

# INNOVATION EXCHANGE

Conversations Launching Change

Discussions targeted to Local Agencies, Tribes  
and Federal Land Management Agencies programs

## *We can't get there because we can't afford it....*

Local governments often struggle to mobilize the necessary funds to maintain, rebuild and expand their local transportation networks. Planned projects often face funding or financing hurdles that may result in projects being delayed for years, if not indefinitely, leaving important safety and mobility objectives unmet.

Value capture refers to a set of techniques that take advantage of increases in property values linked to infrastructure investments to help fund current or future improvements. Under the right circumstances, this may allow practitioners to help close funding gaps and accelerate project delivery, as well as other real estate-related benefits.

## *Are you ready to look at opportunities to augment your funding?*

Then sign up to participate in the upcoming webinar and to discuss opportunities to see from another point of view.

**Please join us!**

## *EDC 5 Value Capture: Capitalizing on the Value Created by Transportation*

**August 8 - 1:00 pm– 2:30 pm EST**

To join the webinar, participants **must register** to participate in the meeting room. Wherever possible, we encourage you to attend from a conference room where everyone can gather.
