

APPENDIX B – ACKNOWLEDGEMENTS

The authors express their appreciation to the FHWA project management team - Danny Jenkins and Steven Jessberger - and the FHWA Panel of WIM Experts for their valuable input, guidance, and useful critiques of this work. This Guide and supplemental videos benefitted from contributions of many panel members, including:

- Richard Bush - Virginia DOT, Traffic Engineering Division
- Benjamin Craig – NV DOT, Vehicle Size and Weight Program Manager
- Christ Dimitroplos, P.E. – AZ DOT, Program Manager, Weigh-in-Motion Program
- David Fifer – Oregon DOT, Motor Carrier Transportation Division
- Tom Foltz – MI DOT, Electronic Services
- Goro Sulijoadikusumo – HI DOT/Highways Planning
- Tedd Little – MT DOT, Transportation Planning Division
- Tony Niemi – WA DOT, Transportation Data, GIS & Modeling Office
- Stan Norikane – CalTrans, Traffic Operations, Weigh-in-Motion
- Kent Taylor – NC DOT, Traffic Survey Group
- Benjamin Timerson, P.E. – MN DOT, Program Manager Transportation Data & Analysis
- James Whitley – FDOT, Traffic Data Collection Manager

A special thank you goes to the state agencies and their WIM installers who allowed the authors to record their installation crews in action, including:

- C & P Engineering, Inc.
- Digital Traffic Systems, Inc.
- Sandra Mapel, Ohio DOT
- Southern Traffic Services, Inc.
- Stanley Norikane, Caltrans
- Steven Bentz, FDOT

Finally, thank you to the WIM manufacturers who provided information about various WIM sensors and controllers.

- Cestel
- Intercomp Company
- International Road Dynamics, Inc.
- Kistler Instrument Corporation
