(1) Totals may not equal sum of parts due to rounding. Data is not available for older age groups (i.e., ages 70 and older) prior to 1994.
(2) Variances in Under 16 drivers reflect changes in the reporting requirements for this age cohort over time. Starting in 1990, States were required to only report the number of drivers under 16 with full driving privileges. Beginning in 2006, to reflect the growing use of Graduated License Programs (GDLs), States were required to include drivers with provisional licenses. Beginning in 2012, States were required to exclude drivers with learner permits.
