Keep Your Car Parked & Get Around Another Way

High pollution levels are no longer a big city problem; they are affecting communities like the Greater Lansing area. The Tri-County area failed the EPA air quality standards, but you can help.

Just once or twice a week, try getting around another way:

1. Take the Bus
2. Carpool
3. Vanpool
4. Bike
5. Walk

You can save money and help to reduce traffic congestion and pollution.

What Is CATA Clean Commute Options?

CATA Clean Commute Options is a free program dedicated to educating the community about the alternatives to driving alone. Our goal is to encourage the community to participate in improving the Tri-County area's air quality. Information is available to help you choose commute alternatives such as taking the bus, walking, and biking. In addition, a free ride matching service is provided to those interested in forming car or vanpools.

Tomorrow, leave home without it.
Ozone Can Affect You and Your Family's Health

Did you know that increased ozone levels can make it harder to breathe? The most vulnerable people can be your children, an elderly relative, and those who actively exercise or work outdoors. We must all help to improve our air quality before it causes further health issues within our community.

Simple Steps!

You probably know that ozone caused by vehicles contributes to air pollution. But you may not know that a small change in the choices we make can have a big impact. For example:

1. Choose a different way to commute
2. Keep a well-maintained vehicle
3. Don’t idle your engine
4. Fuel your vehicle after 5:00 p.m.
5. Don’t top off your tank
6. Don’t mow your lawn on Ozone Action Days

Together we can all contribute to a cleaner commute and a cleaner community.

You Can Help

Ground-level ozone can be harmful to our community, but we can all help to prevent further health risks. So give your car a rest and try getting around another way.

Please fill out the application and help contribute to a cleaner commute and a cleaner community.

You may mail or fax your completed application to:
