For Your Use Only - Worksheet Not to be Submitted with the Nomination Application.

The Federal Highway Administration has developed this worksheet to help byway leaders judge your readiness to seek national designation for your byway. It is intended for your use only as you begin to think about the kind of information you might be requested to provide in your nomination application. This worksheet is meant for initial planning purposes only. It is based on the Interim Policy (the principal policy for the program) and 23 U.S.C. Section 162 (the statute governing the National Scenic Byways Program). For more detailed information on what is required to submit a FY 2020 nomination application, please see the FY 2020 National Scenic Byways Program Nomination Guide.

Seeking designation requires considerable effort and the collection and assessment of many documents. All materials must be submitted in electronic form as part of the application. Additional attachments beyond those requested in the Nomination Application will not be considered. Byway leaders are encouraged to review this Worksheet, make notations, and verify that they have the information available to demonstrate that their road possesses the necessary Intrinsic Qualities and significance needed to be considered for designation as one of America’s Byways®.

Assessing Our Documentation

☐ We have discussed our interest in seeking national designation with our State, Indian tribe, or Federal land management agency scenic byway coordinator or contact and understand the requirements for submitting a nomination application to them for subsequent submission to FHWA.

<table>
<thead>
<tr>
<th>The Interim Policy (principal policy) and 23 USC 162 (law guiding the NSBP Program) statements are reproduced below each section label.</th>
<th>Verification</th>
<th>Documentation Locations (CMP or other sources)</th>
<th>Notes or Observations</th>
</tr>

<tbody>
<tr>
<td>State, Indian Tribe, Federal Land Management Agency Designation</td>
<td>☐ Designation information and the date are documented.</td>
<td>☐ Copies of State, Indian tribe or Federal land management agency designation submittal and notice are available.</td>
<td>Date designated: Notes regarding how the safety and quality of the road will be maintained: Notes regarding reciprocal notification:</td>
</tr>
</tbody>
</table>

To be considered for designation, a road must be nominated by a State, an Indian tribe, or a Federal land management agency (U.S. Forest Service, Bureau of Land Management, National Park Service and Bureau of Indian Affairs) and must first be designated as a State scenic byway, an Indian tribe scenic byway, or, in the case of a road on Federal lands, as a Federal land management agency byway.

Nomination by Indian tribes: An Indian tribe may nominate a road as a National Scenic Byway only if a Federal land management agency (other than the Bureau of Indian Affairs), a State, or a political subdivision of a State does not have jurisdiction over the road or responsibility for managing the road. An Indian tribe shall maintain the safety and quality of the roads nominated by the Indian tribe.

States, Indian tribes, and Federal land management agencies shall notify each other regarding the nominations made for roads that are within the jurisdictional boundary of the State, Indian tribe or Federal land management agency; or directly connect to roads for which the State, Indian tribe, or Federal land management agency is responsible.
### Vehicles Accommodated

A road or highway should safely and conveniently accommodate two-wheel-drive automobiles with standard clearances to be considered for designation as a National Scenic Byway or an All-American Road. In addition, to be considered for All-American Road designation, roads or highways should safely accommodate conventional tour buses. See Pages 5-7 of this worksheet for discussion of more extensive All-American Road designation requirements.

- ☐ At a minimum, the entire nominated route accommodates two wheel drive automobiles (unpaved roads, or sections of roads that are proposed for nomination that may be unpaved may be submitted for consideration for national designation but should meet this criterion).

- ☐ Accommodation evidence is available in the following sources:
  - ☐ Any limitations for R/V or large vehicles are noted.

### Provisions for Bikes & Pedestrians

Roads or highways considered for National Scenic Byway and All-American Road designation should accommodate, wherever feasible, bicycle and pedestrian travel.

- ☐ Where possible, bicycle and/or pedestrian travel is safely accommodated.

- ☐ Discussion available in the following sources:

### CMP Available for Submittal

A scenic byways corridor management plan, prepared in accordance with Paragraph 9 of the Interim Policy, should be submitted and approved in order for any road or highway to be considered for National Scenic Byway of All-American Road designation. (See the Interim Policy for more details.) To facilitate review, you will be required to submit this document in electronic form as part of your nomination application.

- ☐ The CMP for the nominated route clearly satisfies the required list from the Interim Policy detailed in Paragraph 9.

- ☐ The CMP is available in electronic form

- ☐ List identifies page numbers from the CMP that discuss each required point from Paragraph 9(a) of the interim policy

- ☐ Maps of the entire designated route are available

- ☐ Maps indicate corridor boundaries, byway features, points of interest, communities and partners and clearly show gaps in the corridor

### Continuity

An important criteria for both National Scenic Byways and All-American Roads is continuity. Neither should have too many gaps but rather should be as continuous as possible and should minimize intrusions on the visitor’s experience.

- ☐ Travelers can easily follow the route, even when gaps are present.

- ☐ The nominated route is continuous or has minimal gaps.

- ☐ Any gaps that exist do not diminish the traveler experience.

- ☐ Explanations for gaps and/or intrusions that interrupt the continuity of the traveler experience can be provided (e.g., local zoning decisions, lack of community support, etc.)

- ☐ Maps of the entire designated route segments are available

- ☐ A summary describing all route segments is available.

- ☐ Addresses/ intersections and Description of route segments and gaps:

- ☐ Information we already have or that needs to be collected to document how travelers follow the byway:

- ☐ Maps or Information we already have that needs to be converted or scanned into an electronic format for
The Interim Policy (principal policy) and 23 USC 162 (law guiding the NSBP Program) statements are reproduced below each section label.

<td>Submission:</td>
</tr>
</tbody>
</table>

Please note: **Photographs are a very important part of a Nomination.** Photographs document your road, the qualities that make it significant and the attractions that travelers find memorable. An essential part of your decision to seek designation of your road as one of America's Byways® needs to be the collection of high quality photos, available for unrestricted media reproduction, that reinforce the attributes of your road as you describe them in the online nomination form. Photos showing the road during several seasons and displaying people engaged in byway activities are particularly useful to reviewers. Do you have a collection of photographs available, and are they in an electronic format for proper submission as part of the Nomination Application? For guidelines on submitting images, please see our [image style guide](#).
Assessing Our Intrinsic Qualities

Select one (1) Intrinsic Quality (National Scenic Byway) or two (2) Intrinsic Qualities (All-American Road) that will be fully discussed in the nomination. For definitions of the Intrinsic Qualities, see the Interim Policy or the FY 2008 National Scenic Byways Nomination Guide. The selection of the designation sought is an important decision that impacts the information that you will be requested to supply and substantiate throughout your nomination application.

- To be designated as a National Scenic Byway, a road or highway should possess at least one of the six scenic byways Intrinsic Qualities discussed below that is significant regionally (two or more States).
- In order to be designated as an All-American Road, the road or highway should possess at least two of the Intrinsic Qualities that are significant nationally.

The primary Intrinsic Quality(s) of the nominated route is/are (Select one for National Scenic Byways or two for All-American Roads):

- ☐ Archaeological
- ☐ Cultural
- ☐ Historic
- ☐ Natural
- ☐ Recreational
- ☐ Scenic

<table>
<thead>
<tr>
<th>Assessment Question</th>
<th>Notes or Observations</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ The selected Primary Intrinsic Quality(s) can be clearly identified, documented and related to the byway traveler experience.</td>
<td>Notes and documentation for this discussion:</td>
</tr>
<tr>
<td>Documentation includes a map establishing the corridor boundaries and locations of Intrinsic Qualities as well as narrative discussions from planning documents and/or publications.</td>
<td></td>
</tr>
<tr>
<td>☐ Each selected Intrinsic Quality is discussed and mapped in our planning documents. We should select one or two primary IQ’s (NSB or AAR) for complete discussion.</td>
<td>Notes and documentation for this discussion:</td>
</tr>
<tr>
<td>☐ The context or connections between the identified Intrinsic Quality(s) and our byway planning will be clearly understood by reviewers.</td>
<td></td>
</tr>
<tr>
<td>☐ The regional significance of the one primary Intrinsic Quality (NSB) can be clearly described and documented. A National Scenic Byway designation requires that, “The characteristics associated with the intrinsic qualities are those that are distinct and most representative of the region.” See Pages 5-7 of this worksheet for discussion of more extensive All-American Road designation requirements</td>
<td>Notes and documentation we have or need to collect that demonstrate regional significance:</td>
</tr>
<tr>
<td>☐ If there are other America’s Byways® in our region, the Intrinsic Qualities and/or supporting resources that are unique to our road can be identified and clearly documented. This road adds value to the existing collection of America’s Byways.</td>
<td>Summarize the adjacent roads and their Intrinsic Qualities in contrast to ours:</td>
</tr>
<tr>
<td>☐ Travelers can easily identify the value and integrity of the road’s Intrinsic Quality(s), especially the primary IQ, through means such as publications, travel-related articles and conversations with residents and stakeholders. Examples are collected and/or documented.</td>
<td>Notes, information and publication references we have or need to collect and</td>
</tr>
</tbody>
</table>
**Assessment Question Notes or Observations**

- Resources that support the Intrinsic Quality(s) have been identified, inventoried, and documented. Visitors can easily locate the resources and can understand their significance and relationship to the road. The resources are related to byway stories, and byway travelers can locate them as they travel the road.

- Interpretive information and strategies to deliver stories and traveler information about byway resources is available to byway travelers now or will be available when designation occurs.

**Notes or Observations**

- Notes or information we have or need to collect and document:

**Additional Intrinsic Quality Considerations for All-American Roads**

<table>
<thead>
<tr>
<th>Assessment Question</th>
<th>Notes or Observations</th>
</tr>
</thead>
<tbody>
<tr>
<td>We are seeking the All-American Road designation and are certain our primary Intrinsic Qualities have national significance and best represent the nation.</td>
<td>Notes and documentation we'll need to demonstrate national significance:</td>
</tr>
<tr>
<td><strong>Policy requires:</strong> In order to be designated as an All-American Road, the road or highway should meet the criteria for at least two of the intrinsic qualities. The road or highway should also be considered a destination unto itself. To be recognized as such, it should provide an exceptional traveling experience that is so recognized by travelers that they would make a drive along the highway a primary reason for their trip. The characteristics associated with the intrinsic qualities are those which best represent the nation and which may contain one-of-a-kind features that do not exist elsewhere. The significance of the features contributing to the distinctive characteristics of the corridor’s intrinsic quality are recognized nationally.</td>
<td></td>
</tr>
<tr>
<td>For our All-American Road nomination, our primary Intrinsic Qualities represent one-of-a-kind features that do not exist elsewhere.</td>
<td>Notes and documentation for one-of-a-kind features that do not exist elsewhere:</td>
</tr>
<tr>
<td>The characteristics associated with the intrinsic qualities are those which best represent the nation and which may contain one-of-a-kind features that do not exist elsewhere. The significance of the features contributing to the distinctive characteristics of the corridor’s intrinsic quality are recognized nationally.</td>
<td></td>
</tr>
<tr>
<td>For our All-American Road nomination, we can clearly demonstrate that this road meets the policy criteria to be a “destination unto itself”. The policy states, “To be recognized as such, it should provide an exceptional traveling experience that is so recognized by travelers that they would make a drive along the highway a primary reason for their trip.”</td>
<td>Notes and documentation we will need to establish the fact our road is a “destination unto itself”:</td>
</tr>
</tbody>
</table>
### Accommodation of Tour Buses

To be considered for the All-American Roads designation, roads or highways should safely accommodate conventional tour buses.

- Verification:
  - Documentation that this road can accommodate tour buses is available.

- Documentation Locations (CMP or other sources):
  - Documentation available in following sources:

- Notes or Observations:
  - Notes or information we have or need to collect to document tour bus accommodation:

### CMP Implementation

For All-American Roads, there should be a demonstration of the extent to which enforcement mechanisms are being implemented by communities along the highway in accordance with the corridor management plan.

- Verification:
  - Our CMP has been adopted.
  - Accountability and evaluation methods are in place and documented to assure effective and timely implementation.

- Documentation Locations (CMP or other sources):
  - Documentation available in following sources:
  - Responsibility for implementation of the CMP has been assigned and documentation is available in following sources:

- Notes or Observations:
  - Information sources to document implementation and examples of demonstrating how implementation has occurred:

### User Facilities

Before a road or highway is nominated for designation as an All-American Road, user facilities (e.g. overlooks, food services, etc.) should be available for travelers.

- Verification:
  - Route includes appropriate user facilities.
  - Facilities have been inventoried and documented.

- Documentation Locations (CMP or other sources):
  - Documentation available in following sources:

- Notes or Observations:
  - Notes or information we have or need to collect to document availability of user facilities:

### Promotion, Interpretation, Marketing

A narrative on how the All-American Road would be promoted, interpreted, and marketed in order to attract travelers, especially those from other countries. The agencies responsible for these activities should be identified.

- Verification:
  - Agencies responsible for promotion, interpretation and marketing have been identified.
  - Those agencies have been notified regarding an AAR nomination and as appropriate, have been included in byway planning.
  - Planning documents clearly document current and future promotional, interpretation and marketing activities, including those activities directed internationally.

- Documentation Locations (CMP or other sources):
  - Locations where we discuss these issues and existing examples include:
  - Information and brochures available for international travelers. Brochures in several languages.

- Notes or Observations:
  - Notes or information we have or need to collect to document our ideas for promotion, interpretation and marketing:
