1/ Most highway projects are multi-year. Obligation of funds may occur throughout the life of the project. In this table, obligations of funds are reported for the year in which they occur.

Deobligations of prior year Federal funds are subtracted from the amounts shown. Negative numbers for a category indicate that deobligations of prior year funds exceed obligations of current year funds. The project accomplishments for multi-year projects, such as lane miles added or improved and the number of bridges improved are reported only once, in the initial year of the project. The data reported in this table are from the Fiscal Management Information System.

2/ Includes projects not identified by functional system.
