Three Simple Steps for Spring

1. Care for your car. Regular maintenance and tune-ups, changing the oil, and checking tire inflation can improve gas mileage, extend your car's life, and increase its resale value. It also can reduce traffic congestion due to preventable breakdowns and it could reduce your car's emissions as much as 50%.

2. Care for yourself. Walking and bicycling are great ways to travel, they're easy ways to get exercise, and they're easy on the air. Passenger cars and trucks create more than 25% of all air pollution nationwide.

3. Spread the word. If everyone took just a few of these simple, easy steps, it could make a big difference, because –

It all adds up to cleaner air.
