

Value Capture: Special Assessment Techniques & Case Studies

July 24th, 2019

1:00 pm – 2:30 pm (EDT)

As the Federal funding for surface transportation has declined or is diminished, our infrastructure assets have reached the end of their useful lives. Adding to complexity is the state and local pressure to fund emerging needs such as “Smart City” initiatives to leverage new technologies and the complete street initiative to ensure safety to all mobility modes (walk, bike, scooter, street car, automobile, etc.). The need for transportation improvements has far outpaced the available funding sources. Think about the Value Capture Special Assessment Technique!! Special Assessments can serve as gap funding for public road improvement projects. The technique can also be used to leverage federal and state grants, attract private capital, provide access to federal low interest rate loans, and can seed funding to get the project off the ground.

One of the popular techniques is a special assessment district and every state offers at least one type of Special Assessment funding & financing to its communities. It is a proven, effective technique for funding improvements that directly benefits property owners and enhances property values in the special assessment district.

Do you need funding for your city, county, and township? Do you know which revenue tools are available to fund improved services and capital expenditures in your community? Do you need infrastructure to accommodate your communities’ anticipated growth? Do you need assistance in implementing Special Assessment Techniques? Come to the Value Capture Webinar on July 24th, 2019 to learn how Value Capture Special Assessment techniques can help your community.

TARGET AUDIENCE: Metropolitan and Rural Planning/Programming Organization, States, Cities, Counties, Townships, and Tribal Transportation Professionals. Anyone involved in development or administration of the Value Capture Program Elements.

WEBINAR TOPIC & REGISTRATION LINK	DATE	TIME
Value Capture: Special Assessment Techniques and Case Studies https://collaboration.fhwa.dot.gov/dot/fhwa/WC/SitePages/Register.aspx?WCID=2038	July 24, 2019	1:00 pm - 2:30 pm EDT

Below are the instructions for non-DOT attendees and Federal DOT staff and DOT-badged contractors:

Registration Process for Non-DOT Attendees

1. non-DOT users including State DOTs must request access to the FHWA External Portal for webinars
 - Here is the link to request an account: <https://collaboration.fhwa.dot.gov/FBA/Register.aspx>. Step-by step instructions on how to request an account can be found here: <https://connectdot.connectsolutions.com/espnon-dotstaff/>
2. non-DOT users including State DOTs must login using the email address used to request access to the site and their requested password.
 - The account issuance takes approximately one business day. Once they receive their account information, they can access the site by clicking on the registration link and logging in.

Registration Process for Federal DOT Staff and DOT-badged Attendees

Federal DOT staff do not need to register for an account. However, please register for each and every webinar you, and others, anticipate attending. A head count for the number of phone lines is important for us to know. You can register as individuals or as a group, as long as there is one phone line used. Use the link provided that is unique and distinct for each session of the airings.

There is no cost to participate in these Webinars and they are open to everyone who is interested. Each Webinar will last 90 minutes with 60 minutes allocated for presentations and 30 minutes for audience Q&As. Through the use of Web conferencing technology, participants can view the speakers' presentations on their computer and hear the audio portion of the presentations either via the computer or telephone, depending on preference.

We look forward to your participation and hope you find these webinars beneficial to your agencies and professional needs! If you have questions, please contact Thay Bishop at (404)562-3695 or Thay.Bishop@dot.gov.
