After 10 extensions, a 27-month bill

- SAFETEA-LU expired on 9/30/09
- 10 extensions (final one from 7/1/12 - 7/6/12)
- Strong bipartisan vote for 27-month transportation bill
  - Passed 373-52 in the House
  - Passed 74-19 in the Senate
- Also includes major non-transportation provisions, e.g.,
  - Extension of 3.4% interest rates for student loans
  - Reauthorization of flood insurance program
MAP-21 themes

- Strengthens America’s highway and public transportation systems
- Creates jobs and supports economic growth
- Supports the Department’s aggressive safety agenda
- Simplifies and focuses the Federal program
- Accelerates project delivery and promotes innovation
- Establishes a performance-based Federal program
Stable funding

- Program authorized through FY14
  - Current law through end of FY12
  - Most new provisions go into effect on October 1st

- Avg. annual funding at FY12 levels (plus minor inflation)

- Extends Highway Trust Fund taxes and ensures 2 years of solvency for Highway Trust Fund (HTF)

- Substantial programmatic consolidation
  - No earmarks
  - Most discretionary programs eliminated
Apportioned programs
## Program structure

<table>
<thead>
<tr>
<th>MAP-21</th>
<th>Current Law</th>
</tr>
</thead>
<tbody>
<tr>
<td>National Highway Performance Program (NHPP)</td>
<td>NHS, IM, &amp; Bridge (portion)</td>
</tr>
<tr>
<td>Surface Transportation Program (STP)</td>
<td>STP &amp; Bridge (portion)</td>
</tr>
<tr>
<td>Congestion Mitigation &amp; Air Quality Improvement Program (CMAQ)</td>
<td>CMAQ</td>
</tr>
<tr>
<td>Highway Safety Improvement Program (HSIP)</td>
<td>HSIP (incl. High Risk Rural Roads)</td>
</tr>
<tr>
<td>Railway-Highway Grade Crossing <em>(takedown from HSIP)</em></td>
<td>Railway Highway Grade Crossing</td>
</tr>
<tr>
<td>Metropolitan Planning</td>
<td>Metropolitan Planning</td>
</tr>
<tr>
<td>Transportation Alternatives <em>(setaside from NHPP, STP, HSIP, CMAQ, and Metro Planning)</em></td>
<td>TE, Recreational Trails, and Safe Routes to School</td>
</tr>
</tbody>
</table>
A new approach to formulas

1. Authorize lump sum for all apportioned programs
2. Calculate total amount to apportion to each State
3. Divide State lump sum among programs
Division of a State’s apportionment among programs

**CMAQ**
State’s lump sum multiplied by...

State’s FY09 CMAQ

---

**Metro Planning**
State’s lump sum multiplied by...

State’s FY09 Metro Planning

---

**Remainder**
(net of CMAQ, Metro Planning) divided among...

- NHPP (63.7%)
- STP (29.3%)
- HSIP (7.0%)

...and then set asides for Rail-Highway Grade Crossings and the Transportation Alternatives program.
$37.7 billion/year in formula funding

- Surface Transportation Program ($10.0)
- National Highway Performance Program ($21.8)
- HSIP ($2.2)
- Railway-Highway Crossing ($0.2)
- CMAQ ($2.2)
- Transportation Alternatives ($0.8)
- Metro Planning ($0.3)

Note: Amounts in $ billions; individual program amounts do not add exactly to total due to rounding
National Highway Performance Program ($21.8B)

- Funds an enhanced National Highway System, combining functions of the existing NHS, IM and Bridge Programs
- Enhanced NHS includes existing NHS, all principal arterials, STRAHNET, and intermodal connectors
- Requires an asset management plan
- States set targets for conditions and performance
- Min. standards for Interstate & bridge conditions in a State
  - DOT to set minimum standard for Interstate pavement condition
  - Law sets standard for NHS bridges -- no more than 10% of deck area may be structurally deficient
Surface Transportation Program ($10.0B)

- Continued flexible funding for Federal-aid highways, plus safety and bridges on any public road

- Eligibility for transportation enhancements, rec trails, ferry boats, consolidated border infrastructure program, truck parking facilities, and safe routes to schools (no set-aside)

- 50% of funds subject to suballocation based on population

- Rural provisions enhanced
  - Rural planning organizations, if any, must be consulted
  - Up to 15% of rural suballocation may be spent on minor collectors
Highway Safety Improvement Program ($2.4B)

- Dramatically increases size of existing program
- Maintains current structure; adds requirement for regular update of the strategic highway safety plan
- Keeps set aside ($220M/year) for rail-highway grade crossings
- No high risk rural roads set aside unless safety statistics worsen
- Secretary to establish measures and States to set targets for number of injuries and fatalities (and number per VMT)
- Strengthens link between HSIP and NHTSA programs
Congestion Mitigation & Air Quality Improvement Program ($2.2B)

- Continues the current program with changes
- Performance plans for large TMAs (to include air quality and congestion measures)
- States with PM 2.5 areas must use a portion of their funds to reduce PM 2.5
- Some expanded authority to use funds for transit operations
- Explicit support for installation of facilities serving electric or natural gas-fueled vehicles
- CMAQ outcomes assessment study required
Transportation Alternatives (TA) ($814M)

- Incorporates eligibilities from many current programs
  - Most (but not all) formerly TE-eligible activities
  - Recreational trails program
  - Safe Routes to Schools program
  - Planning, designing, or constructing roadways within the ROW of former Interstate or other divided highways

- Similar funding level to TEs under SAFETEA-LU
  - Total TA $ equal to 2% of MAP-21 highway funding
  - Funded via takedown from each State’s formula funds
  - 50% suballocated for more local control
  - 50% State allocation can be transferred to other formula programs
Other programs/key provisions
Federal Lands & Tribal Transportation

Generally followed Administration’s proposed structure:

<table>
<thead>
<tr>
<th>Program</th>
<th>Annual $</th>
</tr>
</thead>
<tbody>
<tr>
<td>Federal Lands Transportation Program (with new partners)</td>
<td>$300 million</td>
</tr>
<tr>
<td>Federal Lands Access Program</td>
<td>$250 million</td>
</tr>
<tr>
<td>Tribal Transportation Program</td>
<td>$450 million</td>
</tr>
<tr>
<td>(new formula for distribution among tribes)</td>
<td></td>
</tr>
</tbody>
</table>
Federal Lands Transportation Program ($300M)

- For projects that improve access within the Federal estate (e.g., national forests, national recreation areas) on infrastructure owned by the Federal government.
- Combines Park Roads & Refuge Roads programs; adds new partners—Forest Service, BLM & Corps of Engineers.
- Some funds reserved for National Park Service & Fish and Wildlife Service roads; remainder awarded competitively.
Federal Lands Access Program ($250M)

- For projects that improve access to the Federal estate on infrastructure owned by States and local governments

- Distributed by formula based on
  - Recreational visitation
  - Federal land area
  - Federal public road mileage
  - Federal public bridges

- 80% of funds go to States with ≥1.5% of total public land

- Each State’s programming decisions made by committee

- Requirement for local match
Tribal Transportation Program ($450M)

- For projects improving access to and within Tribal lands
- New statutory formula for distribution among tribes (to be phased in)
- Various set-asides
  - Up to 6% for BIA and FHWA project management & oversight expenses
  - Up to 2% for transportation planning
  - Up to 2% for priority program for improving deficient Tribal program-eligible bridges
  - Up to 2% for safety projects on Tribal lands
  - Tribal supplemental funding
TIFIA

- Lending capacity expanded – up to $17 billion in credit assistance over 2 years

- Notice of Funding Availability released July 27, 2012

- Program reforms
  - Letters of Interest / applications accepted throughout the year
  - Allows TIFIA participation for up to 49% of eligible project costs
  - Master credit agreement for programs of projects (secured by a common pledge) or phased single projects
  - Allows up to 10% to be set aside for rural projects; for these projects, increased eligibility and lower interest rates
Tolling/pricing provisions

- Expands Section 129 (general toll program)
  - Mainstreams tolling/pricing of new capacity, including Interstate (but generally requires current level of free capacity to remain unchanged)
  - Removes requirement for USDOT/State toll agreements

- Extends Section 166 (HOV to HOT conversions)
  - Removes requirement for USDOT/State toll agreements

- Extends Value Pricing Pilot Program (congestion pricing) – but without discretionaryary grants

- Extends Interstate System Reconstruction and Rehabilitation Pilot Program (allows tolling of all lanes)

- Requires toll interoperability on Fed-aid highways within 4 years
Emergency Relief Program

- Authorized at $100 million per year
- State must apply and provide a complete list of project sites and costs within 2 years of event
- May not exceed cost to repair/reconstruct comparable facility
- Emergency repairs—
  - Option for Secretary to extend the 180-day limit on emergency repairs at 100% when access to damaged areas is limited
  - For permanent repairs, up to 90% share if cost ≥ State’s annual apportionments
- Debris removal from Stafford Act disasters funded by FEMA
- Maintenance/operation of additional ferryboats or transit eligible as substitute service
Projects of Natl. & Regional Significance ($500M in FY13 only)

- Aimed at critical high-cost capital projects

- Maintains most SAFETEA-LU PNRS language
  - Title 23-eligible projects, including freight railroad projects & activities
  - Competitive grants to States, tribes, & transit agencies
  - No designated projects (vs. fully earmarked under SAFETEA-LU)

- $ from General Fund; must be appropriated

- Report that identifies and analyzes a comprehensive list of PNRS compiled via a survey of States
Freight provisions

• National Freight Policy
  • Establishment of National Freight Network, incl. Primary Freight Network, remainder of Interstate System, and critical rural freight corridors
  • National freight strategic plan
  • Freight transportation conditions and performance reports
  • Development of transportation investment data and planning tools

• Prioritization of projects to improve freight movement
  • For these projects, increases Federal share payable to 95% on the Interstate System and 90% elsewhere
  • USDOT must certify project improves efficiency of freight movement
  • Project must be identified in a State freight plan

• State freight advisory committees & freight plans encouraged; plan required to qualify for increased Federal share
## Research, Technology Deployment, Training & Education

<table>
<thead>
<tr>
<th>Program</th>
<th>Annual $</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highway Research &amp; Development</td>
<td>$115.0 million</td>
</tr>
<tr>
<td>Technology &amp; Innovation Deployment</td>
<td>$62.5 million</td>
</tr>
<tr>
<td>Training &amp; Education</td>
<td>$24.0 million</td>
</tr>
<tr>
<td>ITS Program</td>
<td>$100.0 million</td>
</tr>
<tr>
<td>University Transportation Centers</td>
<td>$72.5 million</td>
</tr>
<tr>
<td>Bureau of Transportation Statistics</td>
<td>$26.0 million</td>
</tr>
<tr>
<td>SHRP 2 implementation (funded as setaside of State Planning and Research funds)</td>
<td>TBD</td>
</tr>
</tbody>
</table>
Research, Technology Deployment, Training & Education

- Funding is almost earmark free ($12M for pavement)
- State planning and research (SPR) funded by 2% set-aside from NHPP, STP, CMAQ and HSIP
- SHRP-2 to be funded from SPR funds; 75% of States must agree to a percentage of funds for this use
- Centers of Excellence funded by Training & Education $
- International “Outreach” Program repealed; international research & collaboration built into core R&D program
Performance & planning
Performance management

- MAP-21 identifies national goal areas
- USDOT establishes measures, with input
- States set targets
- State & metro plans describe how the organization will use program and project selection to help achieve targets
- States report to USDOT on progress toward targets (within 4 yr of enactment; biennially thereafter)
- Reports typically lead to corrective actions (not sanctions)
- Consequences if condition of NHS falls below thresholds
Transportation planning

- Metropolitan planning
  - Population thresholds for MPOs and TMAs unchanged
  - MPOs to establish performance targets
  - Long range plan incorporates other performance plans
  - TIP to be updated at least every 4 yr
  - MPO serving a TMA selects all projects except those on NHS, which are selected by State with MPO cooperation

- Statewide & nonmetropolitan planning
  - Transition to performance-based, outcome-driven planning process, with State setting performance targets
  - Long range plan includes report on conditions & performance of system relative to established performance measures
  - Long range plan incorporates other performance plans
Project delivery
Accelerating project delivery

- Any State can choose to assume specific CE designations in FHWA NEPA regulations
- Use of construction manager/general contractor (CMGC) method of contracting
- Accelerated completion of complex projects (4 yr) when State requests technical assistance
- Demonstration project for lump sum payments for purchase of ROW
- Increased Federal share for some innovative techniques
Accelerating the environmental process

- Environmental review process streamlining
  - FEIS and ROD combined in certain conditions
  - Allows for the use of planning products in the NEPA process
  - Deadlines for issue resolution, with penalties for agencies
  - Programmatic mitigation plans
  - Reduced statute of limitations on claims (150 days, not 180)

- Expanded authority for categorical exclusions
  - Multi-modal projects
  - Projects to repair roads damaged in declared emergency
  - Projects within existing operational right-of-way
  - Projects receiving limited Federal assistance
Other provisions
Workforce & DBE

- Continues current law goals for use of small business concerns owned and controlled by socially and economically disadvantaged individuals

- Continues on-the-Job & DBE Supportive Services programs
  - Each authorized at $10M per year
  - No changes to program administration

- Continues States’ ability to use formula funds for surface transportation workforce development, training, & education
Appalachian development highways

- No dedicated funding, but eligible under STP and NHPP as appropriate

- ADHS routes eligible for 100% federal share –
  - if funded with FY12 or prior year ADHS funds or funds earmarked for an ADHS route; or
  - under all formula programs in FY12 and subsequent years

- State plans for completing designated ADHS corridors
  - Submitted by October 1, 2013
  - Must include annual targets and completion date
Other provisions

- Continued funding for territorial ($40 million) and Puerto Rico ($150 million) highways
- Newly-formularized ferry program
- States may approve overweight permits for divisible loads during major Stafford Act disasters
- Truck size and weight—no changes, but requires a new study and inventory of current state laws
- Electric vehicle charging infrastructure in new or previously funded fringe and corridor parking facilities may be funded on otherwise eligible facilities
Other provisions

- Revised bridge inspection rules (+ tunnel inspections)
- Uniform Relocation Act payment levels updated and may be updated in future through regulation
- Secretary **may delegate approval of Interstate [access]** justifications to State
- Under revised Buy America, any federal funds on contract cause application to entire project
- Higher threshold for value engineering requirements; not required off NHS, or for design-build
- State may allow **limited** commercial activity in Interstate rest areas; commercial activities may be privately operated
