

HIGHWAY FINANCE

The tables in this section show highway receipts, disbursements, debt status, and other financial information of Federal, State, and local governments. Federal and State highway finance data are for 1993. Highway finance data for local governments are for 1992.

COMBINED FINANCES

The first tables in this section give combined summaries of highway finances for all levels of government. The summary tables are followed by specialized tables showing Federal, State, and local government data separately. While intergovernmental transfers have been eliminated from the summary tables, the specialized tables are not additive without appropriate adjustments for intergovernmental payments. For example, Federal payments to States for highways are reported as an expenditure on the Federal tables, while the States' expenditure of those funds are reported as expenditures on the State finance tables.

Table HF-10 combines, for all levels of government, receipts and disbursements for highways (with local government data and some Federal data estimated). Table HF-10 also includes information on gross collections and disposition of highway-user revenue and identifies intergovernmental payments by level of government. Table HF-10a revises table HF-10 as published in *Highway Statistics, 1992*. Table HDF presents total collections of highway-user imposts and distribution of highway-user revenue to highway and other purposes by State. Tables HF-1 and HF-2 eliminate intergovernmental payments and summarize total receipts and disbursements for highways by State in 1992, the latest year finance data for all levels of government are available. Table HB-2 summarizes the highway debt status of State and local governments.

FEDERAL FINANCING

The Federal-aid highway program is financed from the proceeds of motor-fuel and other highway-related excise taxes deposited in the Federal Highway Trust Fund (HTF). The Federal-aid highway program is a federally assisted, State-administered program which distributes Federal funds to the States for the construction and improvement of urban and rural highway systems. On Federal-aid highway projects, a State develops the plans, lets the contracts, and supervises the construction. The roads remain under the administrative control of the State or local government responsible for their operation and maintenance.

Evolution of the Federal-aid Program

Although Federal aid for highways began in the late 1800's, Federal assistance was not provided uniformly to all States with the purpose of developing an integrated network of highways until 1916. In 1921, Federal aid was restricted to a limited connected system of principal roads which became the Federal-aid Primary Highway System. Provision was made in 1944 for the designation of a Federal-aid Secondary System of principal farm-to-market and feeder roads. Also in 1944, for the first time, specific authorization of Federal-aid funds was made for urban extensions of the Primary System, and in 1954, for urban extensions of the Secondary System. In 1973, funding for a separate Urban System program was established. Part of the authorized funding was specifically earmarked for urbanized areas with a population of 200,000 or more.

The Eisenhower System of Interstate and Defense Highways, a dominant feature of the Federal-aid program, was identified in 1944; however, prior to 1956, only modest funds were provided. The Federal-aid Highway Act of 1956, as subsequently amended, provided funding on a 90-percent Federal, 10-percent State matching basis. Subsequent legislation has extended the Interstate authorizations.

In recent years, increased attention has been directed to the preservation and reconstruction of the Nation's highways and bridges. Although regular Federal-aid funds may be used by the States for the rehabilitation and replacement of deficient bridges, a special bridge rehabilitation and replacement program with separate authorizations began in 1970.

Beginning in 1976, a special category of Interstate funds was authorized specifically for resurfacing, restoration, and rehabilitation (3R) work. In 1981, the program was amended to include reconstruction (4R) and funding was substantially increased. Under the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), resurfacing, restoration and rehabilitation are funded under the Interstate Maintenance (IM) program. The Federal share of IM projects is 90 percent.

The ISTEA eliminated the Federal-aid Primary, Secondary, and Urban systems and created the National Highway System (NHS). When the NHS is designated by Congress (an interim designation is in use until that time), it will include the existing Interstate System routes, a large percentage of urban and rural principal arterials, the defense

strategic highway network, and strategic highway connectors.

The ISTEA also created a new flexible funding program, the Surface Transportation Program (STP), that can be used for roads and streets not functionally classified as local or rural minor collectors, for bridges on any public road, and for transit capital projects.

The Federal Highway Trust Fund

The Federal Highway Trust Fund (HTF) is the funding source for the Federal-aid highway program. The HTF was established by the Highway Revenue Act of 1956. Changes in the Federal excise tax structure have occurred periodically. Table FE-101 provides an historical summary of Federal excise tax rates, including rates currently in effect. Table FE-21 provides additional detail on the Federal motor-fuel taxes.

Effective April 1983, the Highway Revenue Act of 1982 created the Mass Transit Account within the Highway Trust Fund. The Act provided that the equivalent of one cent per gallon of the motor-fuel taxes would be deposited in the Mass Transit Account for transit system capital expenditures. Tables FE-101 and FE-21 trace the history of the taxes dedicated to the Mass Transit Account.

Tables in the FE series do not include Federal fuel tax revenue that are not deposited in the Highway Trust Fund. Such taxes include the levy dedicated to the Leaking Underground Storage Tank Trust Fund, which is administered by the Environmental Protection Agency, and the portion of fuel taxes dedicated to the reduction of the national debt. The receipts from gasoline consumed in motorboats are transferred from the Highway Trust Fund to the Aquatic Resources Trust Fund and the Land and Water Conservation Fund, which are administered by the U.S. Department of the Interior.

Federal Highway Trust Fund revenue are derived from various Federal excise taxes on highway users. The attribution of these revenues to highway users in each State is shown in table FE-9. Since these revenues cannot be directly related to payments by highway users in each State, the receipts attributable to highway users in each State are estimated by the FHWA based on highway fuel consumption.

Table FE-221 shows a comparison, by State, of HTF Highway Account receipts attributable to highway users and apportionments from the Fund. This table reflects a concerted effort to include all funds apportioned or allocated to the States from the Highway Account in the HTF. Table MF-27 shows the 1992 highway motor fuel gallonage used to attribute the 1993 HTF receipts to the States on table FE-221.

Federal Aid to State and Local Governments

The Federal-aid highway program is administered by the Federal Highway Administration (FHWA) as a grant-in-aid program. Most funds are apportioned to States in accordance with formulas that give weight to population, area, mileage, relative costs (needs), and the percent share of prior (FY 1987 to FY 1991) apportioned funds. Certain programs administered by the FHWA are funded from Federal general funds. Other Federal agencies may transfer funds to the FHWA to administer for highway improvement projects. Details of the Federal-aid funding process can be found in the FHWA publication, *Financing Federal-aid Highways*.

Annual appropriations of Federal-aid funds for the various programs are apportioned among the States using the formulas shown in table FA-4A. For most programs, these funds are matched by State or local governments on an 80 percent Federal share to a 20 percent State share basis. Amounts apportioned to the States pursuant to authorizations by Congress for a fiscal year are not to be confused with payments to the States for work completed. Although Federal-aid funds are apportioned by year, a grace period in expending the funds is permitted to allow the States time for orderly planning, budgeting, and execution of their highway programs.

State and local governments also receive funds for their highway activities from programs administered by other Federal agencies. Some Federal funds are distributed through State governments to local governments. Federal agencies direct work on highways represents only a small portion of Federal assistance to highways. The different Federal assistance programs for highways are summarized in table F-106 in the FHWA publication *Highway Taxes and Fees, How They Are Collected and Distributed*.

Payments to contractors for work on Federal-aid projects are initially made from State or local funds. The Federal share is reimbursed to the States as work progresses. The final reimbursement payment is made after completion of the project.

Most payments are reimbursements to the States. Some funds are expended directly by FHWA. Tables FA-3, FA-5, and FA-5A provide information on the expenditure of Federal funds. The FA-4 table series and table FA-6 provide information on the apportionment and obligation of Federal funds. Table FA-10 provides information on Federal-aid highway program accomplishments for Federal-aid projects initiated in fiscal year 1993.

Obligation of STP funds for projects off the NHS are included in the summary tables STP-1 and STP-1A. These tables are intended to show expected products or accomplishments to be achieved with this category of Federal-aid highway funds.

STATE FINANCING

The SF and SB table series show the highway finance activities and debt status of State highway agencies. Table SF-21 consolidates and summarizes all highway receipts and disbursements of the States. The remaining tables in the SF series provide further details and breakdowns of all highway receipts and disbursements of the States, including data on State toll facilities. The SB table series provides details of the highway debt transactions of the States.

The MT table series shows State mass transit activities. Tables MT-1A and MT-1B replace table SMT. The new tables show State funding for direct State mass transit activities and State grants-in-aid for mass transit. Additional tables show Federal Transit Administration (FTA) information on mass transit operators.

State aid to local governments

States provide assistance to the highway, road, and street programs of local governments primarily through the transfer or sharing of highway-user revenue. State aid is not limited to highway-user revenue. Many States transfer other State revenue, redistribute Federal funds, and perform work on local roads and streets.

For uniformity in the FHWA's analyses, all State-imposed taxes and fees on highway-users are considered to be collected and distributed by the States. The local governments' shares of State highway-user revenue, if any, are shown as intergovernmental payments from the State. Local governments may collect State motor-vehicle registration fees and retain their local share. The FHWA's analysis attributes the total highway-user revenue to the State and shows any amounts retained by local governments as transfers from the State.

In 1993, the statutes of 45 States provided for the sharing of State-collected highway-user tax revenue with local governments for road and street purposes. This assistance is in the form of direct grants-in-aid and shared revenue. Alaska, Georgia, New York, Rhode Island, and West Virginia did not have such a statute.

Some transactions that involve a transfer of funds from States to local governments are shown as direct State expenditures, rather than as intergovernmental payments. These transactions include: (1) amounts paid to local governments under contractual agreements for construction or maintenance work on the State highway system for the State highway agency; and (2) payments on local debt

obligations assumed by the State as reimbursement for the cost of local roads added to the State highway systems.

Numerous other State transactions or activities benefiting local governments do not involve a transfer of funds and are not treated as intergovernmental payments. These transactions include: (1) advisory, consulting, and supervisory services, engineering assistance, and aid-in-kind (e.g., free provision of road materials or loans of equipment); (2) State assumption of the responsibility for construction and maintenance of former county roads or municipal streets; (3) direct State payments for materials or to contractors for the State's share of the cost of joint State-local projects on local road systems; and (4) direct work by the State on locally controlled roads and streets.

LOCAL FINANCING

The highway finance activities of local governments are shown in the LGF table series. Debt status for local governments is given in table LGB-2. Table LGF-21 consolidates and summarizes all highway receipts and disbursements of local governments. Some States use sampling to develop highway finance data for local governments.

Local government transfers to State

Receipts and disbursements on Federal-aid projects are usually considered transactions of the State. However, local funds may be expended on such projects. When local governments provide the matching share and the State administers the project, the payments to the State are considered to be intergovernmental transfers.

In some States, a portion of the local share of State tax revenue is not paid directly to local governments. The revenue is retained by the State to match Federal funds for locally controlled road and street projects, or to reimburse the State for work performed at the request of the local government. When the State retains such tax revenue, the transactions do not appear as intergovernmental payments in the State or local finance series of tables.

CLASSIFICATION OF HIGHWAY RECEIPTS

Highway receipts include highway-user revenue and all other receipts expended for highway purposes, regardless of source. Tables HDF, DF, MF-3, MV-3, and LDF show the total of highway-user revenue from motor-fuel and motor-vehicle taxation regardless of their use for highway or nonhighway purposes.

Funds attributable to highway users

Highway-user revenue are taxes and fees levied on the owners and operators of motor vehicles for their use of public highways. These imposts include: motor-fuel taxes, registration fees; driver license fees; weight-distance taxes; titling taxes; and tolls. Fines and penalties for registration violations and vehicle size and weight violations are also included as highway-user revenue.

Regional gasoline taxes are considered to be local highway-user taxes until levied uniformly throughout the State.

In general, the revenue from highway-user taxes is derived from taxes imposed for the use of the highways, but small amounts are actually derived from off-highway use. Some States distribute revenue from off-highway use to off-highway programs. Some States exempt or refund the tax for Federal and other public use, for transit bus operations, and, in at least one State, for fuel consumed on toll roads.

Tables HDF, DF, MF-3, MV-3 and LDF show the disposition of highway-user revenue. These tables include funds allocated for collection expenses, nonhighway purposes, and mass transit programs.

Most States have legislatively provided for the allocation of highway-user revenue to highway purposes. When revenue are not dedicated to specific purposes and are mixed with other revenue, it is impossible to precisely identify how revenue from particular sources are used. For those States, the revenue are proportionally assigned from motor-fuel and motor-vehicle derived highway-user revenue to highway expenditures.

Some States allocate highway-user revenue to the State general fund and appropriate general funds to highway purposes. Since revenue deposited into general funds lose their identity, highway-user revenue are considered to be expended for highway purposes before unspecified general funds are appropriated for highway activities. In the FHWA analyses, general fund appropriations have been offset, to the extent possible, against the allocations of highway-user revenue for nonhighway funds or purposes. Table DF presents information on the general fund offset used in allocating State highway-user revenue. Since collection expenses are considered a cost to produce highway-user revenue, highway-user revenue are substituted for general funds that were appropriated for collection expenses.

Table MF-106 provides the legislative or administrative provisions for allocating State motor-fuel taxes. Table MV-106 provides similar information for State motor-vehicle registration fees, driver-license fees, and motor-carrier taxes. These tables are published in the FHWA

publication, *Highway Taxes and Fees, How They Are Collected and Distributed*.

Other taxes and fees

Not all taxes paid by highway users are classified as highway-user revenue. Sales and use taxes, gross receipts taxes, and ad valorem property taxes are not considered highway-user imposts when such taxes are a part of general tax structures and are applied to a variety of commodities, operations, and commercial activities that are not related to highways. Although parking revenue are closely related to tolls, they are not considered highway-user revenue.

Special assessments and property taxes are used by local governments to finance local road and street programs. Special assessments and property taxes are usually commingled with other local revenue in a general fund from which appropriations are made for highways and other purposes. All, or portions, of the proceeds of many other State and local taxes, such as oil royalties, severance taxes on natural resources, and sales and use taxes, are allocated or drawn on for highways. Miscellaneous State taxes, fees, and appropriations that are specifically allocated for highways are shown in table S-106 of the FHWA publication, *Highway Taxes and Fees, How They Are Collected and Distributed*.

Investment income and miscellaneous receipts

By investing surplus or unused highway funds, many highway agencies are able to realize interest income or profit on the purchase and sale of securities. Other miscellaneous income includes: rentals; private donations (including cash contributions and transfers of real property); and permit fees.

Income from sale of bonds and notes

Short-term note issues (a maturity of 2 years or less) have been omitted from all revenue and expenditure tables. Although local governments use short-term debt financing frequently, short-term note issues and redemptions are only included in table LGB-2 for the local finance (LGF) table series. Note interest payments for short-term debt are included in the highway finance summary tables.

Tables that give details of State obligations (SB table series) and local obligations (table LGB-2) have been included. Some bond issues combine borrowing for more than one purpose. The highway share of combined debt in the tables may be estimated.

Additional tables present detailed information included in tables SB-2 and SB-3 on State bonds issued for toll facilities, tables SB-2T and SB-3T, and State issues for local

roads and streets, tables SB-2L and SB-3L. For local obligations, table LGB-2T presents information on local toll facility issues included in table LGB-2.

CLASSIFICATION OF HIGHWAY EXPENDITURES

Expenditures for highways have been grouped into the following major classes: capital outlay; maintenance, highway and traffic services; administration; highway law enforcement and safety; debt service; and intergovernmental payments.

Capital outlays are those costs associated with highway improvements, including: land acquisition and other right-of-way costs; preliminary and construction engineering; construction and reconstruction; resurfacing, rehabilitation, and restoration costs of roadway and structure; and installation of traffic service facilities such as guard rails, fencing, signs, and signals. Maintenance costs are those required to keep highways in usable condition.

Highway and traffic services costs are those associated with the operation and management of highways. These costs

are classified into three types: (1) traffic control operations including expenditures for operating traffic control and surveillance systems for monitoring and controlling traffic flow, (2) the cost of snow and ice removal, and (3) miscellaneous costs for highway beautification, litter control, vegetation management, erosion control, and air quality programs.

Administration costs are the general expenses of administering a State or local highway program, including general overhead, engineering, and research costs that are not assignable to specific road projects. They also include: expenses associated with highway planning and research, highway litigation, and highway publications.

Highway law enforcement and safety expenditures are categorized as: traffic supervision activities of State highway patrols; programs for driver education and training and motorcycle safety; vehicle inspection programs; and enforcement of vehicle size and weight limitations. General police expenses associated with drug interdiction, criminal investigation, and security activities are excluded from the tables.

¹ This table summarizes data reported in greater detail in the FA, SF, SB, LGF, and LGB table series. Some data are preliminary. Table HF-10A contains final data for all units of government for 1992.

² Includes the Mass Transit Account of the Highway Trust Fund. Also includes Federal Highway Administration activities funded by general funds and all other agencies and funds that make appropriations for highways or that receive highway-user revenues. See Table FA-5 for additional information.

³ Data for local governments are estimated.

⁴ Represents gross receipts less refunds and loss allowances.

⁵ Federal column amount represents net collections less transfers to the Highway and Mass Transit Accounts of the Highway Trust Fund. Due to timing differences between collections and transfers to the Highway Trust Fund, the amount will not correspond exactly to distributions for deficit reduction and for the Leaking Underground Storage Tank Fund.

⁶ Includes only those collection and administrative costs paid from motor-fuel and motor-vehicle tax receipts. Operational costs of toll facilities are reported as traffic services. Federal collection expenses are excluded since they are paid for by the General Fund. Local expenses are excluded, because local motor-fuel and motor-vehicle tax data are reported net of collection expenses.

⁷ Amounts shown represent Federal payments to territories, and Federal expenditures in territories for highways and mass transit. Territories' funding for highways are excluded from the highway finance table series. See Tables TER-1 and PR-1 for details on territories.

⁸ Proceeds and redemptions of short-term notes and refunding issues are excluded.

⁹ Negative numbers indicate that funds were placed in reserves.

¹ This table revises preliminary data in Table HF-10 in last year's "Highway Statistics".² Includes the Mass Transit Account of the Highway Trust Fund. Also includes Federal Highway Administration activities funded by general funds and all other agencies and funds that make appropriations for highways or that receive highway-user revenues. See Table FA-5 for additional information.³ Some local government data are estimated.⁴ Represents gross receipts less refunds and loss allowances.⁵ Federal column amount represents net collections less transfers to the highway and mass transit accounts of the Highway Trust Fund. Due to timing differences between collections and transfers to the Highway Trust Fund, the amount will not correspond exactly to distributions for deficit reduction and for the Leaking Underground Storage Tank Fund.⁶ Includes only those collection and administrative costs paid from motor-fuel and motor-vehicle tax receipts. Operational costs of toll facilities are reported as traffic services. Federal collection expenses are excluded since they are paid for by the General Fund. Local expenses are excluded, because local motor-fuel and motor-vehicle tax data are reported net of collection expenses.⁷ Amounts shown represent federal payments to territories, and federal expenditures in territories for highways and mass transit. Territories' funding for highways are excluded from the highway finance table series. See Tables TER-1 and PR-1 for details on territories.⁸ Proceeds and redemptions of short-term notes and refunding issues are excluded.⁹ Negative numbers indicate that funds were placed in reserves.¹⁰ Includes small amounts of engineering and equipment costs not charged to capital outlay and maintenance.

DISPOSITION OF RECEIPTS FROM HIGHWAY-USER IMPOSTS, INCLUDING TOLLS - 1992¹

¹ This table summarizes highway-user revenues and their disposition for all levels of government. See Table LDF for details on local imposts. See Table DF in last year's Highway Statistics for details on State fuel and vehicle taxes. Some State data have been revised.

² Total Federal motor-fuel and motor-vehicle receipts based on gross tax facilities and refunds reported by the U.S. Department of the Treasury. Payments attributable to highway users in each State are estimated by the Federal Highway Administration (FHWA).

³ Amounts shown for each State represent payments received from the Highway Trust Fund and direct work performed by FHWA and funded by the Highway Trust Fund. Excludes U.S. territories.

⁴ Amounts shown for each State are estimates of the payments received from the Highway Trust Fund's highway-user revenues for mass transportation, based on total payments less interest income and State's percentage of total obligations and allocations. Excludes U.S. territories.

⁵ Amounts shown represent total Federal Highway-user revenues collected in each State less amounts received by the State from the Highway Trust Fund for highways and mass transportation. The Federal government uses a portion of motor-fuel tax revenue for deficit reduction and for the Leaking Underground Storage Tank (LUST) Fund. States with negative numbers receive more from the Highway Trust Fund than the amount of collections attributable to those States. Total includes small amounts spent for highways and mass transit in U.S. territories.

⁶ Gross allocations of Highway-user revenues to State general funds were reduced by the amount of appropriations for highways from State general funds. See Table DF for details.

⁷ Amounts shown represent total Federal expenditures that can not be attributed to any single State and the net increase or decrease in the Highway and Mass Transit Accounts of the Highway Trust Fund. See Tables FA-SA and HF-10 for more details.

REVENUES USED FOR HIGHWAYS, ALL LEVELS OF GOVERNMENT - 1992¹

¹ See Tables FA-5A, SF-21, and UGF-21 for details on highway funding of Federal, State and Local Governments.² Excludes amounts allocated for collection expenses and nonhighway purposes. See Table HDF for information on gross highway-user revenue collections.³ Amounts shown reflect Highway Trust Fund revenues attributable to highway-user taxes that were expended for highways in each State. The total excludes amounts expended for highways in territories. See Table FE-9 for State-by-State attribution of Highway Trust Fund receipts.⁴ Includes interest earned on Highway Trust Fund reserves.⁵ Excludes short-term notes and refunding bond issues.

¹ Disbursements are classified by system on which expended, rather than by expending agencies, e.g., capital outlay on local rural roads includes expenditures from Federal, State and local funds. Data includes estimates. See Tables FA-5A, SF-21, and LGF-21 for details on highway disbursements by each level of government.

² See Tables FA-5A, SF-4C and LGF-2 for right-of-way costs.

³ Excludes short-term notes and refunding bond issues.

¹ This table summarizes the highway indebtedness status of all levels of government within each state, including toll authorities. See Tables SB-2 and LCB-2 for more details.

² Excludes obligations with terms of less than 2 years.

STATUS OF THE FEDERAL HIGHWAY TRUST FUND¹

FISCAL YEAR ENDED SEPTEMBER 30, 1993

TABLE FE-10
DECEMBER 1993

ITEM	HIGHWAYS	MASS TRANSIT ACCOUNT ²	TOTAL
I. Opening balance:	\$11,300,223,854.51	\$9,798,159,207.19	\$21,098,383,061.70
II. Receipts:			
A. Excise taxes (transferred General Fund receipts)			
1. Gasoline	10,711,687,600.00	1,537,330,000.00	12,249,017,600.00
2. Gasohol	416,409,000.00	131,634,000.00	548,043,000.00
3. Diesel	3,234,518,000.00	321,403,000.00	3,555,921,000.00
4. Special motor fuels	24,636,000.00	1,819,000.00	26,455,000.00
5. Tires	304,482,000.00	-	304,482,000.00
6. Trucks and trailers	1,199,291,000.00	-	1,199,291,000.00
7. Federal use tax	630,401,000.00	-	630,401,000.00
8. Fines and penalties	14,433,075.05	-	14,433,075.05
9. Total excise taxes	16,535,857,675.05	1,992,186,000.00	18,528,043,675.05
B. Deduct - reimbursement to General Fund receipts (refunds and tax credits)			
1. Diesel powered vehicle rebate	8,360,160.00	-	8,360,160.00
2. Diesel fuel used in buses	5,389,883.00	-	5,389,883.00
2. Diesel fuel-other	122,560,536.00	-	122,560,536.00
4. Special motor fuel	12,225,766.00	-	12,225,766.00
5. Gasohol	30,757,256.00	-	30,757,256.00
6. Gasoline used for aviation	3,807,827.00	-	3,807,827.00
7. Gasoline to make gasohol	3,512,430.00	-	3,512,430.00
8. Gasoline-other	95,287,005.00	-	95,287,005.00
9. Total	281,900,861.00	-	281,900,861.00
C. Transfers			
1. To Land and Water Conservation Fund	1,000,000.00	-	1,000,000.00
2. To Aquatic Resources Trust Fund	206,633,000.00	-	206,633,000.00
3. Total	207,633,000.00	-	207,633,000.00
D. Net excise taxes	16,046,323,814.05	1,992,186,000.00	18,038,509,814.05
E. Interest	817,492,845.98	742,501,725.00	1,559,994,570.98
F. Total receipts	16,863,816,660.03	2,734,687,725.00	19,598,504,385.03
III. Expenditures: (checks written basis)			
A. Federal Highway Administration			
1. Highways (Federal aid)	16,259,208,839.14	-	16,259,208,839.14
2. Right-of-way revolving fund	9,195,097.22	-	9,195,097.22
3. Highway related safety grants	111,590,879.80	-	111,590,879.80
4. Highway safety research and development	1,160,884.19	-	1,160,884.19
5. Trust Fund share other highway programs	7,641,796.67	-	7,641,796.67
6. Other	73,276,756.95	-	73,276,756.95
7. Total	16,462,074,253.97	-	16,462,074,253.97
B. Federal Transit Administration	-	1,915,661,561.18	1,915,661,561.18
C. National Highway Traffic Safety Administration	178,674,635.00	-	178,674,635.00
D. Total expenditures	16,640,748,888.97	1,915,661,561.18	18,556,410,450.15
IV. Balances in Trust Fund:			
A. Investments			
U. S. Treasury special certificates of indebtedness ³	11,475,010,000.00	10,529,365,000.00	22,004,375,000.00
B. Undisbursed balances			
1. Available for investment	709.86	828.99	1,538.85
2. Highways (Federal aid)	(15,244,637.48)	-	(15,244,637.48)
3. Right-of-way revolving fund	17,342,437.50	-	17,342,437.50
4. Highway related safety grants	14,038,942.81	-	14,038,942.81
5. Highway safety research and development	775,288.23	-	775,288.23
6. Trust Fund share other highway programs	514,291.06	-	514,291.06
7. Mass Transit Account	-	87,819,542.02	87,819,542.02
8. National Highway Traffic Safety Administration	23,165,724.68	-	23,165,724.68
9. Other	7,688,868.91	-	7,688,868.91
10. Total	48,281,625.57	87,820,371.01	136,101,996.58
C. Total balance	\$11,523,291,625.57	\$10,617,185,371.01	\$22,140,476,996.58

¹ The Fund was created June 29, 1956 with the enactment of the Highway Revenue Act of 1956.² The Mass Transit Account was established April 1, 1983 with enactment of the Surface Transportation Assistance Act of 1982.³ Certificates held September 30, 1993 for \$21,978,491,000 bore interest at 6.5 percent and \$25,884,000 bore interest at 6.375 percent.

FEDERAL HIGHWAY TRUST FUND STATUS

(EXCLUDES MASS TRANSIT ACCOUNT)

¹ Payments into the Fund include only the net tax receipts deposited in the Highway Account of the Federal Highway Trust Fund. Excluded are motor fuel taxes transferred to the Mass Transit Account of the Highway Trust Fund (1 cent per gallon from April 1, 1983 through November 30, 1990, 1.5 cents per gallon thereafter); the 0.1 cent per gallon tax dedicated to the Leaking Underground Storage Tank Trust Fund beginning January 1, 1987; and the tax designated for deficit reduction (2.5 cents per gallon from December 1, 1990 through September 30, 1993, 6.8 cents thereafter); and the tax from motorboat use of gasoline transferred to the Aquatic Resources Trust Fund and the Land and Water Conservation Fund. Apportionments include fiscal year 1994 interstate construction funds apportioned during fiscal year 1993.

² Total Federal Highway Trust Fund receipts are reported by the U.S. Department of the Treasury. Payments into the Highway Trust Fund attributable to highway users in each State are estimated by the Federal Highway Administration. Includes revenues from highway-user taxes only. Excludes interest.

³ Includes all funds apportioned or allocated from the Highway Trust Fund except for the following programs: Indian reservation roads, highway safety information, and local transportation assistance. These programs are either administered by other Federal agencies or are treated as administrative funds and cannot be easily attributed to individual States. Obligations are used to represent allocations for the following programs: Federal lands, rural highway public transportation demonstration, parkways and park roads, and alcohol safety incentive grants.

HIGHWAY USE OF MOTOR FUEL - 1992¹

¹ This table shows the fuel tax rates, along with the allocation of the revenues derived from the tax, in effect during 1993 and subsequent changes as provided by the Energy Policy Act of 1992 and the Omnibus Budget Reconciliation Act of 1993.

² The tax on compressed natural gas is 48.54 cents per thousand cubic feet which is roughly equivalent to 4.3 cents per gallon.

³ Section 1920 of the Energy Policy Act of 1992 expanded the definition of gasohol effective January 1, 1993. Prior to the Act, gasohol was defined as a blend of gasoline and at least 10 percent, by volume, fuel alcohol and blends containing less than 10 percent alcohol were taxed as gasoline. Under the Act, the product now called 10 percent gasohol corresponds to the old definition. Two additional types of gasohol are also defined. The term 7.7 percent gasohol includes gasoline-alcohol blends where the alcohol content is at least 7.7 percent but less than 10 percent. The term 5.7 percent gasohol includes gasoline-alcohol blends where the alcohol content is at least 5.7 percent but less than 7.7 percent.

¹ All amounts are net after payment of refunds and transfers. See table FE-101 for explanation of the various taxes deposited in the Trust Fund.² The transition quarter includes the months of July, August, and September 1976.³ Effective April 1, 1983, 1 cent per gallon of the motor-fuel tax is deposited in the Mass Transit Account within the Federal Highway Trust Fund. Effective December 1, 1990, the deposit is raised to 1.5 cents per gallon.⁴ Includes refunds of repealed taxes on inner tubes, tread rubber, lubricating oil, and truck parts and accessories.

¹ Apportioned pursuant to the Intermodal Surface Transportation Efficiency Act of 1991.

² Does not include funds from the Mass Transit or the National Recreational Trails accounts of the Highway Trust Fund.

³ Does not include funds from the following programs: Emergency Relief, Federal Lands Highway programs, Metropolitan Planning, National Magnific Leveling development, High-Speed Ground Transportation development, and Intelligent Vehicle-Highway System, among others. These funds are allocated from the Highway Trust Fund.

⁴ May not add due to rounding.

APPORTIONMENT FORMULAS - FEDERAL-AID HIGHWAY PROGRAM¹

FISCAL YEAR 1993

LEGISLATION AND STRATEGIC PLANNING DIVISION
OFFICE OF POLICY DEVELOPMENT

TABLE FA-4A
SEPTEMBER 1994

FUND	FACTORS	WEIGHT	STATUTE ²	MINIMUM APPORTIONMENT
Interstate System (For Completion Only)	Relative Federal Share of Cost to Complete the System ³	1	104(b)(5)(A)	No Minimum
Interstate Maintenance	Interstate System Lane Miles Vehicle Miles Traveled On Interstate System	55% 45%	104(b)(5)(B)	1/2 Percent
Interstate Substitute Highway Projects	Relative Federal Share of Cost to Complete the Projects ⁴	1	103(e)(4)	No Minimum
National Highway System (NHS)	1% to the Virgin Islands, Guam, American Samoa, and the Commonwealth of Northern Mariana Islands 99% to the States based on the percent share of apportioned funds for Fy 1987 - Fy 1991 for: Interstate 4R Primary Secondary Urban Bridge Replacement And Rehabilitation Interstate Construction (1/2% Minimum)	1	104(b)(1)	
Bridge Replacement And Rehabilitation (R&R)	Relative Share of Total Cost of Deficient Bridges	1	144(e)	1/4 Percent (10 Percent Maximum)
Surface Transportation Program (STP)	Same as for NHS applied to the total to be apportioned for NHS, Interstate Maintenance, Bridge R&R, and STP adjusted so that no State can receive less than 70 percent of its percent FY 1987-91 apportionments and allocations (except for States that receive Interstate System apportionment of more than \$50 million in FY 1992). Each State's apportionment made for Interstate Maintenance, NHS And Bridge R&R is then deducted from these STP State apportionments with the remainder being each State's STP apportionment.	1	104(b)(3)	
Congestion Mitigation And Air Quality Improvement Program	<u>Weighted Nonattainment Area Population of Each State</u> <u>Total Weighted Nonattainment Area Population of All States</u>	1	104(b)(2)	1/2 Percent (42 Percent Maximum) ⁵
Metropolitan Planning	Urbanized Area Population ⁶	1	104(f)(2)	1/2 Percent
Highway Safety Programs	Total Population Public Road Mileage	3/4 1/4	402(c)	1/2 Percent (Territories, 1/4 Percent)

¹ Each state is guaranteed an amount sufficient to ensure that its percentage of total apportionments in each fiscal year and allocations from the prior fiscal year for Federal-Aid highway programs shall not be less than 90 percent of the percentage of estimated tax contributions to the Highway Trust fund, not including the Mass Transit Account (23 U.S.C. 157).

² Denotes appropriate section in title 23 U.S.C. unless otherwise noted.

³ Apportionment factors are contained in the periodic reports, "A Revised Estimate of the Cost of Completing the National System of Interstate and Defense Highways", submitted to Congress as required in 23 U.S.C. 104(b)(5)(A).

⁴ Apportionment factors are contained in the periodic reports, "Revised Tables for Apportioning Fiscal Year Interstate Substitute Highway and Transit Funds," transmitted to Congress as required in 23 U.S.C. 103(e)(4).

⁵ No State with population over 15 million can receive more than 42 percent of the funds apportioned to those States.

⁶ Usually places of 50,000 or more persons. Definition contained in 23 U.S.C. 101(a).

¹ Negative numbers indicate money transferred to other projects or returned to FHWA.

² Projects identified in Sections 1103 - 1108 of the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991.

³ Includes Bridge Acceleration discretionary, Strategic Highway Research, Interim Scenic Byways, Highway Use Tax Evasion, and other miscellaneous programs.

**OBLIGATION OF FEDERAL FUNDS ADMINISTERED BY THE FEDERAL HIGHWAY ADMINISTRATION
DURING FISCAL YEAR 1993¹**

¹ The data reported in this table are from the Fiscal Management Information System. Due to rounding, the data may not agree with the summary of obligations contained in Report M-79 prepared by the Office of Fiscal Services. Negative numbers indicate adjustments to project.

² Projects identified in Sections 1103 - 1108 of the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991.

³ Programs discontinued under ISTEA.

⁴ Programs no longer receive separate appropriations. Under ISTEA, these programs are included in the Surface Transportation Program (STP). Obligations shown are for old funding. Obligations of new funding are included in STP column.

⁵ Includes Intelligent Vehicle Highway System, Highway Use Tax Exemption, and other miscellaneous Federal-aid account programs.

¹ The data reported in this table are from the Fiscal Management Information System.
² Projects identified in Sections 1103 - 1108 of the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991.
³ Programs discontinued under ISTEA.
⁴ Programs no longer receive separate appropriations. Under ISTEA, these programs are included in the Surface Transportation Program (STP). Expenditures shown are for old funding. Expenditures of new funding are included in STP column.
 Includes miscellaneous funds administered directly by FHWA and expenditure of funds transferred to FHWA by other agencies.

1/ All expenditures are for the Federal fiscal year.

2/ Includes timber sales, lease of Federal lands, and oil and mineral royalties.

3/ Differences between amounts in this column and those shown on Table SF-21 are due to funds in transit.

4/ Includes payments to territories.

5/ Excludes amounts expended for mass transit. See Table RE-10 for details on the Highway Trust Fund.

6/ Payments to States includes \$11.7 million paid to States for research and planning.

7/ Does not include work performed within the confines of military reservations.

8/ Excludes Forest Development Trails Program trails for timber access and forest management that do not provide full public access.

¹ Receipts and expenditures are for the Federal fiscal year. This table is a State-by-State breakdown of the national totals shown on Table F-A-5.² Grand Total represents Highway Trust Fund receipts, less amounts used for most transit. The total amount for each State represents Highway Trust Fund receipts used for highways in that State. The difference between receipts and expenditures is included in the Unidentified line.³ Excludes Highway-User revenue expended for most transit or nonhighway purposes. See Highway Trust Fund balance.

Tables H-10 and H-07 for the full disposition of highway-user revenue.

⁴ Grand Total represents interest income earned by the Highway Trust Fund. Interest is attributed to States based on the total amount each State received from the Highway Trust Fund.⁵ Amounts shown are Federal receipts and disbursements for highways that are not attributable to a single State. The difference between receipts and disbursements represents the net change in the Highway Trust Fund balance.

¹ This table contains Federal-aid funds obligated and Highway Improvement projects initially authorized in Fiscal Year 1993 by type of improvement and functional system. Additional funds obligated for projects initially authorized in prior fiscal years are not included. Therefore, obligations shown in this table will be less than those shown in Table FA-4B. Totals may not add due to rounding.

² Not identified by functional class category includes Federal-aid funded projects not otherwise included in the remaining functional system categories, such as Highway planning and research, metropolitan planning and research, metropolitan planning and research demonstration projects.

³ Other category includes Federal-aid funded programs not otherwise included in the remaining improvement types, such as bridge program special actions, highway planning and research and metropolitan planning.

Miles of Roadway Projects Underway (Miles)

From 1989 to 1993, an average of 13,724 miles of roadway were under construction in each of the 5 years. System preservation represents the largest portion of roadway projects. Construction of new routes has fallen by 24% since 1989.

1/ Most highway projects are multi-year. Obligation of funds may occur throughout the life of the project. In this table, obligations of funds are reported for the year in which they occur. The project accomplishments, such as lane miles added or improved and the number of bridges improved are reported only once.

2/ Includes only projects funded with monies set aside for rail-highway crossings and the hazard elimination programs under Sections 130 and 152 of Title 23 US Code. Safety improvements made with other funds are included in the roadway and bridge categories.

3/ This category includes projects such as bicycle or pedestrian facilities, beautification programs, historic preservation, and mitigation of pollution from highway run off.

4/ Includes engineering, right of way, planning and other similar obligations.

PRICE TRENDS FOR FEDERAL-AID HIGHWAY CONSTRUCTION¹

1987 BASE YEAR = 100

TABLE PT-1
SEPTEMBER 1993

YEAR	EXCAVATION	RESURFACING	STRUCTURES	COMPOSITE
1960	16.1	27.0	21.7	23.0
1965	19.4	27.4	24.8	25.0
1970	27.2	34.0	38.2	34.8
1971	27.6	36.8	40.0	36.8
1972	29.7	39.5	40.7	38.6
1973	33.0	42.9	45.4	42.5
1974	41.2	60.0	61.7	57.9
1975	42.5	61.0	60.6	58.1
1976	42.5	60.3	57.2	56.3
1977	47.8	64.3	59.7	59.8
1978	63.5	73.3	70.7	70.7
1979	66.8	89.0	88.6	85.5
1980	75.5	102.2	100.0	97.2
1981	72.6	101.4	94.9	94.2
1982	65.6	95.3	90.0	88.5
1983	71.8	94.4	86.7	87.6
1984	78.4	102.7	88.2	92.6
1985	92.4	109.6	98.1	102.0
1986	94.0	107.0	98.0	101.1
1987	100.0	100.0	100.0	100.0
1988	112.2	99.8	111.0	106.6
1989	99.0	99.4	118.4	107.7
1990	98.1	102.3	117.8	108.5
1991	95.5	106.5	112.5	107.5
1992	90.8	106.9	108.4	105.1
1993	103.2	113.5	105.3	108.3

¹ Detailed information is available from the Federal Highway Administration in its quarterly publication "Price Trends for Federal-aid Highway Construction," prepared by the Federal-aid and Design Division, Office of Engineering.

**DISTRIBUTION OF COSTS ON FEDERAL AID HIGHWAY CONSTRUCTION
CONTRACTS OVER \$1,000,000 EXCLUDING ALL SECONDARY PROJECTS
REPORTED DURING CALENDAR YEAR 1993 AS COMPLETED**

¹ Gross earnings of contractors' employees in the following classifications: Administrative and Supervisory, Skilled, Intermediate, and Unskilled labor.

² Aggregates consist of sand, gravel, slag, crushed stone, etc., for use in bases, portland cement concrete and bituminous surfaces, and portland cement concrete structures.

³ For both roadway and structures.

⁴ For various types of bituminous surfaces and bases.

⁵ Includes structural, reinforcing, culvert and miscellaneous steel.

⁶ Equipment includes fuel and lubricants 1.9%, but excludes operators' and mechanics' wages. Overhead includes contractors' on-site expenses such as mobilization, office rental, taxes, licenses, insurances, etc.

USAGE FACTORS FOR MAJOR HIGHWAY CONSTRUCTION MATERIALS AND LABOR¹

**U.S. WEIGHTED AVERAGES FOR ALL FEDERAL-AID HIGHWAY CONSTRUCTION
CONTRACTS OVER \$1,000,000, EXCLUDING ALL SECONDARY PROJECTS,
REPORTED AS COMPLETED DURING CALENDAR YEARS 1991, 1992, 1993**

FEDERAL-AID AND DESIGN DIVISION
OFFICE OF ENGINEERING

TABLE PT-4
SEPTEMBER 1994

TYPE OF MATERIALS AND LABOR	UNIT	NUMBER OF UNITS PER MILLION DOLLARS OF CONSTRUCTION COST ²
Cement (excludes cement in concrete pipe)	Ton	603
Bituminous material	Ton	351
Aggregates ³		
Purchased (by contractors)	Ton	14,162
Produced (by contractors)	Ton	3,801
Steel		
Structural (shapes, plates, h and sheet piling)	Ton	33
Reinforcing (pavement and structural reinforcement)	Ton	50
Culvert pipe (corrugated metal and structural plate, pipe arches and arches)	Ton	2
Miscellaneous (joint devices, tubular piling, etc.)	Ton	5
Concrete pipe (plain and reinforced)	Ton	85
Clay pipe and tile (includes some pvc pipe)	Ton	2
Lumber (all lumber products except timber piling)	Board foot	7,442
Petroleum products ⁴	Gallon	25,273
Guardrail (all types)	Linear foot	813
Bridge railing (all types)	Linear foot	211
Corrugated aluminum culvert	Pound	117
Signs (complete in place)	Dollar	9,486
Lighting (complete in place)	Dollar	10,617
Labor	Employee-hour	13,822

¹ For comparable standards of design, the usage of materials and labor on Federal-aid work is not appreciably different from their usage on non-Federal-aid work. The data in this table are obtained from Form FHWA-47.

² Right-of-way, preliminary engineering, and construction engineering costs excluded.

³ Includes sand, gravel, clay gravel, slag, crushed stone, etc.; used for all highway construction including bases, subbases, concrete surfaces, bituminous surfaces, structural concrete, and drainage work.

⁴ Fuel and lubricants for equipment and trucks. Grease converted to gallons on basis of 8 pounds per gallon.

DIRECT ON SITE EMPLOYMENT RATES ON FEDERAL-AID HIGHWAY CONSTRUCTION PROJECTS¹ 1980 - 1993

FEDERAL-AID AND DESIGN DIVISION
OFFICE OF ENGINEERING

TABLE PT-6
SEPTEMBER 1994

YEAR ²	FINAL CONSTRUCTION COSTS (MILLIONS OF DOLLARS)	TOTAL LABOR HOURS (THOUSANDS) ³	LABOR HOURS PER MILLION DOLLARS	NUMBER OF JOBS ⁴	NUMBER OF JOBS PER MILLION DOLLARS	GROSS LABOR EARNINGS (MILLIONS OF DOLLARS)	COST PER LABOR HOUR (DOLLARS)
1980	3,599	91,990	25,562	57,494	16	751	8.17
1981	6,171	133,708	21,667	83,568	14	1,221	9.13
1982	6,561	133,331	20,322	83,332	13	1,269	9.52
1983	5,433	107,169	19,726	66,981	12	1,101	10.28
1984	5,361	92,691	17,291	57,932	11	1,057	11.40
1985	5,168	84,371	16,327	52,732	10	998	11.83
1986	6,369	102,216	16,048	63,885	10	1,267	12.40
1987	6,226	98,152	15,764	61,345	10	1,285	13.09
1988	5,847	92,830	15,878	58,019	10	1,285	13.84
1989	7,785	123,083	15,810	76,927	10	1,633	13.27
1990	7,243	106,037	14,640	66,273	9	1,526	14.39
1991	8,062	116,983	14,510	73,114	9	1,671	14.29
1992	6,940	95,523	13,764	59,702	9	1,492	15.62
1993	7,524	98,850	13,821	61,781	8	1,547	15.65

¹ Data comes from reports submitted by contractors upon completion of projects costing at least \$1 million. Prior to ISTEA, data were not collected for projects on the FAS system or off the Federal-aid systems. Since ISTEA, only NHS data are collected.

² The year shown is the year FHWA received the report

of the completed project.

³ Labor hours shown are for "on-site" work only, and do not include off-site work at materials plants, suppliers, office staff, management, etc.

⁴ Number of jobs equals total hours divided by 1600.

1 This table combines motor-fuel and motor-vehicle data from Tables MF-3 and MV-3.
 2 Includes some estimates.
 3 The distributions shown include both specific dedications and the prorated share of motor-fuel and motor-vehicle portions of distributions from common funds with multiple revenue sources.
 4 Includes expenditures for county roads under State control.
 5 Some allocations for local general purposes may have been used in part for highways.
 6 Includes only allocations for specific nonhighway purposes.
 7 Gross allocations of highway-user revenues to State general funds were reduced by appropriations for highways from State general funds. These amounts are included with allocations for State highway purposes.
 8 In these States, most highway-user revenues are placed in the State general fund. For a discussion of general fund States' financing, see "Highway Finance" text under "Funds Allocable to Highway Users."

¹ This table includes the revenues from State taxes on all motor-vehicle fuels and related receipts in connection with motor-fuel taxation and administration. In many States, however, the tax on special fuels (fuels other than gasoline and diesel) is applicable only to the amount used on the highways. For the States that apply the tax to all fuel sold, the revenue and refund credits to users who are licensed at distributors.

² Includes, in some States, receipts in the form of tax credits for refund claims accepted by distributors acting as agents of the State and refund credits to users who are licensed at distributors.

³ For tax rates as of January 1, 1993 and rate changes during the year, see table MF-1211. States with variable rates are also identified in table MF-1211.

⁴ These are proceeds from taxes on nonhighway uses of gasoline deducted for the improvement of facilities other than highways. They are generally revenues from taxes on gasoline for aviation and marine use, but in some States, include taxes on gasoline used in off-highway recreational vehicles and snowmobiles. In California, revenues from the tax on gasoline used for agricultural purposes are included.

⁵ These are fees for inspection of motor-vehicle fuel. Insofar as possible, fees for inspection of fuels not used on highways have been eliminated.

1 See Table MF-1 for details of receipts. Differences between amounts shown and the adjusted net gasoline receipts shown on Table MF-1, column (7) are due to timing differences and funds in transit.
2 Includes some estimates.
3 The distributions shown include both specific dedications and the prorated share of motor-fuel tax distributions from common funds with multiple revenue sources.
4 Includes expenditures for county roads under State control.
5 Some allocations for local general purposes may have been used in part for highways.
6 Includes only allocations for specific nonhighway purposes.
7 Gross allocations of highway-user revenues to State General funds were reduced by appropriations for highways from State general funds. These amounts are included with allocations for State highway purposes.
8 In these States, most highway-user revenues are placed in the State general fund. For a discussion of general fund States' financing, see "Highway Finance" text under "Funds Attributable to Highway Users."

TAX RATES ON MOTOR FUEL - 1993¹TABLE MF-1217
SHEET 2 OF 2
OCTOBER 1994

STATE	SALES TAX	
	PERCENT	REMARKS
Alabama	4	Applies to fuel not taxable under volume tax laws.
Arizona	5	Applies to fuel not taxed under the motor-fuel or use-fuel taxes.
Arkansas	4.5	Special fuel for municipal buses and gasoline are exempt.
California	6	Applies to sales price including Federal and State motor-fuel taxes.
Colorado	3	Applies to fuel not taxable under volume tax laws.
Dist. of Col.	6	Applies to fuel not taxable under volume tax laws.
Georgia	4	A 3-percent "second motor-fuel tax" and a 1-percent sales tax apply to sales price including Federal motor-fuel tax.
Hawaii	4	Applies to sales price excluding Federal and State motor-fuel taxes. Alcohol fuels are exempt.
Illinois	6.25	Applies to sales price excluding Federal and State motor-fuel taxes. For gasoline, only 70 percent of the price is subject to sales tax.
Indiana	5	Applies to sales price excluding Federal and State motor-fuel taxes.
Iowa	5	Fuel on which the volume tax was paid and not refunded is exempt. Gasohol is exempt.
Kansas	4.9	Applies to fuels not taxable under the volume tax laws.
Kentucky	6	Applies to sales price, exclusive of Federal tax, of fuels not taxable under the volume tax laws.
Louisiana	4	Fuels subject to volume tax are exempt. Gasohol is exempt if alcohol produced in State.
Maine	6	Applies to motor fuel not taxed at the maximum rate for highway use under the volume tax laws.
Massachusetts	5	Applies to fuels not taxable under the volume tax laws.
Michigan	4	Applies to sales price including Federal tax except when used in a passenger vehicle with capacity of 10 or more for hire over regularly scheduled routes in Michigan.
Minnesota	6	Applies to fuels not taxable under the volume tax laws.
New Mexico	5	Applies to fuels not taxable under the volume tax laws. Ethanol blends deductible under the gasoline tax laws are exempt.
New York	4	Applies to sales price including Federal motor-fuel tax.
North Dakota	5	Applies to fuels not taxable under the volume tax laws.
Ohio	5	Applies to fuels not taxable under the volume tax laws.
Oklahoma	4.5	Applies to fuels not taxable under the volume tax laws.
Pennsylvania	6	Applies to fuels not taxable under the volume tax laws.
Rhode Island	7	Applies to sales price. Gasoline is exempt.
South Carolina	5	Applies to sales price of aviation gasoline only.
South Dakota	4	Applies to fuels not taxable under the volume tax laws.
Tennessee	4.5	Applies to sales price of aviation fuel only.
Texas	6.25	Applies to fuels not taxed or exempted under other laws.
Utah	5	Applies to fuels not taxable under the volume tax laws.
Virginia	2	Applies to retail sales within a county or city which is a member of any transportation district in which a heavy rail commuter mass transportation system or a bus commuter mass transportation system is owned and operated by a transportation agency.
Washington	6.5	Applies to sales price excluding Federal and State volume taxes. The following are exempt: certain providers of public transportation of handicapped persons and certain commercial fishing vessels.
Wisconsin	5	Applies to fuels not taxable under the volume tax laws.
Wyoming	4	Applies to sales price of LPG. Gasoline and diesel subject to volume tax are exempt.

¹ This table shows motor-fuel tax rates in effect as of January 1, and any subsequent changes that occurred throughout the year. Only taxes that are levied a dollar amount per volume of motor fuel are included on sheet 1. Taxes that apply to all petroleum products without distinguishing motor fuel are omitted. Local option taxes are included only when they have been adopted uniformly Statewide.

² The gasohol rates shown are for gasoline blended with 10 percent ethanol.

³ Average State tax rate weighted on the net volume taxed. The weighted average for gasoline and gasohol combined is 18.42 cents. The combined rate for diesel and LPG is 18.59 cents.

For States marked with an asterisk, see the notes below:

Alabama - The gasoline, gasohol, and diesel rates include a 2¢ per gallon inspection fee. Alabama-registered LPG vehicles pay an annual fee based on vehicle type in lieu of the volume tax.

Arizona - The diesel rate includes an 8¢ per gallon surcharge on fuel used to propel a diesel class motor vehicle.

Arkansas - The gasoline, gasohol, and diesel rates include 0.2¢ per gallon Environmental Assurance Fee. Applicants for LPG user permits must pay a fee based on vehicle size and weight in lieu of the volume tax.

California - LPG users may pay an annual fee in lieu of the volume tax.

Colorado - Owners of LPG vehicles registered in the State must pay an annual fee in lieu of the volume tax.

Delaware - Rates are variable, adjusted annually.

Florida - Tax rates are variable, adjusted annually. For gasoline and gasohol, in addition to the rates shown, there is a State-imposed State Comprehensive Enhanced Transportation System (SCETS) tax that varies by county from 0.4-3¢ per gallon. All but 1 county levies the SCETS tax, but a number levy less than the maximum rate. LPG vehicles registered in the State pay an annual fee in lieu of the tax on alternative fuels and the SCETS tax.

Idaho - LPG users may pay an annual fee based on vehicle weight in lieu of volume tax.

Illinois - Motor carriers pay an additional 5.9¢ per gallon on diesel.

Indiana - Motor carriers pay an additional 11¢ per gallon. LPG vehicles pay an annual fee.

Kansas - LPG users may pay an annual fee based on mileage and gross vehicle weight in lieu of the volume tax.

Kentucky - Tax rates are variable, adjusted quarterly. A 2¢ surtax is imposed on gasoline and 4.7¢ on special fuels for any vehicle with 3 or more axles. There is an additional 2¢ per gallon surtax on vehicles with a combined license weight over 59,999 pounds. The gasoline, gasohol, and diesel rates include 0.4¢ per gallon Petroleum Environmental Assurance Fee.

Louisiana - Owners of LPG vehicles of 10,000 pounds or less gross vehicle weight pay an annual fee based on mileage.

Massachusetts - Tax rates are variable, adjusted quarterly.

Michigan - Rate may be adjusted by the Commissioner of Revenue; law does not specify basis. There is a 6¢ per gallon discount if diesel is delivered into the fuel supply tank of a commercial vehicle licensed under the motor-carrier fuel tax.

Minnesota - Owners of LPG vehicles registered in the State pay an annual fee based on weight and mileage in lieu of the volume tax. There is a credit of 20¢ per gallon of alcohol used to make gasohol.

Mississippi - The gasoline, gasohol, and diesel rates include 0.4¢ per gallon dedicated to the Groundwater Protection Trust Fund.

Missouri - The gasoline and gasohol rates include 0.00¢ per gallon inspection fee. LPG vehicles 18,000 pounds or less gross vehicle weight registered in the State pay an annual fee in lieu of the volume tax.

Montana - LPG vehicles registered in the State pay an annual fee based on gross weight in lieu of the volume tax. Out-of-State vehicles purchase trip permits. There is an alcohol distiller credit of 30¢ per gallon of alcohol produced in the State with State agricultural products and used to make gasohol.

Nebraska - Rates are variable, adjusted quarterly. The gasoline, gasohol, and diesel rates include 0.6¢ per gallon Petroleum Release Remedial Action Fee.

New Hampshire - The gasoline, gasohol, and diesel rates include 0.7¢ per gallon Oil Discharge and Disposal Cleanup Fee. Alternative fuel vehicles pay twice the usual registration fee in lieu of the volume tax.

New Jersey - In addition to the rates shown, there is a Petroleum Products Gross Receipts Tax. The tax is computed on a cents per gallon basis and is applicable to a wide variety of petroleum products.

New Mexico - The gasoline, gasohol, and diesel rates include the Petroleum Products Loading Fee of \$80 per 8,000 gallons (1¢ per gallon). Owners of LPG-powered vehicles up to 26,000 pounds gross vehicle weight may pay an annual fee in lieu of the volume tax.

New York - Rates are variable, adjusted annually. There is an additional tax on motor carriers of 7.9¢ per gallon of gasoline and 8.7¢ on diesel. Rates include the Petroleum Business Tax of 14.84¢ per gallon.

The gasoline rate includes a 0.5 mll (0.05¢) per gallon Petroleum Testing Fee.

North Carolina - Rates are variable, adjusted semiannually.

North Dakota - A special excise tax of 2¢ is imposed on all sales of special fuel (diesel or LPG) that are exempted from the volume tax if the fuel is sold for use in the State. There is a producer credit of 40¢ per gallon of agriculturally derived alcohol produced in the State and used to make gasohol.

Ohio - Rates are variable, adjusted annually until July 1, 1993 when the rate becomes fixed. Commercial vehicles formerly subject to the highway use tax pay an additional 3¢ per gallon. Dealers are refunded 15¢ per gallon (10¢ effective 7/1/93) of each qualified fuel (ethanol or methanol) blended with unleaded gasoline.

Oklahoma - Rates shown include 1¢ per gallon tax dedicated to the Petroleum Underground Tank Release Environmental Cleanup Indemnity Fund. When the Fund reaches specified balance, future tax revenues will be deposited in a highway fund. The gasoline, gasohol, and LPG rates include 0.08¢ for fuel inspection. LPG users may pay an annual fee in lieu of the volume tax.

Oregon - The diesel and LPG rates shown are paid by users for vehicles not under the jurisdiction of Public Utility Commissioner. Vehicles under the jurisdiction of the Public Utilities Commissioner and paying motor-carrier fees are exempt from payment of the motor-fuel tax.

Pennsylvania - The rates include the Oil Franchise Tax for Maintenance and Construction, a variable rate tax adjusted monthly. Motor carriers pay an additional 6¢ per gallon.

Rhode Island - Rates are variable, adjusted quarterly.

South Dakota - There is a credit at the rate of the gasoline tax to distributors blending gasoline with ethanol to produce gasohol. There is also a producer incentive payment of 20¢ per gallon.

Tennessee - LPG users without permits must pay in advance at the beginning of the fiscal year; others pay quarterly. Fee is based on vehicle weight and fuel efficiency.

Texas - Owners of LPG vehicles registered in the State must pay an annual fee in lieu of the volume tax.

Utah - LPG is tax exempt if user purchases annual exemption certificate.

Vermont - Diesel vehicles 10,000 pounds and over pay 24¢ per gallon. LPG vehicles are subject to a registration fee 1.75 times the usual fee. The gasoline, gasohol, and diesel rates include 1¢ per gallon for the Petroleum Cleanup Fund.

Virginia - Motor-carrier road tractors, tractor trucks and straight trucks with more than 2 axles pay an additional 3.5¢ per gallon.

Washington - Owners of LPG vehicles pay an annual fee.

West Virginia - Rates are variable, adjusted annually.

Wisconsin - Rates are variable, adjusted annually.

Wyoming - LPG is subject to sales tax. The gasoline, gasohol, and diesel rates include 1¢ for the Underground Storage Tank Corrective Action Account.

¹ Because revenues consist primarily of motor-fuel taxes, shown in Table MF-1, and motor-vehicle and motor-carrier taxes shown in this table.² Where the registration year is not more than one month removed from the calendar year, registration-year receipts are given. Where the registration year is more than one month removed, calendar-year receipts are given.³ Includes fees for light trucks as reported in Table MV-9.⁴ Includes fees for light trucks as reported in Table MV-9.⁵ Special titling taxes imposed under general sales tax levies are not included.⁶ County or local officials in many States are allowed service charges for issuing registrations, operators' licenses, or for related services. Some of these charges are included with registration and other fees. The amounts shown in this column are estimates of service charges that are collected and retained by local officials and not reported elsewhere in this table.⁷ Numerous States impose taxes on the gross receipts of motor carriers in connection with general state sales taxes or taxes on all transportation companies or public utilities. This column includes only the proceeds of gross receipts taxes reported by the States as special taxes on motor carriers.⁸ Property taxes formerly levied on motor vehicles have been replaced by "Vehicle License Fees" in California, and by "Motor Vehicle Excise Taxes" in Washington. Because of the origin of these taxes, the administrative offices of the two States do not consider them to be road-user taxes. The amounts included with registration fees in this table are as follows:

California, automobiles \$2,147,805; buses \$5,362,848; trucks \$103,758,707; motorcycles \$22,307,711.

Washington, automobiles \$413,453,239; buses \$133,999; trucks \$144,358,263; trailers \$143,121,865; motorcycles \$3,224,860; dealers \$3,160.

⁹ Registration fees now exclude license taxes.¹⁰ In Connecticut, Maryland, Massachusetts, New York and Oregon register automobiles for two-year periods, Virginia for optional one- or two-year periods, and Louisiana for four-year periods, all on a staggered monthly basis.

⁵ Some allocations for local general purposes may have been used in part for highways.⁶ Includes only allocations for specific nonhighway purposes.⁷ Gross allocations of highway-user revenues to State general funds were reduced by appropriations for highways from State general funds. These amounts are included with allocations for State highway purposes.⁸ In these States, most highway-user revenues are placed in the State general fund. For a discussion of general fund financing, see "Highway Finance" text under "Funds Allocable to Highway Users."¹ See Table MV-2 for details of receipts. Differences between amounts shown and Table MV-2 are due to undistributed balances, funds in transit, etc.² Collection expenses in many States include service charges deducted by county and local collectors.³ The distributions shown include both specific dedications and the prorated share of motor-vehicle and motor-carrier revenue distributions from common funds with multiple revenue sources.⁴ Includes expenditures for county roads under State control.

¹ The table is one of a series on State Highway Finance. Table SF-21 summarizes the State receipts and disbursements for highways shown in Tables SF-1 and SF-2. Tables SF-3, SF-4, and SF-4C provide details on State receipts and expenditures for State roads. Tables SF-5, SF-6, and SF-6A provide details on State receipts and expenditures for local roads. Tables SF-7, SF-8, and SF-8A provide details on State capital and maintenance expenditures. Tables SF-9 and SF-10 provide details on the receipts and expenditures of individual State toll facilities.

² Amounts shown represent only those highway-user revenues that were expended on State of local roads. Amounts expended on nonhighway purposes are excluded. See Table DF for the full amount and disposition of highway-user revenues.

³ Amounts shown represent only those toll revenues that were expended on highways. See Table SF-38.

for information on the full amount of toll revenue. See Tables MT-1A and MT-1B for the amount of tolls expended on transit.

⁴ Amounts shown represent gross general fund appropriations for highway reduced by the amount of highway-user revenues placed in the State General Fund. See the "Offset by General Fund Spent for Highway" column on Table DF.

⁵ Bonds issued for and redeemed by refunding are excluded. Tables SF-1 and SF-2 include original and refunding issues. See SF table series for details on highway debt.

⁶ Segregation by system not identified by Kentucky, Massachusetts, and Nevada.

⁷ Includes all roads eligible for Federal aid. At critical urban collectors, and rural major collectors are eligible.

⁸ The Intermodal Surface Transportation Efficiency Act (ISTEA) of December, 1991, authorized the entire Federal-aid system as the Intermodal Highway System (MHS) until the U.S. Congress approves an official MHS.

¹ Tables SF-1 and SF-2 show the receipts and disbursements by the State for highways. See Table SF-2 for general note on SF series.

Table SF-2 for information on the full amount of tolls generated. See Table MF-1A and MF-1B for the amount of tolls expended on mass transit.

² Any differences between beginning balances and the closing balances on last year's Table SF-2 are the result of accounting adjustments. Inclusion of funds not previously reported, etc.

³ Amounts shown represent only those highway-user revenues that were expended on State or local roads. See Table DF for the full amount of and disposition of highway-user revenues.

⁴ Amounts shown represent only those toll revenues that were expended on highways. See Table SF-3B for information on the full amount of tolls generated. See Table MF-1A and MF-1B for the amount of tolls expended on mass transit.

⁵ Amounts shown represent gross general fund appropriations for highways reduced by the amount of highway-user revenues placed in the State General Fund. See the "Offset by General Funds Spent for Highways" column on Table DF.

⁶ 1993 State Highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Tables SF-1 and SF-2 show the receipts and disbursements by the State for highways.

See Table SF-21 for general note on SF series.

² Includes expenditures for local roads and streets under State control. Most local roads

are under State control in Delaware, North Carolina, Virginia, and West Virginia.

³ See SF tables for additional information on State debt for highways.⁴ 1993 State Highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Tables SF-3 and SF-4 summarize receipts and disbursements for State-administered roads and bridges. Amounts shown reflect activities of State highway departments, State park boards, other State agencies, and quasi-State toll facilities. Includes direct work on local roads under State control, and State highway debt service transactions. See Table SF-2 for general note on SF table series.

² Any differences between beginning balances and the ending balances on last year's Table SF-4 are the result of accounting adjustments. Inclusion of funds not previously reported, etc.

³ Amounts shown represent only those highway-user revenues that were expended on State-

administered roads. See Table DF for the full amount and disposition of highway-user revenues.

⁴ Amounts shown represent gross general fund appropriations for highways reduced by the amount of highway-user revenues placed in the State General Fund. See Tables SF-1 and DF.

⁵ Includes sales and use taxes, severance taxes, and other State taxes.

⁶ 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Tables SF-3 and SF-4 summarize receipts and disbursements for State-administered roads and bridges. See general note on Table SF-3 for details. See Table SF-21 for general note on SF series.² The classification of administration and miscellaneous expenditures is not uniform for all States because of indeterminate amounts charged to construction and maintenance projects.³ Includes redemption by refunding. See Table SB-2 for details.⁴ 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

1 Tables SF-5 and SF-6 summarize State receipts and disbursements applicable to local roads and streets not under State control. Data for local roads under State control are included in Tables SF-3 and SF-4. See Table SF-21 for general note on SF table series.

2 Any differences between beginning balances and the ending balances on last year's Table SF-6 are the result of accounting adjustments. Inclusion of funds not previously reported, etc.

3 Results shown represent only those highway-user revenues expended on local roads. See FHWA.

Table DF for the full amount of and disposition of highway-user revenues.

4 Gross general fund appropriations for highways were reduced by the amount of highway-user revenues placed in the State General Fund. See Tables SF-1 and DF.

5 Includes sales and use taxes, severance taxes, and other State taxes.

6 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

Table DF for the full amount of and disposition of highway-user revenues.

4 Gross general fund appropriations for highways were reduced by the amount of highway-user revenues placed in the State General Fund. See Tables SF-1 and DF.

6 Includes sales and use taxes, severance taxes, and other State taxes.

6 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Tables SF-5 and SF-6 summarize State receipts and disbursements applicable to local roads and streets not under State control. Data for local roads under State control are included in Tables SF-3 and SF-4. See Table SF-21 for general note on SF table series.

² Most local roads are under State control in Delaware, North Carolina, Virginia and West Virginia. Expenditures on these roads are included in Table SF-4.

³ Includes expenditures on Federal-aid projects that are located off the State system.

⁴ For the District of Columbia, the administration and highway police column includes administration, engineering and miscellaneous \$8,465,000 and highway police \$9,150,000.

⁵ 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Table SF-12A shows capital outlay for the Interstate, Arterial, and Collector systems by area and improvement type. The table does not include expenditures for roads functionally classified as local. Entries for some States may include estimates. Data reported for urban areas include both rural urban and urbanized areas.

² In some instances, the subcategories group a number of improvement types. New Construction includes both New Route and Relocation. 3R includes Minor Widening, Restoration, Rehabilitation, and Resurfacing.

³ State did not segregate data by functional system.

⁴ The totals and percentages include only the 48 States shown.

STATE HIGHWAY AGENCY CAPITAL OUTLAY AND MAINTENANCE - 1993

¹ This table is one of a series giving available information concerning State and quasi-State obligations incurred for highway purposes. Table SB-2 contains data on changes in indebtedness. Table SB-3 contains receipts and disbursements for debt service. Tables SB-2 and SB-3 are sub-tables of Tables SB-2 and SB-3, showing data for individual State toll facilities. Tables SB-2 and SB-3 are also sub-tables of Tables SB-2 and SB-3, showing data for State obligations for toll roads. When bonds were issued for multiple purposes, their par value is assigned to State highway, toll roads and streets, and nonhighway purposes on the basis of the initial distribution of net bond proceeds. The nonhighway portion is excluded from these tables. Also omitted are obligations with terms of less than 2 years; however, interest payments for short-term obligations are included in Table SB-3.

² A portion of proceeds from refunding bonds may be expended for current debt service. That portion is

³ Payment by bond purchaser for interest accrued from date of issue to date of sale.

⁴ "Posted rate" is declared rate printed on bonds.

⁵ When an asterisk appears in this column, the bonds are understood to be secured by the full faith and credit of the State. In addition to the specific revenues dedicated by law to debt service, and capital appreciation bond sold in 1989. The net value was included in the 1989 SB-1.

⁶ The amount shown represents the difference between actual par value and the net value of the capital appreciation bond sold in 1989. The net value was included in the 1989 SB-1.

⁷ Par value of issue not given. Estimated by FHWA.

¹ Table summarizes State receipts and disbursements for debt service of all State bond issues, including the toll facility issues shown in Table SB-37 and the State issues for local roads shown in Table SB-31. See Table SB-1 for general note on SB table series.

² Any differences between beginning balance and last year's closing balance is the result of accounting adjustments, or inclusion of funds not previously reported.

³ May include general fund, other State taxes, Federal funds and local funds.

¹ Tables SF-38 and SF-48 are concerned solely with receipts and disbursements for State and quasi-State toll facilities. See Tables LGR-38 and LGR-48 for data on public and quasi-public facilities operated by or for local governments. See Tables SB-21 and SB-31 for information on toll facility bond indebtedness. See Table SF-21 for general note on SF table series.

² Any differences between beginning balances and previous year's closing balances are the result of accounting adjustments, or inclusion of funds not previously reported.

³ Private companies have contracted with the State to build and operate these facilities, and transfer them to the State at a later date. The amounts shown represent only the State's oversight costs.

⁴ The toll portion of the new congestion relief route is not included in this table. Capital outlay for 1993 is included in the State expenditures for State administered roads.

⁵ 1993 annual report not received. Debt service shown is for 1992. All other amounts shown are for 1992.

⁶ Facility not open. Still under construction during 1993.

⁷ Seminole County Expressway became part of Florida Turnpike per October 10, 1990 agreement.

⁸ Freed 7/1/92.

⁹ Reclassified as a State Facility. Shown as a local toll facility prior to 1993.

¹⁰ Includes Chesapeake Bay, Francis Scott Key, Potomac River and Susquehanna River Bridges; Baltimore Harbor and Port McHenry Tunnels.

¹¹ Includes the Iteanon-Monticelli, New Hope-Lambertville, Interstate 78, Easton-Phillipsburg, Portland-Columbia, and Millford-Montague Bridges.

¹² Includes the Newburgh-Beacon, Mid-Hudson, Rip Van Winkle, Kingston-Rhinecliff and Bear Mountain Bridges.

¹³ Includes the George Washington, Bayonne and Goethals Bridges; Holland and Lincoln Tunnels.

¹⁴ Includes the Walt Whitman, Ben Franklin, Baby Ross and Commodore Barry Bridges.

¹⁵ Full name of the authority is West Virginia Turnpike, Economic Development and Tourism Authority.

¹ Tables SF-38 and SF-48 are concerned solely with receipts and disbursements for State and quasi-State toll facilities. See Tables LCF-38 and LCF-48 for data on public and quasi-public facilities operated by or for local governments. See Tables SF-21 and SF-31 for information on toll facilities bond indebtedness. See Table SF-21 for general notes on SF table series.

² Includes direct expenditures for nonhighway purposes and transfers to other agencies for both highway and nonhighway purposes. The amount used for nonhighway purposes can be determined by taking total tolls from SF-38 and subtracting tolls used for highways on Tables SF-21 and tolls used for mass transportation on table MF-1.

³ Private companies have contracted with the State to build and operate these facilities, and transfer them to the State at a later date. The amounts shown represent only the State's ownership costs.

⁴ The toll portion of the new congestion relief route is not included in this table. Capital outlay for 1993 is included in the State expenditures for State administered roads.

⁵ 1993 annual report not received. Debt service shown is for 1993. All other amounts shown are for 1992.

⁶ Facility not open. Still under construction during 1993.

⁷ Seminole County Expressway became part of Florida Turnpike per October 10, 1990 agreement.

⁸ Freed 7/1/92.

⁹ Reclassified as a State Facility. Shown as a local toll facility prior to 1993.

¹⁰ Includes Chesapeake Bay, Francis Scott Key, Potomac River and Susquehanna River Bridges.

¹¹ Includes the Trenton-Morrisville, New Hope-Lambertville, Interstate 78, Easton-Phillipsburg, Portland-Columbia, and Millard-Montague Bridges.

¹² Includes the Newburgh-Beacon, Mt-Hudson, Rip Van Winkle, Kingston-Rhinecliff and Bear Mountain Bridges.

¹³ Includes the George Washington, Bayonne and Goethals Bridges; Holland and Lincoln Tunnels.

¹⁴ Includes the Walt Whitman, Ben Franklin, Betsy Ross and Commodore Barry Bridges.

¹⁵ Full name of the authority is West Virginia Turnpike, Economic Development and Tourism Authority.

¹ Table MT-1A is the first in a series of tables on mass transit. Table MT-1A includes only direct State expenditures for transit projects. This table does not include State-owned or State-contracted mass transit operators. Table MT-1B shows State transfers to mass transit operators. Table MT-2A shows transit operators' funding of capital expenditures. Table MT-2B shows transit operators' funding for operating expenditures. NOTE: Information contained in Tables MT-2A and MT-2B is one year behind that contained in Tables MT-1A and MT-1B.

² 1993 State Highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

1 Table MT-1B includes transfers to local governments for transit purposes and transfers to operators. State transfers shown on Table MT-1B may not agree with receipts shown on Tables MT-2A and MT-2B for corresponding year. Tables MT-2A and MT-2B are generated from mass transit operator reports to the Federal Transit Administration while Table MT-1B is generated from State government reports to FHWA.

2 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ Table MT-18 includes transfers to local governments for transit purposes and transfers to operations. State transfers shown on Table MT-18 may not agree with receipts shown on Tables MT-2A and MT-2B for corresponding year. Tables MT-2A and MT-2B are generated from mass transit operator reports to the Federal Transit Administration while Table MT-18 is generated from State government reports to FHWA.

² 1993 State highway finance data not reported for Kentucky and Massachusetts. Estimated by FHWA.

¹ This table summarizes local governments' receipts from motor-fuel taxes, motor-vehicle fees, and special imposts on motor carriers, and tolls. This table includes receipts from State imposts that are transferred to local governments for distribution. Data for some States have been estimated by FHWA. See Table LGF-1 for details.

² Differences between amounts shown here and in last year's Highway Statistics' Tables DF and SF-5A are caused by State delays in transferring revenues dedicated to local governments, and by local governments' reallocations of State funds.

LOCAL GOVERNMENT FUNDING FOR HIGHWAYS - SUMMARY - 1992¹

¹ This table is one of a series on Local Highway Finance. Table LGF-21 summarizes the receipts and disbursements of local governments for highways. Data for some States have been estimated by FHWA. See Table LGF-1 for details.

² The amounts shown are identical with the receipts allocated for highways shown on

Table LGF. See Table LDF for allocations for mass transportation, and nonhighway purposes.

³ Bonds issued for and retired by refunding are excluded. See table LGF-2 for further information on the status of local highway debt.

¹ Tables LGF-1 and LGF-2 summarize the receipts and disbursements for highways by local governments, including toll facilities. See Table LGF-2 for general note on local series.

² Excludes proceeds from the sale of short term issues (notes). See Table LGF-2 for additional information on local government debt for roads and streets.

³ See Table LDF for gross receipts and distributions of highway-user revenues, including local toll receipts.

⁴ In these States, most local roads and streets are under State control. Expenditures on these roads are included in State Highway Finance Table series.

⁵ Estimated by FHWA. Local government reporting is optional in even numbered years.

LOCAL GOVERNMENT DISBURSEMENTS FOR HIGHWAYS - 1992¹

COMPILED FROM REPORTS OF STATE AND LOCAL GOVERNMENTS

¹ Tables LGF-1 and LGF-2 summarize the receipts and disbursements for highways by local governments, including toll facilities. See Table LGF-21 for general note on local series.

² Excludes retirements of short term debt (notes). See Table LGB-2 for additional information on local government debt for roads and streets.

³ Engineering costs were estimated for some States.

⁴ In these States, most local roads and streets are under State control. Expenditures on these roads are included in State Highway Finance table series.

⁵ Estimated by FHWA. Local government reporting is optional in even numbered years.

LOCAL GOVERNMENT OBLIGATIONS FOR HIGHWAYS - 1992 CHANGE IN INDEBTEDNESS DURING YEAR¹

¹ This table summarizes the change in status of the Highway obligations of county and township governments including toll authorities. See table LGB-21 for general note on local highway finance series.

² Any difference between amount outstanding at beginning of the year and the amount outstanding at the end of the previous year may have resulted from accounting adjustments.

changes in reporting year, rounding, etc.

³ Most local roads and streets are under State control in Delaware, North Carolina, Virginia and West Virginia.

⁴ Estimated by FHWA.

¹ This table summarizes the debt status of publicly owned toll facilities operated by local governments, local road and bridge districts and specially created authorities. Only facilities with outstanding bonds are included.

² Amounts in this column include all funds available for future principal and interest payments.

³ Park Boulevard Bridge freed in 1991.

⁴ Reclassified as a State facility, and will be shown in Table SF-48 in future years.

⁵ Facility is also responsible for approximately \$ 2.4 billion of bonds issued for mass transit purposes.

¹ This table summarizes the receipts for publicly owned toll facilities operated by local governments, local road and bridge districts and specially created authorities. See Table LGF-21 for general note on local highway finance series.

² Park Boulevard Bridge freed in 1991.

³ Reclassified as a State facility, and will be shown in Table SF-3B in future years. Miscellaneous income shown includes \$3,964,357 from State motor-vehicle license tax.

⁴ Estimated by FHWA. Data not reported.

⁵ Miscellaneous income shown includes \$13,425,750 in State aid and a \$16,129,872 subsidy from New York City.

¹ This table summarizes the disbursements for publicly owned toll facilities operated by local governments, local road and bridge districts and specially created authorities. See Table LGF-32 for names of operating authorities. See Table LGF-21 for general note on local highway finance series.

² Includes direct expenditures for nonhighway purposes and transfers to other State and local agencies for both highway and nonhighway projects.

³ Park Boulevard Bridge freed in 1991.

⁴ Reclassified as a State facility, and will be shown in Table SF-4B in future years.

⁵ Estimated by FHWA. Data not reported.

⁶ Transfers shown include amounts used for maintenance, operations and debt service of the New York City Transit Authority, the Metropolitan Transportation Authority and the Triborough Transportation Project.
