

SHRP2 Renewal Solution R26 PRESERVATION FOR HIGH TRAFFIC VOLUME ROADWAYS WORKSHOP

LOCATION
Newark, Delaware

CALENDAR DATE
April 28, 2015

LENGTH
1 PM to 5 PM

FEE
FREE

DESCRIPTION:

Federal Highway Administration (FHWA), in conjunction with the 2015 Northeast Pavement Preservation Partnership (NEPPP) meeting, is sponsoring a 4-hour (half-day) workshop developed to communicate the results of a SHRP2 study on preservation of high traffic volume roadways (HVR). The workshop will cover the state of the practice on preservation of HVR asphalt and concrete pavements and related issues. This outreach activity will disseminate information about the techniques and methods successfully used by State DOTs and other highway agencies to extend the life of pavements.

TARGET AUDIENCE:

The target audience is State Highway Agencies, contractors, consulting engineers, and others who are or could be involved in the preservation of an agency's HVRs.

OUTCOMES:

Upon completion of the workshop, participants will be able to:

- Describe the R26 research and products
- Describe how R26 decision tools can be used to select treatments/projects
- Identify performance issues with preservation on HVR
- List benefits of preservation on HVR
- Identify preservation treatments used on HVR and important treatment considerations
- List challenges to preservation on HVR
- Describe programmatic changes to incorporate HVR preservation into agency practice

*Asphalt Rubber Gap Graded Mix, SR15,
Lewisburg, PA
September 2013*

WORKSHOP TRAINING INFORMATION:
