**Registration** Please register online using this link: [LTAP Online Registration Link](#)

Fill in your information, and "Submit." You will receive an email when your registration is processed. If you do not receive an email within a day or two, you may not be registered and should contact us.

### Target Audience

This training is ideal for roadway construction and maintenance teams, specifically the highway workers and inspectors involved in the placement of pavement preservation treatments. Design Engineers will also benefit from the associated training.

### Course Description

This workshop covers integrating pavement management, and selecting pavements for preventive maintenance. Topics include identifying the components and value of a Pavement Preservation program, identifying conditions and other attributes for preservation, strategies, techniques and materials, and more.

**Instructors** Jason Dietz, Jason Lampley, and Scott Metcalf  
FHWA Pavement and Materials Engineers
