Contractor Representative	Starwalt	Kent	Executive Director	Tennessee Road Builders Association
Consultant Representative	Donoho	David	ACEC Representative	ACEC

## Background:

The initial challenge of the Every Day Counts (EDC) initiative was to accelerate the deployment of proven but not widely implemented innovative strategies and technologies that are aimed at shortening project delivery and enhancing project performance. EDC is about pursuing better, faster, and smarter ways of doing business. The STIC will serve as forum for considering the rapid deployment of other innovative strategies and technologies in the future.

## Team Member Responsibilities:

Provide input on the initiatives to be pursued, appoint agency and industry representatives to the implementation teams, and establish performance goals to measure success. Render STIC decisions by the consensus of all participating members subject to the concurrence of the TDOT and FHWA co-team leaders.

## Approach:

The STIC will meet on a quarterly basis.

## Resources:

Funding for travel for the STIC and the implementation teams may be available from FHWA.

## Time Frames:

The STIC will be an on-going team and will only be disbanded upon agreement of the two co-team leaders.
