES/LAS	AASHTO Expedite	NPA	AASHTO FieldManager	DocExpress	ProjectWise	ArcGIS Collector, Survey 123, GPS Outline	BidExpress; SurePath	Fleetwatcher, i-Strada	Custom Program	iPads	CPP	NPA	Custom Program	NPA	NPA	NPA	NPA	Adobe Connect	EPI	Doc Express is used for post-letting document management and digital signatures during the construction administration of a project while ProjectWise is used for document management of engineering drawings during Preconstruction. The ERL system is an online room for specifications; manuals; road standards; materials inventory materials; bridge standards; etc. The state also uses Adobe Connect for virtual web meetings and PDF expert for plan reading/markup and fillable forms on the iPads. Windows tablets are also being tested (Microsoft Surfaces); but lack some of the features that are important for data collection. Bar codes are used to track certain field material samples (i.e. hot asphalt boxes). The state piloted e-ticketing technology in the summer of 2017 and implemented ArcGIS collector, Survey 123 and GPS Outline to document as-built location and conditions for culverts and a few other as-built features.
Kansas	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Expedite	Bluebeam Revu	AASHTO CRLMS and Construction and Materials; Field Interviewer	NPA	ProjectWise	NPA	BidExpress; e-Plans; SurePath	NPA	AASHTO Construction and Materials	Mobile Inspector; Field Interviewer	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Kansas uses Bluebeam Revu for Preconstruction collaboration; and SurePath for verifying electronic bid bonds. The state uses Mobile Inspector and Field Interviewer. Digital signatures are allowed as long as the signer complies with state statute.
Kentucky	AASHTO BAMS/DSS	AASHTO Preconstruction; Estimator	AASHTO Bids	SharePoint	AASHTO CRLMS and SiteManager	NPA	ProjectWise and SharePoint	Varies	BidExpress; SurePath	NPA	NPA	Mobile Inspector	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Kentucky recently inquired about the use of DocExpress; but uses AASHTOware Project SiteManager and Preconstruction modules. The state uses a SharePoint-based application for electronic review of change orders. As-built records are documented using a variety of methods: redlined PDFs or CAD drawings, or redlined on paper. Bluebeam is available to each project office.

NOTE: Information in this table was obtained from publicly available sources (e.g. internet search and presentations). Information was last updated 6/27/2018. Any corrections or updates may be sent to Kathryn.Weisner@dot.gov

State or U.S. Territory	Bid History Analysis	Bid Letting Management and Estimates	Bid Preparation and Analysis	Collaboration Portal	Construction Management System	Digital Signatures	Document Management System	Electronic As-Builts (GPS/GIS/PDF red-lining)	Electronic Bidding and Bid Bonds	e-Ticketing	Lab Inventory and Materials Management System	Mobile Devices for Inspection	Partnering	Project Management System	Project References (e.g. plans; standards; manuals)	Quantity Measurements (real-time verification)	Fleet Management	Queries and Reports	Virtual Meetings	Auto-Material Tracking (RFID/Bar-Coding)	Legend

Nebraska	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Bids	NPA	AASHTO SiteManager	DocuSign	OnBase; ProjectWise	NPA	BidExpress	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Equipment-Watch	NPA	NPA	NPA	NPA	Nebraska is using the ArcGIS Collector GIS application on a project by the environmental group to collect data for endangered and threatened species. The state also uses SharePoint; but typically no for project collaboration. The state owns Windows tablets; but not sure if they are being used for construction. The state is also in the process of developing a remote application solution to allow external users to access internal systems; and in the process of implementing OnBase for managing change order documentation and approvals.
Nevada	NPA	NPA	NPA	NPA	AASHTO FieldManager	NPA	ProjectWise	NPA	NPA	NPA	NPA	Mobile Inspector	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
New Hampshire	NPA	NPA	NPA	NPA	NPA	DocExpress	DocExpress	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
New Jersey	AASHTO BAMS/DSS	AASHTO Preconstruction and Project Estimation	AASHTO Bids	NPA	AASHTO CRLMS and SiteManager	NPA	Falcon DMS; ProjectWise	NPA	BidExpress	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	New Jersey uses Falcon DMS to host the plans for internal use. All images of road; bridge; traffic and related documents including as-builts and right-of-way documents are stored in this electronic plans library.
New Mexico	AASHTO BAMS/DSS	AASHTO Estimator and PES/LAS	AASHTO Expedite	NPA	AASHTO SiteManager	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
New York	AASHTO BAMS/DSS	AASHTO Estimator and PES/LAS	AASHTO Bids	NPA	AASHTO SiteManager	Adobe Digital Signatures	ProjectWise	Varies	BidExpress	NPA	NPA	Mobile Inspector	ACM	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	New York State DOT is a long user of SiteManager for construction management; and GPS rovers for real-time verification and measurement of quantities. As-built records are documented using a variety of methods: redlined PDFs or CAD drawings, or redlined on paper. The agency's goal is to have a GPS/GIS application to record as-built conditions. The New York State Transportation Authority is using InEight Model Suite on design-build projects to view 3D models and connect them to estimates for progress payments in the field.
North Carolina	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Expedite	SharePoint	AASHTO CRLMS	NPA	SharePoint	NPA	BidExpress	NPA	NPA	NPA	ACM	NPA	NPA	NPA	NPA	NPA	NPA	NPA	EPI	North Carolina is a long user of SharePoint technology for collaboration and document management. The state also implemented RFID/bar code technology for automatically tracking materials.
North Dakota	NPA	NPA	AASHTO Bids	NPA	NPA	NPA	NPA	NPA	BidExpress	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
Ohio	AASHTO BAMS/DSS	AASHTO Preconstruction, Cost Estimation and Estimator	AASHTO Bids	Bluebeam Revu; Sharepoint	AASHTO CRLMS and SiteManager	DocuSign	Falcon DMS; ProjectWise and SharePoint	ArcGIS Collector	BidExpress	NPA	NPA	Custom Program: iPads; Mobile Inspector; Windows Tablets	ACM: CPP	Oracle P6	NPA	NPA	Equipment-Watch	NPA	NPA	NPA	NPA	Ohio is implementing ProjectWise in 2018; and has developed digital forms called "GoFormz" for quality construction inspection (diaries); which are cloud-based PDF forms accessible via SharePoint. The state uses Falcon DMS for internal access of geotechnical information; such as boring logs; profile sheets; lab reports; field sketches; geo-hazards; structures; and digital photos. This portal is also available to external stakeholders such as FHWA; Ohio DNR; and municipalities. Implementation of ProjectWise and AASHTOware Project Construction and Materials web-based module to replace SiteManager in 2018.
Oklahoma	AASHTO BAMS/DSS	AASHTO Estimator and PES/LAS	AASHTO Bids	NPA	NPA	NPA	NPA	NPA	BidExpress	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None

Puerto Rico	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Tablets	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Used 2017 STIC funds to procure mobile devices. Status of innovation is unknown.
Rhode Island	NPA	NPA	NPA	NPA	NPA	NPA	Falcon DMS and ProjectWise	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Rhode Island uses Falcon DMS for internal access to digitized (scanned) paper construction plans and plats in a plans library.
South Carolina	AASHTO BAMS/DSS	AASHTO Preconstruction and Estimator	AASHTO Expedite	NPA	AASHTO CRLMS and SiteManager	NPA	Falcon DMS and ProjectWise	NPA	BidExpress Custom Program; SurePath; Surety 2000	NPA	NPA	Citrix; Windows Tablets	ACM; CPP	NPA	NPA	GPS Rovers	NPA	NPA	NPA	NPA	NPA	SiteManager has been used for electronic daily reporting, estimates, change orders, etc. since 1999. Currently looking at upgrading to AASHTOware Project Construction and Materials web-based module. Non-fillable PDF construction forms (completed forms stored in ProjectWise - master forms on Extranet). ProjectWise for document management (advantages and disadvantages and working to integrate contractors and consultants). Field operations uses ProjectWise for document management. Design/build team uses Bluebeam for collaboration. Contract administration is handled through Extranet and their P2S system. Some Surface Pro 3 tables have been deployed to the field to access SiteManager via remote desktop application. Also, the state is in the early stages of implementing GPS rovers for real-time verification and measurement of quantities. The state also uses Falcon DMS as the platform for the state's "Online Plans Room" for internal access of scanned images as-built drawings and project photos; and external access of "as-let" construction plans.
South Dakota	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
Tennessee	AASHTO BAMS/DSS	AASHTO Preconstruction	AASHTO Expedite	NPA	AASHTO CRLMS and SiteManager	NPA	NPA	NPA	BidExpress	NPA	NPA	NPA	ACM	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
Texas	AASHTO BAMS/DSS	AASHTO Estimator	NPA	NPA	AASHTO SiteManager	DocuSign	ProjectWise	NPA	BidExpress	NPA	NPA	iPads; Headlight; Mobile Inspector	ACM; CPP	Oracle P6	NPA	NPA	EquipmentWatch	NPA	NPA	NPA	NPA	Texas is piloting Headlight and iPads on select projects. Texas is a long-time user of SiteManager.
U.S. Virgin Islands	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	None
Utah	NPA	NPA	NPA	Bentley OpenRoads Navigator; Interchange	Aurigo Masterworks	EPI	ProjectWise and Interchange	Unmanned Aircraft Systems	BidExpress	NPA	NPA	iPads; Aurigo Masterworks Mobile Inspection App	ACM	NPA	NPA	GPS Rovers; UAS	NPA	NPA	NPA	NPA	NPA	Utah implemented Aurigo Masterworks and the mobile app for construction management and inspector reports. Also, the state implemented the use of GPS rovers for real-time verification and measurement of quantities. State also uses Interchange for project collaboration.
Vermont	None	AASHTO Estimator	AASHTO Expedite	NPA	AASHTO FieldManager and SiteManager	DocExpress	DocExpress; e-Box	NPA	BidExpress	NPA	NPA	Headlight; Mobile Inspector	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Vermont recently implemented DocExpress for document management and digital signatures. The state is also piloting the use of Headlight for daily inspector reports. VTrans is transitioning to AASHTOware Project Bids, but does not have bid analysis software. Also, looking at Survey 123. Have been using Mobile Inspector for 3-4 years, but not very friendly. Piloted Headlight: useful on design-build, but not design-bid-build.
Virginia	AASHTO BAMS/DSS	AASHTO Preconstruction and Estimator	AASHTO Expedite	Bluebeam Revu	AASHTO CRLMS and SiteManager	IdeaTrust, Bluebeam or Adobe Digital Signatures	Falcon DMS, CADAC, and ProjectWise	NPA	BidExpress	NPA	NPA	Citrix, PlanGrid, and Tablets	ACM; CPP	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	States either use this Bluebeam Revu and Studio software for Preconstruction collaboration; constructability reviews; and/or markup of as-built plans. Virginia uses Falcon DMS for accessing active project documents; such as CADD drawings; email; reports; spreadsheets; and raster images. The state is also using Falcon DMS for storing and retrieving as-built plans. Agency uses a program called CADAC (SharePoint-based) for design-build projects. Also, agency is building a new document management system similar to CADAC, but not as sophisticated. State Construction Engineer has authorized the use of IdeaTrust for contractors to sign documents electronically, but it is not used very often because state does not pay for the licensing. Internally, the agency uses Bluebeam or Adobe ID signatures.
Washington	NPA	NPA	AASHTO Expedite	SharePoint	NPA	NPA	ProjectWise and SharePoint	NPA	BidExpress	NPA	NPA	Headlight	ACM	NPA	NPA	NPA	NPA	NPA	NPA	NPA	NPA	Washington is piloting Headlight for construction inspector reports.
