

Value Capture: Incremental Growth Techniques & Case Studies

August 22nd, 2019

1:00 pm – 2:30 pm (EDT)

On August 22nd, 2019, the Federal Highway Administration EDC-5 Value Capture Innovation Team will hold its Value Capture: Incremental Growth Techniques and Case Study webinar. The webinar will feature experts who have successfully implemented Tax Allocation Districts and Transportation Reinvestment zones to share their experiences with case studies. Value Capture Incremental Growth Strategies enable the states and locals to invest in transportation infrastructure and other improvements and pay for them by capturing the future increase in property tax revenues generated from the new development. Lacking funding, communities across the nation are ill prepared to meet the crises of infrastructure investment such as deteriorating infrastructure, rapid growth, urbanization, climate change, and many others. Value Capture incremental growth strategies can be a reliable and sustainable transportation gap funding tool. It also helps local governments in a variety of economic development goals, including job creation, growth in property values, and protection of the local tax base.

Is your state/local authority looking for new and innovative funding sources to help pay for urban, suburban, and rural public roads as well as spur economic development? Do you know which revenue tools are available to fund improved services and capital expenditures in your community? Do you need infrastructure to accommodate your communities' anticipated growth? Do you need assistance in implementing Incremental Growth Techniques? Come to the Value Capture Webinar on August 22nd, 2019 to learn how Value Capture Strategies can help your community.

TARGET AUDIENCE: Metropolitan and Rural Planning/Programming Organization, States, Cities, Counties, Townships, and Tribal Transportation Professionals. Anyone involved in development or administration of the Value Capture Program Elements.

WEBINAR TOPIC & REGISTRATION LINK	DATE	TIME
Value Capture: Incremental Growth Techniques and Case Studies https://collaboration.fhwa.dot.gov/dot/fhwa/WC/SitePages/Register.aspx?WCID=2039	August 22nd, 2019	1:00 pm - 2:30 pm EDT

Below are the instructions for non-DOT attendees and Federal DOT staff and DOT-badged contractors:

Registration Process for Non-DOT Attendees

1. non-DOT users including State DOTs must request access to the FHWA External Portal for webinars
 - Here is the link to request an account: <https://collaboration.fhwa.dot.gov/FBA/Register.aspx>. Step-by step instructions on how to request an account can be found here: <https://connectdot.connectsolutions.com/espsnon-dotstaff/>
2. non-DOT users including State DOTs must login using the email address used to request access to the site and their requested password.
 - The account issuance takes approximately one business day. Once they receive their account information, they can access the site by clicking on the registration link and logging in.

Registration Process for Federal DOT Staff and DOT-badged Attendees

Federal DOT staff do not need to register for an account. However, please register for each and every webinar you, and others, anticipate attending. A head count for the number of phone lines is important for us to know. You can register as individuals or as a group, as long as there is one phone line used. Use the link provided that is unique and distinct for each session of the airings.

There is no cost to participate in these Webinars and they are open to everyone who is interested. Each Webinar will last 90 minutes with 60 minutes allocated for presentations and 30 minutes for audience Q&As. Through the use of Web conferencing technology, participants can view the speakers' presentations on their computer and hear the audio portion of the presentations either via the computer or telephone, depending on preference.

We look forward to your participation and hope you find these webinars beneficial to your agencies and professional needs! If you have questions, please contact Thay Bishop at (404)562-3695 or Thay.Bishop@dot.gov.
