*Project 1: Puerto Rico Sustainability Workshop Series;
A Hands-on Workshop Series on LCAs and EPDs*
Project 2: Puerto Rico LCA and EPD Development Plan

Project Goals:

Project 1: Provide Puerto Rico with the technical knowledge / tools needed to understand and apply the concepts related to LCA, EPD, and PCR.

Project 2: Provide an initial evaluation of possible alternatives for PRHTA to start implementing LCA and EPD related efforts to quantify the environmental impacts through the pavement design, and material selection.

Project Scopes:

- **Project 1:** A series of workshops tailored to Puerto Rico to offer the participants learning knowledge regarding sustainable pavements, including LCAs, EPDs, and PCRs. ✓
- **Project 2:** Develop a plan tailor to PRHTA that considers their needs and challenges to lay a reasonable developmental plan for PRHTA to move into implementation as part of the program and project delivery process.
