Digital Construction Inspection - Lessons Learned on Automated Machine Guidance (AMG) Projects

May 16th, 2-3:30 pm EST

Presentations by New York and Oregon DOTs and leading AMG contractors.

Objectives of the Webinar:

- Understanding how contractors use design data provided by DOTs

- Addressing design revisions during construction

- Validating existing conditions

- Creating specifications for effective use of AMG

- Determining necessary training for inspectors

- Understanding how the inspection process is different on a digital jobsite
