TRAFFIC VOLUME TRENDS

July 2017

Travel on all roads and streets changed by **+0.8%** (+2.2 billion vehicle miles) for July 2017 as compared with July 2016. Travel for the month is estimated to be 283.6 billion vehicle miles.

The seasonally adjusted vehicle miles traveled for July 2017 is 268.2 billion miles, a 1.2% (3.3 billion vehicle miles) increase over July 2016. It also represents a 0.5% increase (1.3 billion vehicle miles) compared with June 2017.

Cumulative Travel for 2017 changed by **+1.5%** (+26.8 billion vehicle miles). The Cumulative estimate for the year is 1,864.6 billion vehicle miles of travel.

Note: All data for this month are preliminary. Revised values for the previous month are shown in Tables 1 and 2.

All vehicle-miles of travel computed with Highway Statistics 2015 Table VM-2 as a base.

Compiled with data on hand as of September 07, 2017.

Some historical data were revised based on HPMS and amended TVT data as of December 2015.

For information on total licensed drivers in the U.S. visit http://www.fhwa.dot.gov/policy/ohpi/hss/hsspubs.htm. Select the year of interest then Section III (Driver Licensing).

For information on total registered motor vehicles in the U.S., visit http://www.fhwa.dot.gov/policy/ohpi/hss/hsspubs.htm. Select the year of interest and Section II (Motor Vehicles).

Seasonally adjusted vehicle miles traveled removes seasonal changes allowing month-to-month, year-to-year trend comparisons.
**Traffic Volume Trends - July 2017**

Based on preliminary reports from the State Highway Agencies, travel during July 2017 on all roads and streets in the nation changed by **+0.8%** (+2.2 billion vehicle miles) resulting in estimated travel for the month at **283.6** billion vehicle-miles.

This total includes **91.4** billion vehicle-miles on rural roads and **192.2** billion vehicle-miles on urban roads and streets.

Cumulative Travel changed by **+1.5%** (+26.8 billion vehicle miles).

The larger changes to rural and urban travel are primarily because of the expansion in urban boundaries reflected in the 2000 census. Travel estimates for 2004 and beyond will also reflect this adjustment.

Travel for the current month, the cumulative yearly total, as well as the moving 12-month total on all roads and streets is shown below. Similar totals for each year since 1992 are also included.

</table>

Traffic Volume Trends is a monthly report based on hourly traffic count data. These data, collected at approximately 5,000 continuous traffic counting locations nationwide, are used to determine the percent change in traffic for the current month compared to the same month in the previous year. This percent change is applied to the travel for the same month of the previous year to obtain an estimate of travel for the current month. Because of the limited sample sizes, caution should be used with these estimates. The Highway Performance Monitoring System provides more accurate information on an annual basis.

** System entries may not add to give "All Systems" total due to rounding for Page 2 to 8.
